

THE QUINCY PATRIOT,

The Quincy Patriot.

SATURDAY, OCTOBER 2, 1869.

"Born to no Master, of no Sect are We."

We are obliged to lay over much matter which was intended for to-day's paper. Among the articles is a lengthy and interesting letter from "Progress."

KNOCKED DOWN BY A TRAIN. As Mr. Hosea B. Edson, who resides on Granite street, in this town, was returning on Tuesday evening last, from his daily labors in Braintree, he was knocked down by the inward South Shore train as it was approaching the Quincy Adams station. The train was stopped and immediately backed to the spot where the accident happened. There laid our townsmen badly bruised, but fortunately no bones were broken. He was taken to the centre depot, on the cars, and from there carried to his residence. Dr. Underwood was called, and we are pleased to learn that he is gradually recovering. It was shamefully stated in some of the Boston dailies that Mr. Edson was intoxicated, but we are happy to state that it is entirely untrue.

INFANTICIDE. A female infant was found on Friday morning of last week, near Mr. Owen Adams' wharf, at the Point, by Mr. James W. Vinal. It was rolled up in a pillow case and a piece of sail cloth, and it is supposed to have been strangled before it was thrown into the briny deep. Coroner Bass was called, and an inquest was held, but in hopes of gaining some information of the wicked and cruel mother who could thus take the life of her darling infant, the meeting was adjourned to this afternoon, at four and a half o'clock, at the Selectmen's Room.

NEW TEACHERS. At a meeting of the School Committee held on Saturday last, the following persons were selected as teachers to fill vacancies in our public schools:—

Mr. Caldwell, of Boston, as Principal of the Willard Grammar School.

Miss Louise Davis, of Haverhill, as Assistant in the High School.

THE HINGHAM FAIR. The annual agricultural exhibition at Hingham this week was one of the finest ever given by the society. The weather was delightful and a large collection of people gathered to enjoy the pleasures awaiting them. The town team consisting of thirty-nine yoke of oxen, each yoke attended by a driver, attracted much attention. The cavalcade of horses made a fine show. The wheelbarrow race was very exciting. The display of grapes was the best we have seen. The dinner was unusually tempting, and good justice was done to it. Our townsmen, Peter Butler, Esq., for Ayrshire, received the first premium of \$3.00. The Sailors Snug Harbor of this place, exhibited a splendid Jersey heifer which took the first premium of \$3.00; also several other premiums on stock, and a gratuity of \$2.50 on basket work.

PICNIC. The members of Christ Church, Sandy school will meet this Saturday afternoon, at the Church at one o'clock for a basket picnic.

FAIRS. Our people have undoubtedly enjoyed much of late at the various fairs and exhibitions. Still, there is one place in Boston where we would urge our readers to visit. It is free of expense, and an hour, at least, can be spent very pleasantly; we know by experience. The large halls of Messrs Buckley & Bancroft, 503 and 511, Washington street, Boston, are filled with costly and beautiful furniture, finished in the most exquisite manner—comprising every thing desired in this department, and much novel and wonderful specimens unusually attractive, which would adorn any household. Those wishing to buy we would particularly invite to call, and also those who do not, as it is well worthy a visit. Messrs. Buckley & Bancroft stock is immense,—of all grades and prices,—and is warranted to give the best of satisfaction.

LOCALS. The Rogers Light Guards of Boston paraded our streets yesterday, and had a collision in the Town Hall. The weather is charming—warm and pleasant as you please.

Messrs. Allen & Wilson have dissolved partnership.

The old town scales are being removed. A slight frost was seen in this vicinity, on Monday morning last—the first of the month.

MILLINERY. Miss Hussey has received a fine stock of Fall Millinery, which the ladies of Quincy should examine.

THE NURSERY. The October number of this child's Monthly has been received and the youngest reader will find great pleasure in looking at the fine illustrations and reading the pretty stories.

SATURDAY, OCTOBER 2, 1869.

THE QUINCY PATRIOT,

The Quincy Patriot.

SATURDAY, OCTOBER 2, 1869.

"Born to no Master, of no Sect are We."

We are obliged to lay over much matter which was intended for to-day's paper. Among the articles is a lengthy and interesting letter from "Progress."

KNOCKED DOWN BY A TRAIN. As Mr. Hosea B. Edson, who resides on Granite street, in this town, was returning on Tuesday evening last, from his daily labors in Braintree, he was knocked down by the inward South Shore train as it was approaching the Quincy Adams station. The train was stopped and immediately backed to the spot where the accident happened. There laid our townsmen badly bruised, but fortunately no bones were broken. He was taken to the centre depot, on the cars, and from there carried to his residence. Dr. Underwood was called, and we are pleased to learn that he is gradually recovering. It was shamefully stated in some of the Boston dailies that Mr. Edson was intoxicated, but we are happy to state that it is entirely untrue.

Having completed all the arrangements thus far, there was no time lost in the choice of a referee, who happened to be a well known sporting man of Boston. The usual ceremonies of shaking hands having been completed, the men stood up at half-past three for the fight. Both men were in fine muscular condition, and the good points of both were scanned and commented upon by the spectators. Seven rounds were fought, occupying twenty-five minutes. The first round occupied seven minutes, during which there was considerable sparring and few hits, the round ending in McMahon pulling his opponent down and being rolled over by him.

In the second round there were several good exchanges and both fell together at the ropes. In the third and fourth rounds Stewart forced the warfare and had the best of the battle. In the fifth round McMahon, after being peppered three or four times, got thoroughly mad and reached Stewart's jaw with a right-handed smash, which knocked the latter down, while McMahon also fell with his own momentum.

On the sixth round McMahon, encouraged by his late success, walked boldly to Stewart's corner and was immediately knocked down. This satisfied McMahon, who, although urged to go to the scratch once more, could not be prevailed upon to face his opponent, and the fight was given to Stewart. The loser shed tears of mortification at his defeat.

MECHANIC'S FAIR. The Association was founded by the celebrated goldsmith, Paul Revere, born 1735, died 1818, who helped make that celebrated tea-party, in Boston Harbor, who ordered the lantern to be hung from Old North Church, Salem street, as signal, and then made his "midnight ride" to Lexington and Concord. It is estimated that 200,000 people attend these exhibitions. Of musical instruments there is not so large a variety as at former fairs but the picture galleries are very fine; first of which is that of Prang's world renowned chromos in charge of Dudley Redpath, Esq. The marine views of Moran & DeHaas attract admiring eyes. They will soon be ready for the public. The work of chromo lithography is in actual operation in the fair as it is carried on in the factory. Black has a magnificent series of iceberg photographs and Whipple a series of admirable portraits of well known Bostonians. Among the useful as well as beautiful is Colton's refrigerators where ice creams are made in a few minutes without labor; Schank's dust pan with a stiff upper lip and down in the mouth! so that the dust cannot escape; and the reversible griddle which is a great aid to culinary work; J. L. Bates shows his beautiful stereoscopes, and H. G. Smith some fine reproductions of Landseer.

GOOD BYE, CHIGNONS. The French Empress degrades that high puffs and grizzles shall no longer exist. Long braids looped at the neck and falling to the shoulders are hereafter the style. The husband crop at Long Branch, is said to have been a failure this season. The few that were harvested, however, are expected to show a large yield. A day's work in the great Ames shovel factory, at North Easton, Mass., means 400 dozen shovels. The establishment employs about 500 hands, and its annual business is \$1,500,000.

A child has just been born in the town of Pittston, Me., which completes four generations of a family born within half a century. The mother is fifteen years of age, the grandmother twenty-eight years and the great-grandmother forty-eight years.

GOOD BYE, CHIGNONS. The French Empress degrades that high puffs and grizzles shall no longer exist. Long braids looped at the neck and falling to the shoulders are hereafter the style.

The freight on peaches over the New Jersey Railroad has reached \$430,000 this season.

Saturday is the marrying day in Paris when they average about 2000.

It is said that Senator Sumner's speech on the Alabama Claims has been translated into Spanish and circulated in Chile and the adjoining republics.

A Poughkeepsie boy who found and returned \$2,000 to its owner, received fifty cents from the grateful recipient. Too generous.

CLOTHING. Those wishing to buy good clothing in Boston find it difficult, often, to tell where it is best to go for a good reliable article at a reasonable price; we, therefore, would suggest them to Washington street. Messrs L. D. Boise & Co., have choice goods, and their garments are made equal to the best. They also have a custom department to suit those wishing to have their clothes made to measure.

THE WEALTH OF NEW YORK. The aggregate valuation of property in the State of New York this year is \$1,860,127,770—\$94,031,630 more than last year. The valuation of the real estate is \$1,418,152,855. The valuation of property in New York city has increased \$73,704,814 during the past year.

HAIR VIGOR. In common with many others we have felt a lively interest in the investigations which Dr. Ayer has been making to discover the causes of failure of the hair, and to provide a remedy. His researches are said to have been much more thorough and exhaustive than any ever made before. The result is now before us under the name of AYER'S HAIR VIGOR. We have given it a trial, and with full satisfaction. It equals our most favorable anticipations. Our gray hairs have disappeared, or resumed their original color; and a visible crop of soft, silken hair has started on a part of the scalp which was entirely bald.—*Daily Spy.*

THE INCOME TAX. The Income Tax expires by limitation in 1870. The law of 1862 provides that "the duties on incomes herein imposed shall be due and payable on or before the 30th of June, in the year of 1863, and in each year thereafter until and including the year 1866, and no longer." The act of 1862 continued and modified the income tax, and provided that it "shall be levied on the first day of March, and be due and payable on or before the thirtieth day of April, in each year, until and including the year 1870, and no longer." The probability is that this tax will not be renewed.

MILLINERY. Miss Hussey has received a fine stock of Fall Millinery, which the ladies of Quincy should examine.

THE NURSERY. The October number of this child's Monthly has been received and the youngest reader will find great pleasure in looking at the fine illustrations and reading the pretty stories.

For the Patriot.

SPECIAL PROVIDENCE.

"Common Sense" says that a belief in Special Providence would necessitate the conclusion that churches were hypocritical and wicked because so many of the steeples of their meeting-houses blew down Sept. 8. *Non-sense*, we reply. The only lesson taught by the prostration of so many weather cocks is this—"tis *cane* to aspire. Aspiring building committees must be wiser. But to say that they, like the Galileans of old, were "sinners above all others," is absurd. Rockport mourns twenty-one seamen lost by the recent gale. Does this prove them more wicked than Quincy? Suffering, of itself, does not prove guilt; Job's three comforters that she may continue to labor faithfully and successfully.

Now, as to general providence, none but an atheist doubts it. If material things have a cause their phenomena must have a cause. That ultimate cause is God. His control of matter and mind is his general providence. Striking interpositions we are wont to regard as special providences. Scriptural biography is full of such. Human lives are not less so. A friend of the writer's changed his seat a moment before the Norwalk disaster and so escaped an awful death. An engineer on one of our roads one night stopped his train, when going at full speed, in obedience to an inward impulse, which he could neither explain or repress, though he tried to do both.—He knew he would be ridiculed, but after trying in vain to rid himself of the presentiment of danger he stopped, jumped from the engine, walked a few steps ahead, along the track, and was horrified to find that a side switch had been set so as to throw the train squarely up against a granite wall twenty feet high! No reasonable man can fail to see a special interposition of His hand who watches the sparrow's fall. But how can we determine the presentiment of danger he stopped, jumped from the engine, walked a few steps ahead, along the track, and was horrified to find that a side switch had been set so as to throw the train squarely up against a granite wall twenty feet high! No reasonable man can fail to see a special interposition of His hand who watches the sparrow's fall. But how can we determine the presentiment of danger he stopped, jumped from the engine, walked a few steps ahead, along the track, and was horrified to find that a side switch had been set so as to throw the train squarely up against a granite wall twenty feet high! No reasonable man can fail to see a special interposition of His hand who watches the sparrow's fall. But how can we determine the presentiment of danger he stopped, jumped from the engine, walked a few steps ahead, along the track, and was horrified to find that a side switch had been set so as to throw the train squarely up against a granite wall twenty feet high! No reasonable man can fail to see a special interposition of His hand who watches the sparrow's fall. But how can we determine the presentiment of danger he stopped, jumped from the engine, walked a few steps ahead, along the track, and was horrified to find that a side switch had been set so as to throw the train squarely up against a granite wall twenty feet high! No reasonable man can fail to see a special interposition of His hand who watches the sparrow's fall. But how can we determine the presentiment of danger he stopped, jumped from the engine, walked a few steps ahead, along the track, and was horrified to find that a side switch had been set so as to throw the train squarely up against a granite wall twenty feet high! No reasonable man can fail to see a special interposition of His hand who watches the sparrow's fall. But how can we determine the presentiment of danger he stopped, jumped from the engine, walked a few steps ahead, along the track, and was horrified to find that a side switch had been set so as to throw the train squarely up against a granite wall twenty feet high! No reasonable man can fail to see a special interposition of His hand who watches the sparrow's fall. But how can we determine the presentiment of danger he stopped, jumped from the engine, walked a few steps ahead, along the track, and was horrified to find that a side switch had been set so as to throw the train squarely up against a granite wall twenty feet high! No reasonable man can fail to see a special interposition of His hand who watches the sparrow's fall. But how can we determine the presentiment of danger he stopped, jumped from the engine, walked a few steps ahead, along the track, and was horrified to find that a side switch had been set so as to throw the train squarely up against a granite wall twenty feet high! THE QUINCY PATRIOT,

Poetry.

THE TIME WE LIVE IN.

We are living, we are dwelling,
In a grand and awful time;
In an age on ages telling,
To be living is sublime.
Hark! the waking up of nations,
Gog and Magog to the fray;
Hark! what soundeth?—it is creation
Groaning for its latest day?
Will play, then, will ye dally,
With your music and your wine?
Up! it is Jehovah's rally!
God's own arm hath need of thine.
Hark! the onset! will ye fold your
Faith-clad arms in lazy look?
Up! O up, then, drowsed soldier!
Worlds are charging to the shock.
Worlds are charging—heaven beholding;
Then hast but an hour to fight;
Now the blazoned cross unfurling,
On—right onward, for the right!
On! let all the soul within you
For the truth's sake go abroad!
Strike! let every nerve and sinew
Till on ages—till for God!

Farmers' Department.

FALL CHICKENS.

It is a general observation among poultry breeders that "late fall and winter chickens usually fail;" and experience shows that whether in open or severe winters, chicken raising is almost impossible. It has been said that, in warm houses or in glass houses, with a mild, equable temperature, winter chicks can be reared; but we venture to say that the percentage of deaths among them would be so large that the profits would not meet the expense. That the deaths among late chickens do not proceed from exposure to cold weather we have proved; for we have had broods come off when the weather was as mild as early September, and have kept them in a warm room where the temperature never was lower than 80 degrees. We supplied them with all the variety of food that they could possibly obtain in running at large in spring or summer, and every possible care was taken of them, but they invariably died. Our experience was that of many others. The reason that chickens hatched before the first of March are so unfortunate is that the nights are too long. We have proved that a chicken's crop will completely empty itself in about five hours; the bird takes no fat, for it needs every particle of nutriment to supply the wants of its growing body. When its stomach is empty the system has no reservoir to draw from, and if too long an interval occurs between its supplies of food, the bird must starve; hence, in a season of the year when the nights are from twelve to fifteen hours long, starvation and not cold weather in our latitude prevents the rearing of young chickens. We are of the opinion that if the young birds could be fed in the night, say when it is about half passed, that cold weather, if reasonably provided against, would not be a bar to success. There is room for investigation in this matter, and if a plan can be devised by which nutriment may be mechanically introduced into the chickens' stomachs, a profitable field may be opened for the employment of a season that is usually not the busiest. *Ploughman.*

SWAMPS. The very best success with land, that we have ever seen, was with low, swampy soil—worthless, apparently, except to grow coarse grasses and weeds. It was ditched, ploughed and thoroughly cultivated, and a wealth was developed which made it lasting and productive, almost beyond account. There are many such swamps.

Woman's *inclinations* are always towards the *beau*.

Anecdotes.

A youngster who had been detected by his father in the act of stealing some fruit stored for winter consumption, was angrily bidden to "go into the next room and prepare himself for a severe flogging." Having finished the work which he had in hand, the inexorable parent armed himself with a stout horsewhip, and went in quest of the culprit.

"What have you got on your back?" asked the wondering sire.

"A leatherapron," replied John, "three double. You told me to prepare myself for a severe flogging, and I guess I've done the best I could!"

The attention of the mistress of a family was lately called to the fact that a little colored girl was constantly seen lying on the grass-plot, with her face turned up to the sun. Upon being questioned why she assumed that posture she answered,

"Why, missus always lays de tings on de grass what she wants to make white. I want to get white, too."

Customer. "Do you call that a *veal* cutlet, Walter? Why it is an insult to every true calf in the country."

Waiter. "I didn't mean to insult you sir."

"Ma, somebody is going to die," said a knowing little fellow, who was looking out of the window into the street.

"Why?"

"'Cause the doctor's just gone by," was the reply.

MILLINERY!

MISS S. H. HUSSEY

WOULD inform her patrons and the Ladies generally—that she has removed to the Old Stand, in

GOODNOWS BUILDING,

Thanking them for past favors, respectfully solicits orders for

SPRING and SUMMER MILLINERY.

A fresh assortment constantly on hand.

THE QUINCY PATRIOT,

Paul Du Chaillu, the African gorilla hunter.

The North End Mission Course will be by two gentlemen each evening, they taking opposite sides of the subject for the evening. Among the subjects are Free Trade, Female Suffrage, Republican vs Democracy. *Ecco Homo* and *Ecco Deus*, and among the speakers, Horace Greeley, Wendell Phillips, William R. Alger and Carleton.

The "Boston Lyceum" is to have a humorous Course, by Josiah P. Quincy, Saxe, Josh Billings, Mark Twain, the Fa' Contributor and others. Could any one wish for a better opportunity to hear good lectures? Besides the names already mentioned, we see the names in "The Lyceum," of Rev. Henry Warren, the gentleman who unites with fervid eloquence the power to amuse as well as instruct in scientific matters. The Colliers of Chicago, Grace Greenwood, Dr. Hayes, the Arctic explorer, and a host of lesser lights, all good speakers and interesting lecturers, among whom is the name of Rev. E. P. Thwing. It is to be hoped that the public may hear again that modest little man, Dr. Hayes, who tells the story of his achievements so simply and pleasantly, and that Mr. Hepworth, who has removed to New York, may favor us occasionally with his rare eloquence. The press and all who have heard him unite in praising Mr. Josiah P. Quincy, placing him in the front rank of lecturers. Mr. Gough is engaged in a literary undertaking, which will preclude the probability of his lecturing till late in the season, so that if he does favor the public they must make most of the opportunity. Among the new comers in the field, is Hon. William Parsons, an Irishman, who has carried by storm the lecture world of England, Ireland, Scotland, and New York, and is now coming to New England to add to his triumphs. He is said to unite the polish of Phillips, the culture of Curtis, with the peculiar fire that impresses an eloquent Irishman. Among his numerous subjects are Columbus, Goldsmith, Michel Angelo, Wits and Orators of the Irish Bar, Don Quixote, Curran, Thackeray and Ireland, with other fruitful topics. With him, with his Irish humor and fire,—with Phillips, with his keen polish,—with Curtis, with his finished elegance,—with Chapman, the beau ideal of manly and intellectual vigor,—with Alger, the thinker of beautiful thoughts,—with Carleton, fresh from China, on his way round the world—with Beecher, the independent and liberal preacher of progress,—with Sumner, the mighty, and Greeley, the philosopher, to say nothing of Quincy, Du Chaillu, Dickinson, Hayes, Vandenhoff, and the long train of lesser lights that will shine on the social horizon this winter, what a rich intellectual display is offered us.

NOT FORGOTTEN. Mr. Joseph T. French the favorite clerk of the Steamer Massasoit, has been made the recipient of gold pencil and pen, valued at twenty-five dollars. The attention shown by our townsmen to the numerous passengers on their pleasure trips the past summer was highly appreciated, and some of them have taken the liberty to show their kindness in this pleasant way.

NOT FORGOTTEN. The storm the first part of the week was very severe in many States. Immense damage was done,—estimated by millions of dollars. Rivers were overflowed, mills, bridges, &c. carried away, and in many instances persons were killed or drowned. The rain and blow in this vicinity was not very bad, and but little damage was done.

PROGRESS. SENTENCE COMMUTED. The Governor and Council have commuted the sentence of Mrs. Nancy B. Madden, convicted at Dedham on the 21st of May last, for the murder of her son-in-law, Obadiah Jones, at Canton, on the night of the 4th July, 1868, by shooting him in the head with a loaded pistol, to imprisonment at hard labor for life in the House of Correction at Dedham.

NEW CHAPEL. A new chapel for Rev. Mr. Mean's Church, at Dorchester, was dedicated Thursday evening with addresses by the pastor and Rev. Dr. Blagden, Rev. Mr. Porter, of Lexington, Rev. Mr. Penny of Milton Lower Mills, and others. The building, which is in the rear of the church, is both commodious and beautiful, and cost over \$10,000.

MORMONISM. The principal feature of the Sabbath School Concert at the Orthodox Church to-morrow evening, will be a black board exercise for the children by J. L. Proctor, Esq., of Boston.

CAUCUSES. The Democrats and Republicans hold meetings this evening to choose delegates to County, Council and Senatorial Conventions. The Republicans in the Lyceum Hall and the Democrats in the Town Hall.

FAMILY FLOUR. The Great Western Family Flour Company, at No. 6 Boylston street, Boston, are now doing a very large business in supplying families with choice flour, at very low prices. The reputation of their St. James brand is now fully established, and the company have difficulty in supplying their orders for it, they come in so fast.

The Quincy Patriot.

SATURDAY, OCTOBER 9, 1869.

Born to no Master, of no Sect are We."

ACCIDENT. On Tuesday afternoon, when the South Shore cars were passing through East Braintree, several children amused themselves by daring one-another to stand on the track until the engine was close upon them. One little boy, a son of Mr. Alverdo Mason, fell, or was knocked down by the cow-catcher, and thrown into the ditch by the side of the road.

He was very badly injured about the head; it is feared fatally. Dr. Forsyth of Weymouth, was called and later in the evening, Dr. Underwood of Quincy, met him in consultation. They regard the case as involving great danger.

THE FAVORITES. The widely-known and justly-celebrated Hutchinson Family will give one of their chaste and musical concerts, at the Town Hall on Friday evening next. Their programme includes a brilliant combination of pathetic, humorous and mirth-provoking ballads, similar to those that have so pleased our citizens in former times. No person having an ear for music can listen to them without delight. There is a touch of originality about their performances, which make them particular favorites with the public. One thing is especially noticeable in all their entertainments,—the earnestness and heartiness of the performers—who evidently sing nothing but what they believe, and enjoy their concerts as much as does any hearer. Tickets are only 32 cents to all parts of the house, and those wanting a good seat must go early.

REV. G. W. Skinner will preach in the Universalist Church to-morrow. There will also be services in the evening. The house will be lighted with gas for the first time. Good singing may be expected, under the lead of Mr. Richard G. Elliott.

LAND FOR SALE. Henry H. Faxon will sell at Auction, on Wednesday next, about ten acres of quarry land belonging to the Mitchell Granite Company. It will be sold without reserve or limit to the highest bidder—weather fair or foul. For particulars see notice in to-day's paper.

AUCTION. The beautiful place of the late Daniel P. Nye, on Adams street, is advertised for sale on Thursday next, at four o'clock. This is one of the most delightful places in Quincy, and is worthy the attention of any one desiring a pleasant residence.

NOT FORGOTTEN. Mr. Joseph T. French the favorite clerk of the Steamer Massasoit, has been made the recipient of gold pencil and pen, valued at twenty-five dollars. The attention shown by our townsmen to the numerous passengers on their pleasure trips the past summer was highly appreciated, and some of them have taken the liberty to show their kindness in this pleasant way.

THE storm the first part of the week was very severe in many States. Immense damage was done,—estimated by millions of dollars. Rivers were overflowed, mills, bridges, &c. carried away, and in many instances persons were killed or drowned. The rain and blow in this vicinity was not very bad, and but little damage was done.

LOCALS. Workmen are still engaged in widening Granite street. It will be much improved when finished, but at considerable cost.

THE best opportunity for purchasing carpets at low prices that has occurred for years, is now offered at the closing out sale of the NEW ENGLAND CARPET CO. See their advertisement in another column.

Our sidewalks have not been forgotten of late. Big stones have been removed in a number of places, and loan put on.

The removal of the town scales improves the Square much.

MORMONISM. Charles D. Young was arrested in South Boston, on Monday last, on the charge of bigamy. About three years ago he married a very pretty young lady in South Weymouth, the daughter of a well-to-do farmer in that place. Soon afterwards he expressed a desire to better his business condition, and went to Boston, leaving his wife at home. As time passed on, he both neglected to return home, or to furnish money for her support. About a year ago he formed the acquaintance of a young lady living in South Boston, also very attractive, whom he induced to marry him, and had lived in that part of the city until he was arrested. Both wives met and confronted him at the State Constable's office when a "scene" ensued. Young was committed for examination in the Municipal Court to answer to a complaint of bigamy.

CAUCUSES. The Democrats and Republicans hold meetings this evening to choose delegates to County, Council and Senatorial Conventions. The Republicans in the Lyceum Hall and the Democrats in the Town Hall.

FAMILY FLOUR. The Great Western Family Flour Company, at No. 6 Boylston street, Boston, are now doing a very large business in supplying families with choice flour, at very low prices. The reputation of their St. James brand is now fully established, and the company have difficulty in supplying their orders for it, they come in so fast.

Barrett's stands unapproached.

FROM OUR CORRESPONDENT.

A SHORT STAY IN THE SHIRE TOWN OF NORFOLK COUNTY.

DEDHAM, OCTOBER 4, 1869.

The central portion of this ancient town in particular, is very pleasant. The Indian name of this township was called "Tiot." Some two hundred and forty years have gone by since its incorporation by the name of Dedham. Population in 1865, 7,195—voters 1,268—valuation very nearly five millions of dollars; exceeding Quincy about one million of dollars.

During the past thirty years the population of this County town has more than doubled. The village, or centre, is compact, and laid out in divers pleasant streets. The Court House is a fine structure, of hewn granite, and a credit to the County. Its architect was the late Solomon Willard,—that excellent and eminent man, whose ashes repose in the hills of West Quincy. The Dome, like those of Moscow, in Russia, looms up from the village of its hundreds of buildings, and is the first object seen as you approach the central part of this ancient town in any direction.

It was not on the original plan of structure, and it is questionable whether this huge dome has added any thing in good taste to the beauty of the building. There are many things to be seen by the stranger visiting Dedham; more especially during the terms of the courts held there. The Civil Term of the Superior Court is now in Session. The Hon. Ezra Wilkinson presiding as Judge. We knew Mr. Wilkinson some thirty years ago; he was then in the prime of life and a prominent member of the Norfolk Bar. Though his silvery locks are quite visible, time has acted gently with him—doubtless verging at the honored period of three-score and ten; his physical and intellectual vigor remain unimpaired. His reputation is established as one well learned in the law." The new Clerk, Mr. Worthington, is an efficient officer, and well book-kept on his duties. He is a pleasant man. Our esteemed friend, Sheriff Thomas, was at his post; courteous to all, but vigilant in his trust to keep all things in quiet and good order in Court. We regret that engagements prevented us from visiting the Penal Institutions of this County, entrusted to the keepership of Sheriff Thomas. This gentleman maintains his wide popularity, as one of the leading officials of the County of Norfolk, esteemed by all.

The new Town House at Dedham is a costly and handsome stone building, and is well worth a visit. The Memorial Hall is a part of it, dedicated, as appears by the mural inscriptions, to the honor of the noble dead who fell in defense of the Union in the late rebellion. The distance of this lovely village of rich mansions from Boston Proper is ten miles, and the accommodations of access to the metropolis are very ample. A package of six tickets is given for one dollar, making the cost of a ride of thirty-five minutes from Boston to Dedham, one shilling. No less than seven stations line the way on the railroad of this short route. These frequent stopping places obviously by affording great conveniences to the traveling public, enhance the value of real estate, and add much importance to the prosperity of what used to be called Roxbury,—a long stretch from Boston line to Dedham. The example of the Dedham Branch, as to its number of stations and low fare, is well worthy to be followed by the Old Colony and Newport Railway.

Neither is the iron rule adopted by the Dedham Branch, of exacting from the thoughtless traveller, the additional sum of one dime if he fails by some *Lapsus memoria* to buy his ticket at the depot.

AN OLD FASHIONED GIRL. "An Old Fashioned Girl," by Miss Alcott, is continued in the October number of "Merry's Museum." Tom's Sad Fall is shown both by text and illustration. The story of "An Old Fashioned Girl" grows in interest with each successive issue of "Merry," and bids fair to be as popular as the other works of the same author. There is no better Magazine for young people than the new series of "Merry's Museum." Terms, \$1.50 a year. The publisher offers to send it on trial three months free. Address Horace B. Fuller, 14 Bromfield St., Boston.

CRANBERRIES. The cranberry crop on the Cape will be quite large this year.

Harwich will gather 12,000 barrels

against 9,000 last year. Last year they

were sold for from \$16 to \$19 per barrel,

and some as high as \$30. This year

they are selling for \$10 per barrel.

INSTALLATION. Mr. George A. Thayer of Braintree, a recent graduate of the Cambridge Divinity School, was installed over the Hawes Place Unitarian Society in South Boston, on Tuesday evening of last week.

Summary Intelligence.

A Western writer says truly, if as much attention was paid to improving corn as is given to grapes, one hundred million bushels might be added to the annual crop.

A watermelon was recently brought into San Francisco, said to be about as big as a third class steamboat boiler.

One firm in Montreal has sold this year more than two million glass jars to hold preserved fruit.

There were received in Sacramento on the 19th ult., by railroad, 10,000 dozen eggs. They can be carried thither and paid for fifty cents per dozen, which is ten cents less than is charged for the California article.

The experiment will be made next year to cultivate cotton with Chinese laborers.

Dr. C. M. Fiske, of Bradford, N. H. has himself collected two hundred specimens of birds in that State.

Don't Dye, use "Barrett's."

Parson's *Purgative Pills* will greatly relieve, if not entirely cure dyspepsia, when everything else fails. They have been tried in some desperate cases, and have given more relief than any other medicine.

Extract of a Letter

Addressed to GEO. H. RICHARDS, the celebrated Clothier, 24 & 25 Dock Square, Boston:

Friend RICHARDS, I promised to write you a

letter,

If with my new clothes my prospects grew

more favorable,

If the sheet of my tricot would make me less

plain,

And capture the heart of my dearest Jane.

I donned the new suit I purchased last Monday,

And off'd heart and hand to the girl I adored,

She blushed and said the day!—ou then say next

Sunday!

We were married—are happy—what can I say more?

THE QUINCY PATRIOT,

For the Patriot.
From the Atlantic to the Pacific.—No. 12.

YO-SEMITE VALLEY, CALIFORNIA, September, 1869.

Let us leave the stern rock, and if you like, accompany us in spirit down the mountain into the much talked of, Yo-Semite Valley. We shall have to descend over 2,000 feet in going two miles, through dust and over rolling stones, but our reward is before us. Even now we are on the brink of a natural wonder, the falls called by gushers, "Virgin Tears." The Virgin weeps only in spring. Not even a sob now, but for a thousand feet the mountain's face is stained with tear drops. Until the summer sun dries up the small streams, this fall exceeds in quantity of water, elevation and effect the celebrated Staubbach of Switzerland, yet it is hardly mentioned or noticed here among so many grander ones. Down, down we go, sometimes a little down, but no premeditated halt until we reach the Merced river, that flows through the luxuriant meadow of the vale, 4,000 feet above old ocean. Here among the flowers, shaded by a noble growth of pines and oak, we will rest, fish, lunch, and paddle in the crystal stream beneath the "Bridal Veil." When the evening shades begin to bring out the glory of the mile high rocks on either side, we will move slowly up stream. Until then the hours will pass pleasantly in admiring the play of water in the "Bridal Veil Falls." It slides from the mountain falls perpendicular 650 feet, strikes a sloping rock, skips 300 feet more, and then passing through the debris of valley is lost in the main stream of the Merced. As it clears the brow of the dark rock, its column is wavy and twisting, until a breeze of the valley called by the Indians "The Wind of the Evil Spirit," wafts it into mist that fills surrounding air, swaying gracefully first to the leeward, and then to the windward a hundred feet, more or less, according to the force of wind or water. Plain prosy creatures ridicule the fantastic name given to this, but when we come to see this dapered falling water, pure and chaste as the snow of which it is made, watch its long folds and the transparent brilliancy of the white foam and spray scattered over the surface of the lavender colored rocks, any wide awake little girl would exclaim a "Bridal Veil."

Traveller. P. S. I did not intend to trouble you again, but I will make you all happy next week by coming to a close.

of water comes coming down from the sky, might make some such appearance. Turning our heads a little to the right, looking eastward and upward, we are at once wondering at another peculiarity of this region, mountain domes. The North dome is almost a perfect hemisphere. It is a solid rock set up on the walls of the valley, 3,700 feet high, or thirty times higher than the "Boston State House." All the rocks here wear quaker colors, the dome seems to be painted drab or possibly some would call it a chocolate color. Under its shadow and along the perpendicular sides of the valley are the "Royal Arches." The Indian name "Shokoni" defines their character, signifying a cover to Indian baby basket.

THE QUINCY PATRIOT,

Poetry.

TAKE HEED.

Be sure, no earnest work
Of any honest creature, howbeit weak,
Imperfect, ill-adapted, fit so much,
Is not gathered as a grain of sand
To enlarge the sum of human action used
For carrying out God's end. No creature works
So ill, observe, that therefore he's cashiered.
The honest earnest man must stand and work;
The woman also, otherwise, she drops
At once below the dignity of man,
Accepting serfdom. From men freely work
Whoever fears God, fears to sit at ease.

AURORA LEIGH.

Farmers' Department.

FOOD FOR FATTENING FOWLS.

The best food for fattening poultry is sweet fresh oatmeal or barley meal, mixed either with scalding milk or water. Cooped fowls should be supplied with fresh food three times a day—namely, at daybreak, or as soon after as possible, at mid-day, and again at roosting time; as much as they can eat, should be given to the fowls on each occasion, but no more than can be devoured by the next meal; should any be left, it should be removed and given to the other fowls; as, if kept, it is apt to become sour, when the birds will not eat it freely. The troughs for the soft meat should be scalded out daily, which can be done conveniently by having a supply of spare ones.

In addition to soft food, a supply of fresh, clean water must be constantly present, and a little gravel must be given daily, otherwise the grinding action of the gizzard, which is necessary to the digestion of food, does not go on satisfactorily; the supply of a little green food will be found very advantageous to health; a sliced cabbage, or some turnip tops, or green turf to pick at occasionally, being all that is required.

A variation in the diet will be found very conducive to an increased appetite, and therefore the occasional substitution of a feed of boiled barley for the steamed oatmeal is desirable. Some feeders have divisions in their troughs, or, still better, a small extra trough, which always contains some grains for the fowls to pick at.

Should the birds be required to be very fat, some suet or trimmings of the loins may be chopped up and scalded with the meal, or they may be boiled in the milk or water preparatory to its being poured over the food, and the fat of fowls so fattened will be found exceedingly firm.

In the course of about a fortnight to three weeks to the utmost, a fowl will have attained, under this system of feeding, the highest degree of fatness of which it is capable, and it must then be killed; for if the attempt be made to keep it any longer in that state, it becomes diseased from an inflammatory action being established which renders the flesh hard and even unwholesome.

When the fowls have arrived at a state fit for killing, they should be kept for twelve or fifteen hours without food or water, in order that the intestines may be as empty as possible, otherwise the bird turns green and useless in a short time.

In situations where good sweet Indian corn meal can be obtained at low rate, it will be found to answer quite as well as oatmeal; it contains very large amount of oil, and is invariably used in the States of America, as a food for all animals put up to fatten. Wheat meal is too expensive, but some small fall wheat is far superior to barley to place in the trough as whole grain for the fowls to pick at—London Field.

Gather carrots before hard freezing commences.

Time and labor, devoted to the collection of materials to be converted into manure, are the most fruitful sources of profit in the whole range of farm economy.

Anecdotes.

"And your father," said a boarding-school lad to his companion, "has only sent you two dollars; he must be a mighty mean man."

"Well, I don't know; two dollars is considerable," replied the other.

"Whenever my father sends, he never thinks of offering me less than ten."

"How often does he send?"

"Never."

"Does the dentist kiss you when he pulls your teeth, pa?"

"No, my son, why?"

"Oh, nothing; only he kissed me, and she said it took all the ache away, and I guess it did, for she laughed all the way home."

"Excuse me, sir," said a beggar, "but you have given me a counterfeit."

"Well, well, my child, keep it for your honesty."

"I wish," said an irate lawyer, "you would pay a little attention to what I say."

"I am," answered the witness, "paying as little as I can."

QUINCY MUTUAL FIRE INSURANCE COMPANY

Genuine Lykens Valley Franklin Red Ash Coal!

THE Undersigned having now on hand, the above Pure Franklin Red Ash Coal is prepared to furnish all orders & immediate notice at the lowest cash prices.

OWEN ADAMS.

PHILADELPHIA—CO., WETHERILL & CO.

and employing them as brokers in many large undertakings.

"In 1867 Mr. Fisk, in connection with Mr. Jay Gould, succeeded in making a large sum of money by operations in Erie stock. They got control over stock to the amount of \$10,000,000, and were thus able to depress the general value of Erie stock from \$2 1/2 to 35. Mr. Fisk's share of the profits resulting from these operations was \$820,000. This transaction was a highly profitable one. He leased to the Erie Railroad Company a small portion of the property for nineteen years, at an annual rental of \$75,000. This was in itself a very handsome return on the gross amount invested in the whole property; but Mr. Fisk retained to himself the Opera-house, all the large stores, and a great number of private houses. He has also bought the building formerly known as Brougham's Theatre; and having somewhat unceremoniously ousted that gentleman and his company, he installed there Mademoiselle Irma and a French troupe of opera bouffe singers.

"Mr. Fisk's next operation was to purchase the whole of the block of which Pike's Opera-house forms a part for the sum of \$820,000. This transaction was a highly profitable one. He leased to the Erie Railroad Company a small portion of the property for nineteen years, at an annual rental of \$75,000. This was in itself a very handsome return on the gross amount invested in the whole property; but Mr. Fisk retained to himself the Opera-house, all the large stores, and a great number of private houses. He has also bought the building formerly known as Brougham's Theatre; and having somewhat unceremoniously ousted that gentleman and his company, he installed there Mademoiselle Irma and a French troupe of opera bouffe singers.

"With his more recent operations, including the proprietorship of the French theatre in this city, our readers are well acquainted. Mr. Fisk is now about thirty-nine years of age."

THE USE OF LEAD WATER PIPES.

"While the evils attending the use of lead pipes for water are doubtless greatly exaggerated in the articles written upon this subject in the newspapers, no candid investigator has, to our knowledge, denied the existence of such evils or attempted to prove that such pipes are not objectionable in a sanitary point of view.

"The use of these pipes is very extended, and startling cases of lead poisoning are not common, it must be remembered that lead is one of the most insidious of poisons, accumulating little by little in the system through long periods of time. The results, when produced, may not even in many cases be traced to the action of lead, and there is reason to believe that in certain ailments this cause is often overlooked. There is always a contingency that among a large number who use water contaminated slightly with lead, some one more susceptible than the rest will be injured.

"In a recent paper read before the Scientific Club, at Waterbury, (Conn.) by Dr. C. S. Rodman, the following symptoms of lead poisoning were enumerated, some or all of which may be considered as the forerunners of serious disease:

1. A blue discoloration of the gums at their junction with the teeth. This was observed about the same time by Tanquerel, by Dr. Schilbach of Neustadt, and by Dr. Brinton of London. The discovery of this mark has proved a blessing to thousands. When present it is positive evidence of the poison; it is not, however, developed in every case. M. Brachet, (Paris, 1850,) states that it is almost always present in patients poisoned by inhalation.

2. A metallic taste and fetid breath. Observed also in slow poisoning from other metals, as mercury and copper.

3. Lead jaundice. Sometimes the complexion assumes an earthy hue; sometimes it becomes transparent and waxy, presenting an appearance of excessive delicacy.

Emaciation is an occasional phenomenon. These primary effects rarely coexist.

The diseases likely to follow are:

1. Colic, or neuralgia, chiefly abdominal. It is common, and well known as lead or painter's colic.

2. "Arthralgia," or neuralgia of the limbs. These are anomalous pains, chiefly in the limbs, and without redness or swelling.

The cause being overlooked, rheumatism is generally assigned as the explanation. In true rheumatism the joints are most involved. In ordinary neuralgia, the pain chiefly follows the nerve trunks. In this affection the pain is in the finer branches of nerves distributed to the muscles.

3. Paralysis, or lead palsy. Any muscle of the body may be involved. The arms, wrists, and fingers are oftenest weak. Paralysis is only partial. Wristdrop is characteristic—Amaurosis, or paralysis of the retina; deafness and loss of voice are occasioned.

4. Cerebral Affections. The most frequent of these are convulsions; they are usually epileptic.

Poetry.

THE SCHOOL BOY'S GRAMMAR LESSON

"I love," and "thou lovest," and "he loves,"
What then?
Why "I love," and "you love," and "they love,"
What I love, and thou love, and he loves, my pen
Can hardly relate—tisn't down in the text!
It puzzles him first, as he studies it over.

He thinks it's a mystery. Well perhaps 'tis;
but many and many an ardent young boy
Will say 'tis a mystery brimful of bliss!

As all through the moods and the tenses, he traces
The different forms that the action express.
Unconsciously weaving their spell are the graces
Of certain black eyes, till it puzzles him less!

"I love!" he says, and by casting his glances
Across the old school room, to meet the bright
eyes;

I'll learn it fast, for those magical lances
Young Cupid can shoot very straight if he tries!

He sees a new charm with each stolen look yonder,
The cherry red lips and the beautiful curls,
The eyes whose bright witchery veils itself under
Those lashes, belong to the sweetest of girls!

"I love!" He repeats it at times, in his dreams
Of course it means nothing 'tis said in his sleep,
Though countless bright stars just above him are
beaming.

But two eyes into his visions now creep!
She gives him a smile, and the nectars delicious
The gods of old drank were too stale to compare
The sweets he is tasting some fares more propitious

Have kindly commended, and give him a share!
"I love!" he repeats it, half knowing its meaning,
And press the hand of the black-eyed young
boy;

Not always as true of him, when 'tis said;
The lessons we longest retain in possession
Are learned by the heart, rather than by the
head;

"I love!" he is anxious to tell her his feelings;
Anxious, but fearful; don't know what to do.
He hands her his grammar at last, in revealing,
And after "I love," faintly penciled, is "You!"

He's learned it "by heart!" 'Tis a common expression,

Not always as true of him, when 'tis said;
The lessons we longest retain in possession
Are learned by the heart, rather than by the
head;

"I love!" he is anxious to tell her his feelings;
Anxious, but fearful; don't know what to do.
He hands her his grammar at last, in revealing,
And after "I love," faintly penciled, is "You!"

He's learned it "by heart!" 'Tis a common expression,

Not always as true of him, when 'tis said;
The lessons we longest retain in possession
Are learned by the heart, rather than by the
head;

"I love!" he is anxious to tell her his feelings;
Anxious, but fearful; don't know what to do.
He hands her his grammar at last, in revealing,
And after "I love," faintly penciled, is "You!"

He's learned it "by heart!" 'Tis a common expression,

Not always as true of him, when 'tis said;
The lessons we longest retain in possession
Are learned by the heart, rather than by the
head;

"I love!" he is anxious to tell her his feelings;
Anxious, but fearful; don't know what to do.
He hands her his grammar at last, in revealing,
And after "I love," faintly penciled, is "You!"

He's learned it "by heart!" 'Tis a common expression,

Not always as true of him, when 'tis said;
The lessons we longest retain in possession
Are learned by the heart, rather than by the
head;

"I love!" he is anxious to tell her his feelings;
Anxious, but fearful; don't know what to do.

"I love!" he is anxious to tell her his feelings;
Anxious, but fearful; don't know what to do.
He hands her his grammar at last, in revealing,
And after "I love," faintly penciled, is "You!"

THE QUINCY PATRIOT,

In view of these facts there cannot be two opinions as to the impropriety of using lead pipes for water when their use can be avoided, and pipes are now manufactured and sold, which insulate the lead from the water by a lining of black tin, a harmless material, durable, and not very expensive.—*Scientific American*.

The Quincy Patriot.

SATURDAY, OCTOBER 16, 1869.

"Born to no Master, of no Sect are we."

ACCIDENT. As Mr. Lemuel Baxter and daughter, Mr. Z. H. Sidelinger and wife, who reside at the Point, were leaving the railroad depot, on Monday afternoon last, in a covered carriage belonging to Mr. Baxter, one of the front wheels gave way, causing the whippletree to strike the horse's heels, which made him kick and run. The occupants were thrown bones broken. The ladies received a few slight bruises. Mr. Sidelinger was seriously injured, having been kicked by the horse, or stunned by the fall; he was taken into the Hancock House, and restored to consciousness; afterwards conveyed to his residence, and the next day he was able to go out doors. Mr. Baxter, who appeared to be but little injured was more severely hurt than either of the others and has been confined to his residence since the accident. The carriage was quite a wreck,—the top was taken off and other parts broken; and it seems a mystery how all the persons escaped without breaking a bone.

President's Thanksgiving Proclamation.

For the *Patriot*. From the Atlantic to the Pacific.—No. 13.

YO-SEMITIC VALLEY, CALIFORNIA, September 1869.

Our plans being made for the morrow, we retire to rest, remembering the injunction, "be sure and bar the doors and fasten the windows." An universal roar occurs, when we discover a cotton curtain for a door, and only an opening for a window, while the lights and shadows playing across the walls and among the rafters, reveals the fact that nought but cotton cloth divides our state rooms. The entire population are within hailing distance. Hence, the uniformity with which we rise in the morning. One brawny Englishman begins the hue and cry, by ridiculously advertising the furniture of his apartment. We find it difficult at first even to smile, at so an early an hour, but subsequently we giggle, gradually we laugh, and finally burst out into a bellow. In a few moments we are out, laughing, in the fresh morning air as a laughing gas to kill pain and trouble that flesh is heir to, climbing among the mountains. Or as Cowper expresses it, "That play of lungs, inhaling, and again expiring freely the fresh air, that makes swift pace, nor steep ascent no toil to me."

Therefore, I, Ulysses S. Grant, President of the United States, do recommend that Thursday, the 18th day of November next, be observed as a day of thanksgiving and of praise and of prayer to Almighty God, the Creator and the Ruler of the Universe.

And second, I do further recommend to all the people of the United States to assemble on that day in their accustomed places of public worship; and unite in the homage and praise due to the Bountiful Father of all mercy, and in fervent prayers for the continuance of the merciful blessings he has vouchsafed to us as a people.

U. S. GRANT.

ROBBERY. The carriage manufacturer of Messrs. Turrell & Sons, in this place was entered on Monday night, and harnesses, whips, blankets, &c., to the value of two to three hundred dollars were carried off. The thieves entered the wheelwright shop by a front window, a large pane of glass having been broken previously; and from there they succeeded in getting into the harness shop, by removing a pane of glass in the door. Having succeeded in entering, the rogues took a screwdriver, found in the workshop, with which they removed the lock, and came out at the front door. No positive evidence who the thieves were has yet been obtained.

THE NYE PLACE. This beautiful estate on Adams street, was sold at Public Auction on Thursday afternoon last, by Henry H. Faxon, Esq., to Dr. J. Morrison, for eight thousand dollars.

ACCIDENT. A slight accident occurred in front of Messrs. Whitney & Nash's Store, in the Square, on Thursday morning last. One of the new wagons owned by Mr. Hodges of this place, was tipped over, and the hot bread, pies, cakes, cookies &c., were delightfully mixed on the sidewalk. The horse started in front of the provision store of Mr. Allen, and the driver ran after him, but was unable to stop the animal until after the contents of the wagon was rather unceremoniously piled on the ground. Fortunately but little damage was done to the carriage.

Mr. McDonnell, was considerably injured on the head, by the falling of a derrick at the granite works, of Messrs. Spellman, Williams & Co., on Thursday last. Dr. Stetson was called, and under his skillful treatment the wound was soon dressed.

SALE OF REAL ESTATE. Henry H. Faxon will sell this afternoon at four o'clock, a very pleasant house situated on Granite street, occupied by Elbridge Clapp, Esq., and owned by Mrs. Norton.

Rev. D. M. Hodge is expected to occupy the desk in the Universalist Church to-morrow. Rev. Mr. Skinner, who was expected last Sunday, owing to sickness, was unable to meet his engagement.

The old Gillett house has arrived at its destination, and we learn that four families are waiting to move in. The old house was built about 1805 for Mr. Theophilus Thayer, and is therefore over three score years old.

ACCIDENT IN DORCHESTER. The Catholic clergymen of Randolph, while riding through Dorchester on Wednesday was thrown out, his horse having taken flight, and broke one of his arms. The accident happened near the Lower Mills, and the sufferer was taken to the residence of Father McNulty.

SECRETARY OF WAR. The President has called to his cabinet General William M. Belknap, of Iowa, to take the place left vacant by the death of Gen. Rawlins. He is represented as a pious soldier, reading his Bible and fighting religiously during the war. He was recently married to a very wealthy lady in Ohio.

President's Thanksgiving Proclamation.

For the *Patriot*. From the Atlantic to the Pacific.—No. 13.

YO-SEMITIC VALLEY, CALIFORNIA, September 1869.

Our plans being made for the morrow, we retire to rest, remembering the injunction, "be sure and bar the doors and fasten the windows." An universal roar occurs, when we discover a cotton curtain for a door, and only an opening for a window, while the lights and shadows playing across the walls and among the rafters, reveals the fact that nought but cotton cloth divides our state rooms. The entire population are within hailing distance. Hence, the uniformity with which we rise in the morning. One brawny Englishman begins the hue and cry, by ridiculously advertising the furniture of his apartment. We find it difficult at first even to smile, at so an early an hour, but subsequently we giggle, gradually we laugh, and finally burst out into a bellow. In a few moments we are out, laughing, in the fresh morning air as a laughing gas to kill pain and trouble that flesh is heir to, climbing among the mountains. Or as Cowper expresses it, "That play of lungs, inhaling, and again expiring freely the fresh air, that makes swift pace, nor steep ascent no toil to me."

Therefore, I, Ulysses S. Grant, President of the United States, do recommend that Thursday, the 18th day of November next, be observed as a day of thanksgiving and of praise and of prayer to Almighty God, the Creator and the Ruler of the Universe.

And second, I do further recommend to all the people of the United States to assemble on that day in their accustomed places of public worship; and unite in the homage and praise due to the Bountiful Father of all mercy, and in fervent prayers for the continuance of the merciful blessings he has vouchsafed to us as a people.

U. S. GRANT.

THANKSGIVING. The Governor has appointed Thursday, Nov. 18, as a day of Thanksgiving.

REPUBLICAN DELEGATES. At a meeting of the Republicans held at the Lyceum Hall, on Saturday evening last, the following persons were chosen delegates to attend the Councillor, Senatorial and County Conventions:—

Councillor,—Geo. L. Gill, Charles Marsh, William Ditson, Noah A. Glover, Chas. A. Howland, Joseph W. Robertson, Edward Brackett.

Councilor and Senatorial,—Henry H. Faxon, George L. Gill, William Ditson, Henry Clubbuck, Edward Brackett, Noah A. Glover, Jacob Flint.

DELEGATE ELECTION. At the Caucus held by the Democrats at the Town Hall, in this place, on Saturday evening last, for the election of delegates to the County, Councillor, and Senatorial Conventions to be held at Dedham on Thursday, the 21st instant, the following names were returned:—

At large,—John Quincy Adams.

Delegates,—William S. Pattee; Jacob F. Eaton; E. W. Underwood; Eleazer Frederick; Charles P. Turrell; J. T. Willey; Charles H. Curtis; William B. Duggan; Maurice Sheahan.

It is estimated that proper repairs can be made on Dr. Storrs' church in Braintree, which was so seriously damaged by the September gale, for \$3000. The plan contemplates the erection of a square tower with four turrets, and a spire 130 feet high. The old spire was 160 feet in height, and was always considered unsafe.

REMARKABLE EFFECTS OF LIGHTNING. While stacking fodder in a field on the premises of Mr. Black, about two miles east of Brownsville, Tenn., last Saturday evening, a negro man named Floyd was struck by lightning and instantly killed. Persons who saw the body of the unfortunate negro say that every bone in his body was crushed, almost to atoms, and yet his flesh was unbroken.

It is Rev. D. M. Hodge is expected to occupy the desk in the Universalist Church to-morrow. Rev. Mr. Skinner, who was expected last Sunday, owing to sickness, was unable to meet his engagement.

The old Gillett house has arrived at its destination, and we learn that four families are waiting to move in. The old house was built about 1805 for Mr. Theophilus Thayer, and is therefore over three score years old.

ACCIDENT IN DORCHESTER. The Catholic clergymen of Randolph, while riding through Dorchester on Wednesday was thrown out, his horse having taken flight, and broke one of his arms. The accident happened near the Lower Mills, and the sufferer was taken to the residence of Father McNulty.

SECRETARY OF WAR. The President has called to his cabinet General William M. Belknap, of Iowa, to take the place left vacant by the death of Gen. Rawlins. He is represented as a pious soldier, reading his Bible and fighting religiously during the war. He was recently married to a very wealthy lady in Ohio.

SATURDAY, OCTOBER 16, 1869.

Summary Intelligence.

There is no ex-President, chosen by the votes of the people, living to-day—a state of things unknown before in this century.

An Irishman in London has been arrested for drunkenness more than three hundred times, and has been convicted and imprisoned more than one hundred times.

There is a bank in Fall River with four hundred thousand dollars capital and only eleven stockholders.

Ex-President Pierce expired at his residence in Concord, N. H., on the 8th instant, after a long and severe illness, in the 65th year of his age.

The population of Utah is now about 150,000, and they are anxious for self-government. A committee has been appointed to draft a memorial to Congress, asking the admission of Utah as a State.

Thirty-six thousand persons were weighed at the Mechanics' Fair. The average weight was 133 pounds, and the

370 and one-half pounds. The receipts

at the fair amounted to \$47,000.

The citizens of West Roxbury have

held a public meeting, to consider the

subject of annexing that town to Boston.

A movement is on foot to place a

chime of bells in the Baptist church in Weymouth.

The Randolph bank pays a semi-annual

dividend of 6 per cent, the South Weymouth 5, and the Neponset at Canton 5.

Mrs. Angelina Podesta, an Italian lady

nearly 101 years of age, led the grand

march at the Italian ball in honor of

Columbus, at Cincinnati, on Monday

evening, and danced in ten sets besides.

A pretty vigorous old lady.

There is a boy in the Missouri Insane

Asylum upon whom they can keep neither

clothes nor shoes. He eats them all

—leaving the buttons and tacks on his

plate, probably like fish bones.

In the Boston office of the French Ca

ble Co., there is a clock which keeps Paris

time.

There was a great snow storm on the

eighth of September, one hundred years ago. Several buildings were blown down, and a sloop was driven ashore at Nahant.

The superstitious people are in trouble

because 1869 commences and ends on

Friday, which will make it an unlucky

year.

THE QUINCY PATRIOT,

Poetry.

OVER AND OVER AGAIN.

Over and over again,
No matter which way I turn,
I always find in the Book of Life
Some lesson I have to learn.
I must take my turn at the mill,
I must grind out the golden grain,
I must work at my task with a resolute will
Over and over again.

We cannot measure the need
Of even the tiniest flower,
Nor check the flow of the golden sands
That run through a single hour.
But the morning dews must fall;
And the sun and summer rain
Must do their part, and perform it all
Over and over again.

Over and over again
The brook through the meadow flows,
And over and over again
The ponderous mill-wheel goes.
Once doing will not suffice,
Though doing be not in vain,
And a blessing, failing us once or twice,
May come if we try again.

The path that has once been trod
Is never so rough to the feet;
And the lesson we once have learned
Is never so hard to repeat.
Though sorrowful tears may fall,
And the heart to its depth be driven
With storm and tempest, we need them all
To render us meet for Heaven.

Farmers' Department.

DEEP PLOUGHING IN AUTUMN.

There is, probably, no one of the labors of the farm, about which there is so much controversy and such diversity of opinion as that of ploughing. We believe that if the question was asked to-day of ten farmers, which method of ploughing, whether deep or shallow, in autumn or spring, they believed to be most desirable, not three of them would agree on any particular system, but each would furnish a theory of his own, that would, in some cases, be entirely opposed to those of some of the others; and this goes to show that ploughing is a labor entirely dependent upon circumstances of soil and crop, and that no arbitrary rule can be made to apply to all cases. We believe that the weight of opinion is, that in autumn, on a majority of soils, deep ploughing is preferable to shallow; and in spring that six inches is in most cases the greatest depth advisable; and when we look carefully into the matter, we readily discover why this should be.

Frost is a well known disintegrator and ripener of soils, and when they have been exposed to its action, its beneficial effect upon them has always been apparent. On all qualities of soil this has been noticeable.

Now if we have a green sward overlaying a heavy clay subsoil, if the latter were not broken, we can easily see that, acting as it does, as a perfect water-shed, entirely unabsorbent, the falling moisture must, of necessity, remain collected in the upper soil, the effect of which would be to render it cold and sour; but if the clay be broken in the fall by a judicious deep ploughing (even subsoiling if it is broken in its place, and not thrown to the surface) we can see, that, as clay when broken is very absorbent, the effect must be to warm and mellow the upper soil, and even deepen it, the frost mechanically amalgamating the strata to a considerable extent.

We do not, of course, wish to be understood as recommending deep ploughing on all heavy lands, for when they are not thoroughly drained it is undesirable, and even to be avoided; but, where thorough drainage has been attained, we believe that the heavy, clayey subsoil should be broken, and the whole exposed to the action of the winter's frosts.

Anecdotes.

An Englishman was telling the late Colonel Isaac O. Barnes of the great rate the cars run in England:—

"Why, Colonel, in my country they go seventy-five miles the hour."

"They do," says the Colonel; "they cannot run long at that rate, or they would run off of the little—d—l Island."

"Please accept a lock of my hair," said an old bachelor to a widow, handing her a large curl.

"Sir, you had better give the whole wig."

"Madam, you are very biting indeed, considering that your teeth are porcelain."

CONSUMERS OF CONFECTIONERY

COME, LET US REASON TOGETHER.

How can any man manufacture Confectionery and sell it at fifteen cents a pound, when sugar is worth sixteen cents at the Refinery, (unless it is terribly adulterated.)

How can any dealer retail such a vile compound to his customers and have a conscience void of offence?

How can any consumer expect to purchase pure Confectionery at twenty-five and thirty cents a pound, when the sugar used is manufactured less than thirty to forty cents per pound, consisting of cassia buds, burnt almonds, and such like goods?

What can have been offered cassia buds, etc., for fifteen cents per pound, and Chocolate Creams at twenty cents, and the agent acknowledged that they were adulterated ten per cent, with water? and that they that pass of this cheap Confectionery are made and sold in this country every year, and the consumers are the only persons injured by it.

Now, for the benefit of those who wish to buy articles of Confectionery, we will warrant every article of our manufacture Strictly Pure and free from every ingredient deleterious to health.

THE QUINCY PATRIOT.

The Quincy Patriot.

SATURDAY, OCTOBER 23, 1869.

"Born to no Master, of no Sect are we."

COMPLIMENTARY CONCERT. A grand concert and ball will be given at the Town Hall, on Friday evening next, by the Weymouth Brass Band, complimentary to our townsmen, Mr. Wm. W. Penniman. The programme will be found in our advertising columns. It is very inviting, and we think will give good satisfaction. Prof. Wallack, of Boston, a celebrated Harmonica player, will perform for the first time before our citizens. Those who have heard the Professor, speak very complimentary of his abilities, and no doubt he will be highly appreciated by a Quincy audience. The Stetson's Band need not a word from us. Their fame is well known in this vicinity, and their music is always listened to with pleasure.

SENATORIAL CONVENTION. The Republican Convention for the Second Norfolk Senatorial District was held at Dedham, on Wednesday last. Eliaphlet Stone of Dedham, was chosen President, and D. T. D. Hantoon of Canton, Secretary. The Committee on credentials reported thirty-six delegates present, representing seven towns. The Convention proceeded to an informal ballot for candidate for Senator, with the following result:

Whole number of votes..... 34.
Necessary for a choice..... 18.

Charles Marsh of Quincy..... 20.

Henry J. Nazro of Dorchester..... 14.

On motion of Mr. Ruggles of Milton, Mr. Marsh was nominated by acclamation. After the appointment of a District Committee, the Convention was dissolved.

SALES OF REAL ESTATE. The estate of Mrs. Norwood, on Granite street, was sold at auction on Saturday last, by Henry H. Faxon, Esq., for \$3,600 to Elbridge Clapp, Esq.

Also, by Henry H. Faxon, Esq., about ten acres of quarry land belonging to the Mitchell Granite Co., to Charles Hardwick & Co., for \$7750.

The old Spear house on the corner of Spear and Sea streets, has recently been sold to Mrs. Norton Q. Pope for \$1450.

DEMOCRATIC NOMINATIONS. At the Democratic Convention of the Democrats of the Second Norfolk District, held at Dedham on Thursday, Waldo Coburn, of Dedham, was nominated by acclamation, as candidate for Senator.

The Democrats of the Second Councillor District met in Convention at Dedham on Thursday, and nominated Dr. W. S. Pattee, of this town as their candidate for Councillor.

At the Norfolk County Convention Jacob F. Eaton, of this town, received the Democratic nomination for County Commissioner.

CLOTHING. Let those visiting Boston call at Lovejoy's in Dock Square, if they wish to buy Clothing cheap. His stock is very extensive, and his prices as low as the lowest.

PERSONAL. We are pleased to learn that Washington M. French, Esq., who has been very sick for some months, and at times doubtfuls were entertained of his recovery, was able to walk out one day the present week. May it not be long before he will be ready to attend to business, and his happy countenance be a blessing in our midst.

The last of a series of interesting letters, which we have published weekly in the Patriot, for several months, will be found in to-day's issue. Our Correspondent, "Traveller," has our thanks. His articles have pleased us, and entertained our readers; and we hope it may not be long before we shall hear from him again.

FRACTIONAL CURRENCY. According to the records of the Treasury Department, there are four millions of dollars more of fractional currency in circulation now than at any time since the issue commenced. Nevertheless, continual complaints are received from the South and West that the supply is not equal to the necessities of trade.

SNOW. The hills in Berkshire county were white with snow on Monday last. Slight sports of snow fell in New York on the 19th inst. The weather was very chilly. A violent snow storm began at St. Louis Tuesday morning, and continued until noon, when there were three inches of snow on the ground. The storm came from the north, and raged in Illinois, Kansas and Kentucky.

A copy of the Declaration of Independence, in Chinese and on silk is on exhibition in California. The silk on which it is written, measures about five feet in length and twenty inches in width.

From the Atlantic to the Pacific.—No. 14

YO-SEMETE VALLEY, CALIFORNIA, September, 1869.

Above the Nevada Falls rises a lofty Peak, sometimes called Mt. Broderick, but with better taste, the "Cap of Liberty," which it closely resembles as seen from the Valley. Parties have ascended to the top, but it is very rarely accomplished. If your powers for climbing and longness are in good condition, we will make an attempt to get around on the backside, and crawl up on this mountain cap of granite.

We shall find it very arduous, but not dangerous, so that I shall not be breaking a promise exacted by a cautious mother. There is no path to follow, therefore we must seek the easiest passage we can find. Never mind an occasional slip, but try again and again, until after much straining of sinew and muscle, accompanied by a little loss of blood, we at last conquer and find ourselves among the upper crags of the Sierras. Possibly we have some feelings of pride, as we wave our banner to our lowly companions of the Valley, who laughed at our foolish attempt to rise above their station. But our glory is short lived, for among the dozen names recorded on Liberty's Cap, we find the name of woman. Miss Anna Dickenson, the only female who has stood upon this rock. Such scenes in her mind's eye will make her none the less inspired. We seem to be hanging in the air, or riding on the top of a huge balloon. The look beneath us into the Valley, with the streams and waterfalls, and foliage we have noticed, is superb—but the great feature upon this isolated Peak, is a look out east upon a world of lofty mountains. All are barren peaks, and many of them are covered with snow; but the very dreariness in contrast with the fertile Valley at our back, make it a pleasant hour's study.

SENATORIAL CONVENTION. The Republican Convention for the Second Norfolk Senatorial District was held at Dedham, on Wednesday last. Eliaphlet Stone of Dedham, was chosen President, and D. T. D. Hantoon of Canton, Secretary. The Committee on credentials reported thirty-six delegates present, representing seven towns. The Convention proceeded to an informal ballot for candidate for Senator, with the following result:

DEMOCRATIC RALLY IN BOSTON.

A meeting of the Democrats of Boston and vicinity, was held at Faneuil Hall, on Wednesday, for the purpose of ratifying the nomination of the Hon. John Quincy Adams as their candidate for Governor. The meeting being called to order, Joshua D. Ball, was chosen President, and Thomas F. Temple, Secretary. The committee on credentials reported twenty-one towns represented by one hundred delegates. On motion of Mr. Monk of Stoughton, the Hon. M. M. Fisher was renominated by acclamation, for County Commissioner. On motion, a committee of three, was appointed to retire and report a County Committee for the ensuing year. The following names were reported by this committee and unanimously elected: H. O. Hildreth, of Dedham; C. C. Greenwood, of Needham; J. J. Lothrop, of Cohasset; N. B. Prescott, of West Roxbury and C. F. Gerry, of Hyde Park.

We shall find it very arduous, but not dangerous, so that I shall not be breaking a promise exacted by a cautious mother. There is no path to follow, therefore we must seek the easiest passage we can find. Never mind an occasional slip, but try again and again, until after much straining of sinew and muscle, accompanied by a little loss of blood, we at last conquer and find ourselves among the upper crags of the Sierras. Possibly we have some feelings of pride, as we wave our banner to our lowly companions of the Valley, who laughed at our foolish attempt to rise above their station. But our glory is short lived, for among the dozen names recorded on Liberty's Cap, we find the name of woman. Miss Anna Dickenson, the only female who has stood upon this rock. Such scenes in her mind's eye will make her none the less inspired. We seem to be hanging in the air, or riding on the top of a huge balloon. The look beneath us into the Valley, with the streams and waterfalls, and foliage we have noticed, is superb—but the great feature upon this isolated Peak, is a look out east upon a world of lofty mountains. All are barren peaks, and many of them are covered with snow; but the very dreariness in contrast with the fertile Valley at our back, make it a pleasant hour's study.

DEATH OF A FORMER AUDITOR.—Hon. Levi Reed, formerly State Auditor, died at East Abington on Tuesday, at the age of about 55 years. He was formerly in the shoe business and had been much in public life.

Marriages.

In this town, on the 19th inst., by the Rev. John D. Wells, Mr. Theophilus C. Everett of Danvers, to Mrs. Mary A. Drummond of Boston.

In Central City, Colorado, at Saint Mark's Chapel, on the 6th inst., by the Rev. Cortlandt Whitehead Mr. Alonzo Farnall to Miss. Katie Davis.

They have our congratulations. For some years Mr. Farnall held a position in this office, but has more recently been engaged in the drug trade as the junior member of the firm of Fonda & Farnall, and has been driving a good business. In marrying he has done a wise thing, and has at the same time secured an excellent wife. We sincerely congratulate them.—*City Register.*

Mr. Farnall is a native of this place, and it gives us pleasure to learn that he has been prosperous in business. Having commenced the matrimonial life successfully, we wish him a bountiful harvest.

A large portion of the most eligible building lands of this town are now held and taxed as farm lands. Owing to the inability to purchase for small homesteads and suburban city residences, these remain for the most part intact; while thrift and enterprise thus refused, have sought other and more inviting localities.

In this effort to pamper a conservative element, lies, for the most part, the evil of our present high taxation.

A large portion of the most eligible building lands of this town are now held and taxed as farm lands. Owing to the inability to purchase for small homesteads and suburban city residences, these remain for the most part intact; while thrift and enterprise thus refused, have sought other and more inviting localities.

On the 19th inst., at the National Sailors' Home, Mr. Henry A. Battie, aged 45 years.

On the 21st inst., Mr. William Carroll, aged 56 years, and 4 months.

In Cambridge, on the 14th inst., Lilian S., daughter of Mr. George P. and Mrs. Helena B. Knowlton, aged 4 months and 20 days.

Special Notices.

SPIRITUAL ASSOCIATION.

RODGERS' CHAPEL, QUINCY.

Mr. A. H. Davis will speak to-morrow, at 2 1/2 and 7 o'clock P. M.

Subject in the afternoon, Soul Life;

in the evening, Psychological Action of Mind upon Mind and Matter.

Quincy, October 23. 1W

REPUBLICAN CAUCUS.—The Republicans of Quincy are requested to meet at the Lyceum Hall, on SATURDAY EVENING, Oct. 30th, at 7 1/2 o'clock, to nominate a candidate for Representative to the next General Court, and such other business as may come before them.

Per order of the Republican Town Committee,

NOAH A. GLOVER, Chairman.

Geo. L. GILL, Secy.

Quincy, October 23. 2W

THE ONLY RELIABLE CURE FOR

Dyspepsia in the Known World.

Dr. Wm. G. WATSON's Great American Dyspepsia Pill and Pill for the Tonic, are a positive and infallible cure for dyspepsia in its most aggravated form and no man is so long standing.

The Pill is a perfect shield of this terrible disease, and extenuates it, root and branch, forever.

They alleviate more agony and silent suffering than tongue can tell.

They are curing for the most desperate and hopeless cases, known to man, that have not been able to afford.

No form of dyspepsia or indigestion can resist their penetrating power.

DR. WISHART'S Pine Tree Cordial.

It is the vital principle of the Pine Tree, obtained by a process in the distillation of balsam, by which its highest medicinal properties are retained. It invigorates the system, purifies and strengthens the heart, and acts as a powerful stimulant to the system, and especially to the heart.

It is a powerful and safe remedy for all diseases of the heart.

THE QUINCY PATRIOT,

Poetry.

WHAT ARE WE MEN TO DO?

When female architects abound,
Who skilfully design and plan,
When female builders can be found
Whose work will vie with that of man;
When female shippers have command
Of female ship and female crew—
When female warriors fill our land,
What is there left for man to do?

When women shall the gospel preach;
When women clerks infest each store;
When women diplomats shall reach
High seats within the White House door;
When tiny hands receive the pence
On city cars and stages too—
What, in the name of common sense,
Is left for outworn man to do?

"Why not exchange?" says the thotless wight;
Hush! senseless man—you only rant—
We would, with pleasure, if we might;
But God has fixed it so we can't.
The babies must be borne and nursed
By female mothers; therefore few
Of gentler mould can e'er be cured
With what we dread—no work to do.
Peacock's Monthly.

DANIEL BRYAN'S OATH.

Daniel Bryan had been a lawyer of eminence, but had fallen, through intoxication, to beggary, and a dying condition. Bryan had married in his better days, the sister of Moses Felton.

At length all hopes were given up. Week after week would the fallen man lie drunk on the floor, and not a day of real sobriety marked his course. I doubt if another such case was known. He was too low for conviviality, for those with whom he would have associated would not drink with him.

And alone in his office and chamber he continued to drink, and even his very life seemed the off-spring of his jug.

In early spring Moses Felton had a call to Ohio. Before he set out he visited his sister. He offered to take her with him but she would not go.

"But why stay here," urged the brother, "you are all faded away, and disease is upon you. Why should you live with such a brute?"

"Hush Moses, speak not," answered the wife keeping back her tears. "I will not leave him now, but he will soon leave me; he cannot live much longer."

At that moment Daniel entered the apartment. He looked like a wanderer from the tomb; he had his hat on and his jug in his hand.

"Ah Moses, how are you?" he gasped, for he could not speak plainly.

The visitor looked at him for a few moments in silence. Then, as his features assumed a cold stern expression, he said with a strongly emphasized tone:

"Daniel Bryan, I have been your best friend but one. My sister is an angel, but matched with a demon. I have loved you Daniel, as I never loved man before. You were noble, generous and kind; but I hate you now, for you are a perfect devil incarnate. Look at that woman. She is my sister; she might now live with me in comfort, only she will not do it while you are alive, yet when you die she will come to me. Thus do I pray that God will soon give her joys to my keeping. Now, Daniel, I sincerely hope that the first intelligence that reaches me from my native place, after I reach my new home, may be—that you are—dead!"

"Stop Moses, I can reform."

"You cannot: it is beyond your power. You have had inducements enough to have reformed half the sinners of the creation, and yet you are now lower than before. Go and die sir, as soon as you can, for the moment that sees you thus shall not find me among the mourners."

Bryan's eye flashed, and he drew himself suddenly up. "Go," he said, with a tone of the old powerful sarcasm; "go to Ohio and I'll send you news. Go sir, watch the post. I will yet make you take back your words."

"Never, Daniel Bryan, never."

"You shall! I swear it!"

With these words Daniel Bryan hurried his jug into the fire-place and while yet a thousand pieces were flying over the floor he strode from the house. Mary fainted on the floor. Moses bore her to a bed, and then having called in a neighbor, he hurried away for the stage was waiting.

For a month Daniel moved over the brink of the grave but he did not die.

"One gill of brandy will save you," said the doctor, who saw that the abrupt removal of all stimulants from a system that for long years had subsisted on almost nothing else, was nearly sure to prove fatal. "You can surely take a gill and not take more."

"Aye," gasped the poor man, "take a gill and break my oath. Moses Felton shall never hear that brandy or rum killed me! If the want of it can kill me, then let me die; But I won't die; I'll live till Moses Felton shall eat his words."

He did live! an iron will conquered the messenger that death sent—Daniel Bryan lived. For one month he could not walk without help. But he had help joyful, prayerful help. Mary helped him.

A year passed by, and Moses Felton returned to Vermont. He entered the

court house at Burlington, and Daniel Bryan was on the floor pleading for a young man who had been indicted for forgery. Felton started with surprise. Never before had such torrents of eloquence poured from his lips. The youth was acquitted. The successful council turned from the court room, and he met Moses Felton.

They shook hands but did not speak. When they reached a spot where none others could hear them Bryan stopped.

"Moses," he said "do you remember the words you spoke to me a year ago?"

"I do Daniel."

"Will you then take them back, unsay them now and forever?"

"Yes, with all my heart."

"Then I am in part repaid."

"And what must be the remainder of the payment?"

"I must die an honest unperjured man. The oath that has bound me thus far was made for life."

That evening Mary Bryan was among the happiest of the happy. No allusion was made in words to that strange scene of one year before; but Moses could read in both the countenance of his sister and her husband the deep gratitude they did not speak.

And Daniel lived one of the most honored men in Vermont. Five times he sat in the State Legislature; thrice in the Senate, and once in the halls of the National Congress.

Farmers' Department.

KEEPING SQUASHES.

Every one who grows squashes will have at least the Boston Marrow and the Hubbard. These may be taken as the types of autumn and winter squashes. The Hubbard is only in perfection when it has been kept into late winter or early spring, and by proper management the Marrow—in some points not excelled by any other variety—may have its season very much prolonged. Mr. Gregory of Marblehead, Mass., well known as an authority on the subject of squashes, through his handbook on the subject directs that the squashes should be cut upon the approach of frost, and if possible, have two days' sun to set the cut stems; they are then to be handled as carefully as eggs, and each one laid down on a spring wagon and taken to winter quarters. The squashes are to be kept at a low temperature without freezing, and in a dry place. Mr. G. gives a plan of the house in which he stores his squashes for the winter. They are laid upon bins arranged one above another, and the house is provided with a stove in which a fire is made whenever there is danger of freezing. A dry cellar will answer for storing winter squashes, if the above-named conditions are observed.—Am. Agriculturist.

HOW TO MAKE A HORSE'S BED.

If the ideas of a score of farmers touching the manner of making a decent bed for a horse could be written out doubtless the document would be a strange commentary upon stable management and grooming. The best material for making a bed for a horse confined in stall is short straw chaff, sawdust or tan bark. If straw be long, it will pay to run it through the fodder cutter that will cut it in lengths of three inches. Then after removing all the droppings of the animals, let the litter whatever it is—be spread evenly over the entire stall floor, not less than three inches in depth. This will not fail to make a comfortable bed for a weary animal after he has finished his evening feeding.

Most horses are exceedingly fastidious about their beds, and unless a comfortable and clean place has been prepared, they will not lie down for several days. On the contrary, if the bed be made as directed, horses will lie down for many hours, when they would otherwise have continued to stand until their limbs were so swollen and weary that they could not keep on their feet any longer. A horse is a very neat animal and will not lie down in filth, or on a cold floor unless he is exceedingly weary.—Exchange.

Anecdotes.

"Martha," said James "what letter in the alphabet do you like best?"

Martha didn't like to say, but the young man insisted.

"Well," was her final answer as she dropped her eyes, "I think I like U best."

"That's very singular," said a young lady to a gentleman who had just kissed her.

"Oh well my dear miss," was the reply, "I will soon make it plural," and the villain did.

A minister was on his way to church one Sabbath morning and saw a boy on the river bank fishing. "My boy," said he, "don't you know that it is wicked to catch fish on Sunday?"

"Guess I han't sinned much yet," said the boy without taking his eye from the cork, "han't had a bite." Minister coughed and pushed on.

HOOFLAND'S GERMAN BITTERS

is a combination of all the best of the Bitters,
and Santa Cruz Root, Orange, etc. It is used
for the same diseases as the Bitters, in cases where
the remedies are entirely different from any others advertised for the cure of the
diseases. The Bitters are made from the best
of medicinal extracts, while the others are mere
combinations of rums in some form. The Tonic is decidedly
more powerful than any other Bitter, and in
considering the Bitters, hence it is the only Bitters
that can be used in cases where allopathic stimulants
are not admissible.

THE QUINCY PATRIOT,

The Quincy Patriot.

SATURDAY, OCTOBER 30, 1869.

"Born to no Master, of no Sect are We."

SERIOUS ACCIDENT. On Friday afternoon last, Warren, son of Mr. William Parker, Jr., a lad of about nine years, went up stairs and got out upon the roof of a new house, being built near Mr. Parker's, for Messrs. Damon and Lombard, and accidentally fell to the ground, striking on his head. His skull was pressed in and he was taken up insensible. Dr. Stetson was called, and also Dr. Cabot of Boston. The lad has remained in a critical condition since the accident with some slight favorable signs of recovery.

ROBBERIES. Mr. Abram Prescott had stolen from his carriage house, between Friday and Sunday morning last, a new silver mounted harness. It had been used but a few times and cost about fifty dollars.

On Monday morning last, the residence of E. B. Pratt, Esq., was entered soon after breakfast, and some articles from the table, valued about twenty-five dollars, were taken. The family was probably upstairs at the time, and the domestics were busily engaged in washing.

There is a movement among our citizens to form a Society for the better protection of property, and we hope it may be successfully established, believing it would be a blessing to the place.

ACCIDENT. As some boys were gathering nuts from the trees at Quincy Woods, on Friday afternoon last, one of the number, Frank Swanberg, of Boston, fell faint, fell from one of the trees, breaking both arms near the wrist. Both bones in the right arm and one in the left. The lad was fourteen on the day of the accident, and the school he attended having a holiday, he thought he would visit his cousins at Quincy and have a good time; but alas, how unfortunate! After the accident, feeling faint he was obliged to lay for some time on the ground, waiting for some one to take him to his Uncle's, Mr. John Dean's, on Washington street. His companions were rather unsuccessful at first in obtaining any one to carry him, and the boy became so chilly, that his companions were obliged to take off their coats and throw over him, that he might be comfortable. At last Mr. Joseph Arey, who was going to Germantown on business drove by and was hailed by the lads, and he generously consented to take the lad to Mr. Dean's residence. Drs. Morrison and Gilbert were called, who set the broken bones and the lad is as comfortable as can be expected. Mr. Dean wishes to publicly thank Mr. Arey, for his kindness.

G. A. R. We learn that Paul Revere Post, No. 88, of the Grand Army of the Republic, recently organized in this town, have leased the Hall owned by H. H. Faxon, Esq., and known as Mariposa Hall, converted it into an Armory suitable for their purposes, and changed its name to "Revere Hall."

We are also informed that a Committee consisting of Charles H. Porter, E. W. Underwood, Warren W. Adams, William W. Penniman and John S. Farrell, are perfecting arrangements to give a course of social Assemblies under the auspices of the Post during the coming season, thereby offering to our citizens who enjoy "tripping on the fantastic toe," an opportunity to do so at a reasonable cost, and at the same time to render material aid to the charity fund of the organization.

Rev. Mr. Skinner who was listened to with much interest last Sunday evening, will occupy the desk in the Universalist Church, to-morrow.

THANKSGIVING. The Governors of Massachusetts, Maine, New Hampshire, Connecticut, Rhode Island and Ohio have appointed Thursday, Nov. 18th, as a day of Thanksgiving.

The Lieutenant Governor of Canada has appointed Wednesday, Nov. 10, as a day of Thanksgiving in the Provinces.

The weather has been decidedly cold the past week. It has been nearly every night. On Thursday the snow fell quite prettily for a few hours, but melted nearly as fast as it lighted.

Voters, remember the caucuses this evening, and see that proper as well as popular men are nominated for representatives.

G. F. Wilson has opened a new market house in the basement of the Post Office Building.

The remains of the late Gov. Andrews which were temporary placed in a tomb at Mount Auburn, will be carried to Hingham to-day at 12 o'clock, it being the second anniversary of his death. The services will be simple and unostentatious, in the New North Church.

For the Patriot.
ROADS AND SIDEWALKS.

DR. MINER'S LECTURE.

The temperance lecture by Rev. Dr. Miner, Tuesday evening, was able, fresh and lively, and was delivered in the speaker's usual vivacious and entertaining manner. Notwithstanding the subject of the lecture was not announced from all the pulpits in town, the Town Hall was crowded by an attentive and interested audience.

The Speaker commenced by declaring in favor of Prohibition against License; insisting that whatever might be the theory, real or pretended, of License Law advocates, the fact is such a law, whether "stringent" or otherwise, amounts in practice to free trade in intoxicating beverages. He then proceeded to dissect the License Law, under which for one year we lived, showing that in many of its provisions it was ridiculously absurd, and that as a whole, it worked mischief and mischief only. By statistics absolutely overwhelming he showed the advantages gained by those communities comparatively free from the rum traffic, and the unthriftiness and blight suffered by such as abound in grog-shops, as evidenced by their crimes, pauperism and material losses.

Statistics were given showing the large increase in the valuation of property in towns and cities where Prohibition was the rule, and the decrease or slight increase of the valuation in places, possessing vastly greater natural and commercial advantages where intoxicating liquors were freely sold and drank.

Twenty-four murderers confined in the Charlestown State Prison, two years ago, according to Warden Haynes, twenty-one were placed there for killing their wives, two for killing their mothers, and one for killing his father. All were drunk at the time of committing the deed, and all were drunkards. All were once "moderate drinkers."

The Lecture defended the State Constabulary, admitting that they were far from being perfect officials, and justly rebuked the non-action of the Boston Police, maintaining that they decline to do their duty from fear of their masters.

Dr. Miner closed his address, which was clear, logical and forcible, by enjoining temperance men to do their duty at the caucus and the polls, and the audience dispersed, feeling grateful for the privilege of listening to this eloquent pleader for God and humanity.

THE PUBLIC DEBT. The rough estimate so far as returns have been received, are that the public debt statement for the month ending October will show a reduction of \$8,000,000.

PIERCE'S WILL. The will of the late ex-President Pierce was admitted to probate on Wednesday last. It is dated Jan. 22d, 1868, and Hon. Josiah Minot, of Concord is sole executor. The legatees are very numerous; some receiving \$200 and some \$10,000. The estate is valued at \$80,000.

WHISKEY WAR. The U. S. revenue authorities made a grand raid on illicit whiskey stills in Brooklyn on Tuesday morning, nine of them were completely broken up, and six were removed intact to the Brooklyn Navy Yard, together with twelve barrels of whiskey. The captured stills are worth about \$500 each, and the property destroyed on the spot is thought to be worth in the aggregate \$6000 or \$7000. It is said that an average of one hundred barrels of illicit whiskey has been manufactured and removed from this neighborhood daily for a long time past.

NOVEL MOVING. An old two-story building at Hyde Park was moved very singularly on Sunday morning last. An engine and four platform cars had been chartered for the work, and when they arrived, the house, which had been jacked up, was drawn by the engine on to the cars and the train with its curiots freight soon reached Readville. This novel idea came from Mr. George F. Folsom, the master carpenter of the road.

THE YOUTH'S COMPANION. This is one of the most promising and readable Youth's publications with which we are acquainted. It is issued from Boston, is most judiciously conducted; and has among its contributors such writers as Mrs. Stowe, Rev. Mr. Hale, Elizabeth Stuart Phelps, and others equally acceptable to the young people. Its announcements for 1870 are more than ordinarily attractive.

THE ELECTRIC. A correspondent writes us that he fully accords with our commendation of the Electric, and has secured a joint life policy in it for himself and wife. The liberal arrangements of the Company and novel features of their system, which in one combines the excellencies of all, must make it a favorite.

Over 17,000 passenger tickets between Hyde Park and Boston are sold every month by the Boston and Providence railroad company.

Mrs. Catharine Goss, of Lewiston, who died last week at the age of ninety-three, had kept a suit of grave-clothes ready for more than fifty years. Among the articles was a pair of fine white cotton stockings which she knitted for funeral stockings before her marriage, more than seventy years ago.

An Irishman called at a drug store to get a bottle of Johnson's *Analyst Liniment* for the Rheumatism. The druggist asked him in what part of the body it troubled him most. "Be me soul said he, I have it in every houl and corner of me.

On and after SATURDAY, May 1st, 1869, until further notice, this Bank will not open on SATURDAY AFTERNOONS.

HENRY F. BARKER, Cashier.

Quincy, April 27, 1869.

LETTER FROM PORTLAND, MAINE.

The fine autumnal weather this week gives a beauty to the view of land and sea, which we have this morning been enjoying.

Yesterday brought us a brief snow squall, the first of the season, but sun-shine soon followed. The new Cathedral, so badly damaged in the gale of the 8th ult., is being rapidly repaired. An elegant cross was raised Sabbath afternoon to the top of the spire, two hundred and three feet high. A great crowd filled the streets. The Bishop did not repeat the somewhat boastful remark which was made at the dedication, September 8th, "we build our churches to stand," but modestly said that the spire might sometime again fall, to be replaced by another, but he hoped that all would remember that the Cross of Christ would never lose its glory or its power.

The recent attempt to banish the Bible from our public schools proved abortive, but that will again be repeated after the present feeling has subsided is not unlikely.—Work on the Payson Memorial Church is again interrupted on account of the submersion of the Hallowell quarries.—High street edifice is nearly finished, and will be one of the finest in the city.—The two lines of railroads from Portland to the far West, are in progress of building at this end of the route in Westbrook. This town is the largest and wealthiest in Maine. Its population is about eight thousand, its valuation, three million dollars. Evergreen Cemetery, the Necropolis of Portland, is in Westbrook, and reached by horse cars. If a city charter is secured and the various villages constituted wards, the value of property will rapidly increase as the natural advantages of the town, and proximity to Portland will make it a desirable suburban residence.

A new and commodious station is to be built for the Boston trains by the Eastern and Maine roads which will accommodate the travel which has been steadily increasing year by year. The Presumpscot Stream has been shut off three weeks on account of leaks, but is now pouring into the city its long looked for treasures of pure, wholesome water.

Portland, October 25, 1869.

INFANT ASYLUM. The Directors of the Massachusetts Infant Asylum, have recently issued an interesting report of the results of its first year's operations.—Among the many charitable institutions in our neighborhood which are doing so much for the alleviation of suffering and distress among the unfortunate poor, this Asylum, established for the purpose of giving proper care and nursing to orphans, foundlings and other children whose parents are unable to take care of them during their infancy, deserves to take a prominent place in securing the interest and generous aid of the community.

DETROIT. Detroit is the residence of an enterprising boy of six years, who can hardly speak, but who has run away eight or ten times during the present year. Several times he reached a distance of one hundred miles from home, and was sent back by conductors.

There is living in the town of Westminister a maiden lady 78 years old, who, though totally blind and partially deaf, lives entirely alone. She builds her own fires every morning in an open fireplace. She prides herself on having had over forty offers of marriage, yet prefers to take a prominent place in securing the interest and generous aid of the community.

It is situated at Brookline, Massachusetts, and is under admirable management. Its President is Dr. Samuel Cabot, who is personally known to many of our citizens, and he is assisted by a Board of officers, whose names are a sufficient guarantee that the praiseworthy objects of the Institution will always be conscientiously carried out.

The Massachusetts Infant Asylum is continually receiving homeless infants to whom they give a temporary home till more permanent ones can be provided.

All persons desirous of adopting infants will confer a favor by making application to Miss Elizabeth Clapp, Matron.

No applications are considered unless the applicant is shown to be a proper person to take charge of a child by certificate from the Selectmen of the town where he resides, or from some reliable person known to the Directors.

ED. S. PHILBRICK, Chairman.

HARPER'S FOR NOVEMBER. This is before us.—It has an excellent variety of reading matter, adapted to all classes, and well illustrated. For sale at Souther's, and by the New England News Company 41 Court street, Boston.

THE SMALLEST MAN in the United States lives in Winterset, Wisconsin, and his name is Johnny McKibben, Gen. Tom Thumb and Commodore Nut recently exhibited themselves there, when Tommy offered Johnny \$3000 a year to travel with his troupe. But he declined to travel with such ordinary characters.

Over 17,000 passenger tickets between Hyde Park and Boston are sold every month by the Boston and Providence railroad company.

Mrs. Mercy Bryant, of Freedom, Ohio who died last week at the age of ninety-three, had kept a suit of grave-clothes ready for more than fifty years. Among the articles was a pair of fine white cotton stockings which she knitted for funeral stockings before her marriage, more than seventy years ago.

An Irishman called at a drug store to get a bottle of Johnson's *Analyst Liniment* for the Rheumatism. The druggist asked him in what part of the body it troubled him most. "Be me soul said he, I have it in every houl and corner of me.

Poetry.

ONE BY ONE.

One by one the sands are flowing,
One by one the moments fail;
Some are coming, some are going,
Do not strive to grasp them all.

One by one the duties wait thee;
Let thy whole strength go to each;
Let no future dreams elate thee;
Learn then first what these can teach.

One by one, bright gifts from heaven,
Joy is sent here below;

Take them readily when given,
Ready, too, to let them go.

One by one thy grief shall meet thee,
Do not fear an arm'd hand;

One will fade as others greet thee;

Shadows passing through the land.

Do not look at life's long sorrow;

See how small each moment's pain:

God will help thee for to-morrow,

So each day begin again.

Every hour that flits so slowly
Has its task to do or leave;

Luminous the crown, and holy,

If thou set each gem with care.

Farmers' Department.

HOW TO FATTEN CHICKENS.

The London *Cottage Gardener* says:—
"It is hopeless to attempt to fatten them while they are at liberty. They must be put in a proper coop; and this, like most other poultry appurtenances, need not be expensive. To fatten twelve fowls, a coop may be three feet long, eighteen inches high and eighteen inches wide, made entirely of bars. No part solid—neither top, sides nor bottom. Discretion must be used according to the sizes of the chickens put up. They do not want room; indeed the closer they are the better—provided they can all stand up at the same time. Care must be taken to put up such as have been accustomed to be together, or they will fight. If one is quarrelsome, it is better to remove it at once; as, like other bad examples, it soon finds imitators. A diseased chicken should not be put up. The food should be ground oats, and may either be put up in a trough or on a flat board running along the front of the coop. It may be mixed with water or milk; the latter is the better. It should be well soaked, forming a pulp as loose as can be, provided it does not run off the board. They must be well fed three or four times per day—the first time as soon after day-break as may be possible or convenient, and then at intervals of four hours. Each meal should be as much and no more than they can eat up clean. When they have done feeding, the board should be wiped, and some gravel may be spread. It causes them to feed and thrive."

PAPER HANGINGS,
New Spring Stock!!
JUST RECEIVED.

THE Subscriber has just received a splendid assortment of papers. Beautiful patterns, new designs. Some richer and costlier than ever offered in this place. Prices ranging from 12 cts upwards.

\$100 REWARD

For a medicine that will cure

COUGH, INFLUENZA,
TICKLING in the THROAT, WHOOPING COUGH,

Or relieve CONSUMPTIVE COUGHS,
as quick as

COE'S COUGH BALSM !

OVER ONE MILLION BOTTLES,
have been sold, and not a single instance of its failure is known. We have in our possession, any quantity of Certificates, some of them from,

EMINENT PHYSICIANS
who have used it in their practice, and given it the highest endorsement.

IT does not dry up a COUGH,
but

LOOSENS IT,
so as to enable the patient to expectorate freely
two or three doses

Will invariably Cure Tickling in the Throat.

A half bottle has often completely cured the most stubborn Cough, and yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is given to all classes of people, and may be administered to children of any age.

In cases of CROUP we will guarantee
a cure, if taken in season.

No Family should be without it.

It is within the reach of all, it being the cheapest and best medicine extant.

IT is now enough of this done. We believe in plowing barley and eat ground invariably in the autumn. If it could be subsoiled at the same time it would become dry earlier in the spring and admit of more seasonable sowing. On thoroughly underdrained land subsoil plowing in autumn would be the best possible preparation for spring grain.—Exchange.

THE garden should now be put in order—its remaining crops gathered, the soil manured, and, on heavy land, thrown into ridges for the winter. Farmers are too apt to neglect this, deeming the garden of comparatively small importance. A farm never should lack in this particular, for garden products are essentials in all homes, and should be duly provided.

Anecdotes.

In a class of little girls in one of the schools of Boston, the question was asked, "What is a fort?"

"A place to put men in," was the ready answer.

"What is a fortress then?" asked the teacher. This seemed a puzzle, until one little girl of eight summers answered, "A place to put the women."

"John, where was your minister's text last Sunday?"

"Let me see, I believe it was in the—Oh! confound my short memory, I can't recollect the place, but the words were, 'Sleep on now, and take your rest.'"

"What did he make of that, John?"

"I don't know, faith; but he's continually been telling us that truth is always practical, so I think to myself I'll take your word for once, and I may be shot if I waked up till after the Amen!"

The other day X. called on Madame Q., in Paris. "Madam, can I see your husband?"

"No, sir; he is out at present. He went out to buy a cigar."

"Did he say when he would return, Madam?"

"No."

"Has he been long gone?"

"More than twenty years."

"Ah! I see," said X., "he wanted to get a good one."

"Why don't you limit yourself?" said a physician to an intemperate person.—"Set down a stake that you will go so far and no farther."

"I do," replied the other; "but I set it so far off that I always get drunk before I get to it."

WANTED! AGENTS,
FOR PROF. PARSONS'

LAWS OF BUSINESS

With Full Directions and Forms for all transac-

tions, in Every State in the Union.

BY THEODORE PARSONS, LL. D.

Professor of History, and author of

many Law Books.

A New Book on Entomology. Explaining the rights,

and obligations of all the relations of life, as well

DEBITORY.

There is no medicine equal to Hoofland's German

Bitter or Tonic in cases of Debility.

They impart a strong

appetite and an enjoyment of the food, enable the

stomach to digest it, purify the blood, give a good

tonic.

Hoofland's German Bitters

is entirely vegetable, and contains no liquor. It is a

compound of all the ingredients of the Bitters.

The Roots, Herbs, and

Barks from which these Extracts are made, are

extracted from them by a scientific process.

These Extracts are then prepared for the manufacture of the Bitters. There

is no alcoholic substance of any kind used in

the manufacture of the Bitters.

Weak and Delicate Children are made

strong by using the Bitters and Tonic.

These remedies are the best.

Blood Purifiers

ever known, and cure all diseases resulting from

bad blood. Keep your pure;

keep your Liver in order;

keep your digestive organs in sound

condition by the use of the remedies

of Dr. Hoofland, with ness and dispatch.

Books made to order.

The subscriber hopes by his long experience

and strict attention to the interest of his customers,

to merit a portion of your patronage.

PATRONS! READ!

Next Thursday is Thanksgiving. Does it seem possible? According to our usual custom on Thanksgiving week, we shall publish the Patriot early on Wednesday afternoon, and should consider it a favor if any of our subscribers who receive their papers by express, or by the baker, would step into the office and take a copy; those not called for we will drop into the post office. Advertisers will please send in their notices as early as Tuesday.

We are constantly receiving communications without the authors' names accompanying them. Such articles always find the scrap basket. Let us then caution writers, once more, not to spend their time, paper and ink, if they are afraid to send their names with the articles. Inc, Betsy Ann, and others please take notice.

PUBLIC PARK. The subject of a public park for the city of Boston has created considerable discussion of late. Several public hearings given by a joint special committee at the City Hall, have been largely attended. Hon. Marshall P. Wilder and many other gentlemen have spoken strongly in favor of a park. Mr. Edward Crane proposed purchasing 1200 acres in Dorchester, commencing on Columbia street, near Grove Hall, on the north, the boundary would run two miles and a half alongside the Boston, Hartford and Erie Railroad; thence on the southwesterly by the Hyde Park boundary of the city, the western line passing by Mount Hope Cemetery near Forest Hill, back to the starting point on Columbia street.

He said it would be possible to have five entrances and stations on the line of the Boston, Hartford and Erie Railroad, while a short branch could be built from the Providence road. Warren street might be extended directly to the park, and also Albany street, giving two splendid avenues through which double lines of horse cars could be run.

Mr. Albert Sise suggested that, as the contour of the city when the surrounding towns are joined to it would be very nearly a semi-circle, the park should be nearly in the centre of that semi-circle. He thought that it should be of a wedge like

the wedge to be located near where the Coliseum now stands. In a few years it would be in the centre of the city. A tunnel-shaped park like this would be extremely accessible, and act as lungs to the city to conduct in the healthful breezes from the country.

Mr. Elizur Wright presented a printed document, advocating the location of a park, between Spot Pond, near Wyoming and the Mystic River.

RAILROAD AGITATION. The South Shore people are quite enthusiastic for a new railroad—commencing at Duxbury and passing through South Scituate, Scituate, and connect with the South Shore railroad at East Weymouth, or passing through Quincy Point and connecting with the Old Colony in this place. Over a thousand persons were present at a meeting held in Duxbury, last week. Some representing Weymouth, Scituate, Marshfield, Scituate, Duxbury and Boston.

At the town meeting in South Scituate, the town pledged their support by a unanimous vote. The spirit shown by capitalists indicates that the needful funds can be raised in a short time to do the work, and pay for it without swamping the corporation in the debts so fatal to so many railroad enterprises.

The next meeting on the subject will be held at the Town Hall, in Hingham, on Friday evening next, at 7 1-2 o'clock.

TEACHERS' UNION. The South Shore Sunday School Union, will meet in the Universalist Church, on Sunday evening, Services commencing at 6 1-2 o'clock. This Union is composed of the officers and members of a number of schools in this vicinity, and it is expected that this meeting will be made interesting by addresses from various persons, with singing by the children.

SABBATH SCHOOL Concert at Rev. Mr. Hall's church to-morrow evening. Singing and recitations by thirty children. Subject—The Ten Commandments.

GREEK. "O yes" how pleasant it is to choose rich farmers, whose bountiful tables are always spread with the "fa" of the land." Then how nice to have things "numbered" even to a "sugar doctor"; and how unfortunate to be like Mr. Forbes when sick—and sick cows. Why can't "Joe" with a "bib" beat Horace,—but iron tells.

CONGRESS RECORD INK. A clearer, richer and better Ink cannot be desired than this, made by D. B. Brooks & Brothers, Boston.

LECTURES.

To the Publisher of the Patriot:

DR. MINER'S LECTURE.

One of the humors of the recent election, was Rev. Mr. Miner's temperance lecture. The report in your paper scarcely done the lecturer justice. His discourse was able, argumentative and eloquent, but not convincing. It is somewhat singular that a principle which last year carried the town by storm, should this year receive only thirty-seven votes on its merits; but when we consider the manner in which the cause of temperance is handled by its pretended apostles, the wonder ceases. Dr. Miner spoke as a priest, and although his theology was somewhat rambling he enunciated his dogmas with all the authority of one who understood and declared the canon law. However, he seemed to feel that he was speaking in a bad cause; his illustrations were far-fetched and very fine spun. He said that no liquor was sold in Vineland. Perhaps this may be true; if so, it is a remarkable township. He also spoke of an Irish town, and as cows which are farest off have the longest horns, the Irish town beats Vineland hollow. In that "happy Valley," the folks have all the blessings of Vineland, and pay no taxes.

If the Dr. was an Irishman, I would say this was a *bull*—but as he is a thoroughbred Yankee, I only call the statement a *very long horned cow*. What a mistake the Irish made in coming here, when they had such a paradise at home to go to. If the Dr. understood the subject he was speaking of, he could find no better place to draw his arguments from than Ireland. He made another *mistake*, when he said that a License Law could not be made effective. They have a License Law in Ireland; it is not a very stringent one, but it is rigidly enforced, and it is effective for regulating the sale of intoxicating liquors. They make large quantities of whiskey in Ireland, and export a good deal of it to America, and many of the apostles of Prohibition are only too happy when a "wee drap" is forced upon them. Let Dr. Miner ask the opinion of the most prudent and reliable State Constable he knows, and he will get a satisfactory answer on this point. They know if the Dr. really wishes to make the people temperate, let him imitate the venerable Father Matthew. He was truly a temperance man—temperate in speech, as in all things else. He was as well acquainted with the law of God as Dr. Miner, yet he never presumed to denounce damnation against a man for selling liquor—he knew human nature well, with great pleasure and benefit to all concerned. And it will prove so if all our intelligent citizens, who have not already done so, will come forward and aid in this matter with as earnest a desire for success as WELL WISHER.

For the Patriot.
FROM THE "HUB."

BOSTON, Nov. 9th, 1869.

Your readers may wish to hear "some what" from our city as winter approaches. We are a stirring people about this time. Election is over and Democracy and the Workingmen have made a raid into the Republican party beyond all expectation. The fact is, the people of Massachusetts are against the Prohibition Law, and in some way this will show it.

Nothing is exciting more interest at present here than our lecture courses. The *Fraternity Course*, thus far, has been successful. Annie E. Dickinson "pitched into" the men without mercy, and the dailies, in their criticisms, (made by men you know) "pitched into" her quite as furiously. So it was a running fight all round.

Lucy Stone, alias, Blackwell, went at the men with the same feeling, but with smiles all over her face, so pleasant that all were delighted to be thoroughly whipped.

The third lecture was by Senator Sumner, in his old theme, only of a little different cast. The Senator looked care-worn, but got off a good story.

We have other lectures, almost *ad infinitum*. The Y. M. C. Association, the Y. M. C. Union and the Y. W. C. Association are all having courses. Your old townsmen, Dr. W. M. Cornell, gave one to the last named Association, the other evening, on the "Imagination,—its uses and abuses," which was esteemed very much. The papers, Journal, Post, Transcript and Traveller, all spoke of it as of a "high order." It abounded in amusing anecdotes and instructions upon a fertile subject.

I notice you are to have a course of lectures by the most eminent of the Fraternity and "Sisterhood" of the last *drawers*. Mind and get those who will *draw* *draw*, a *Murray*, of "the wilderness." Then Boston Music Hall won't be large enough to hold the *drawers* ones.

Adrian Patriot. H. QUES.

Mr. Samuel T. Allen has a splendid lot of apples, the handsomest we have seen this season, at his market house.

Two DOLLAR BILLS. The new two dollar greenbacks have made their appearance in small quantities. They are printed on a patent fiber paper, and are decidedly the handsomest notes of their denomination that have been issued since the beginning of the war. There is an excellent view of the Capitol in the centre and a portrait of Jefferson on the left end. The figures, scroll work and lettering are very fine.

The MESSAGE. Nearly all the heads of Departments have furnished the President with a synopsis of their reports containing the main points which he wishes to use as data in preparing his annual Message, which he will soon commence. The message is expected to be comparatively brief.

Capt. C. C. Bumpus and Lieut. Col. Porter of this place were two of the pall bearers at the recent interment of Gov. Andrew at Hingham.

The Governors of thirty-one States have united with the President in recommending November 18, as a day of thanksgiving and praise.

For the Patriot.

DR. MINER'S LECTURE.

One of the humors of the recent election, was Rev. Mr. Miner's temperance lecture. The report in your paper scarcely done the lecturer justice. His discourse was able, argumentative and eloquent, but not convincing. It is somewhat singular that a principle which last year carried the town by storm, should this year receive only thirty-seven votes on its merits; but when we consider the manner in which the cause of temperance is handled by its pretended apostles, the wonder ceases. Dr. Miner spoke as a priest, and although his theology was somewhat rambling he enunciated his dogmas with all the authority of one who understood and declared the canon law. However, he seemed to feel that he was speaking in a bad cause; his illustrations were far-fetched and very fine spun. He said that no liquor was sold in Vineland. Perhaps this may be true; if so, it is a remarkable township. He also spoke of an Irish town, and as cows which are farest off have the longest horns, the Irish town beats Vineland hollow. In that "happy Valley," the folks have all the blessings of Vineland, and pay no taxes.

If the Dr. was an Irishman, I would say this was a *bull*—but as he is a thoroughbred Yankee, I only call the statement a *very long horned cow*. What a mistake the Irish made in coming here, when they had such a paradise at home to go to. If the Dr. understood the subject he was speaking of, he could find no better place to draw his arguments from than Ireland. He made another *mistake*, when he said that a License Law could not be made effective. They have a License Law in Ireland; it is not a very stringent one, but it is rigidly enforced, and it is effective for regulating the sale of intoxicating liquors. They make large quantities of whiskey in Ireland, and export a good deal of it to America, and many of the apostles of Prohibition are only too happy when a "wee drap" is forced upon them. Let Dr. Miner ask the opinion of the most prudent and reliable State Constable he knows, and he will get a satisfactory answer on this point. They know if the Dr. really wishes to make the people temperate, let him imitate the venerable Father Matthew. He was truly a temperance man—temperate in speech, as in all things else. He was as well acquainted with the law of God as Dr. Miner, yet he never presumed to denounce damnation against a man for selling liquor—he knew human nature well, with great pleasure and benefit to all concerned. And it will prove so if all our intelligent citizens, who have not already done so, will come forward and aid in this matter with as earnest a desire for success as WELL WISHER.

The fact is, the people of Massachusetts are against the Prohibition Law, and in some way this will show it.

Nothing is exciting more interest at present here than our lecture courses. The *Fraternity Course*, thus far, has been successful. Annie E. Dickinson "pitched into" the men without mercy, and the dailies, in their criticisms, (made by men you know) "pitched into" her quite as furiously. So it was a running fight all round.

Lucy Stone, alias, Blackwell, went at the men with the same feeling, but with smiles all over her face, so pleasant that all were delighted to be thoroughly whipped.

The third lecture was by Senator Sumner, in his old theme, only of a little different cast. The Senator looked care-worn, but got off a good story.

We have other lectures, almost *ad infinitum*. The Y. M. C. Association, the Y. M. C. Union and the Y. W. C. Association are all having courses. Your old townsmen, Dr. W. M. Cornell, gave one to the last named Association, the other evening, on the "Imagination,—its uses and abuses," which was esteemed very much. The papers, Journal, Post, Transcript and Traveller, all spoke of it as of a "high order." It abounded in amusing anecdotes and instructions upon a fertile subject.

I notice you are to have a course of lectures by the most eminent of the Fraternity and "Sisterhood" of the last *drawers*. Mind and get those who will *draw* *draw*, a *Murray*, of "the wilderness." Then Boston Music Hall won't be large enough to hold the *drawers* ones.

Adrian Patriot. H. QUES.

Mr. Samuel T. Allen has a splendid lot of apples, the handsomest we have seen this season, at his market house.

Two DOLLAR BILLS. The new two dollar greenbacks have made their appearance in small quantities. They are printed on a patent fiber paper, and are decidedly the handsomest notes of their denomination that have been issued since the beginning of the war. There is an excellent view of the Capitol in the centre and a portrait of Jefferson on the left end. The figures, scroll work and lettering are very fine.

The MESSAGE. Nearly all the heads of Departments have furnished the President with a synopsis of their reports containing the main points which he wishes to use as data in preparing his annual Message, which he will soon commence. The message is expected to be comparatively brief.

Capt. C. C. Bumpus and Lieut. Col. Porter of this place were two of the pall bearers at the recent interment of Gov. Andrew at Hingham.

The Governors of thirty-one States have united with the President in recommending November 18, as a day of thanksgiving and praise.

For the Patriot.

DR. MINER'S LECTURE.

One of the humors of the recent election, was Rev. Mr. Miner's temperance lecture. The report in your paper scarcely done the lecturer justice. His discourse was able, argumentative and eloquent, but not convincing. It is somewhat singular that a principle which last year carried the town by storm, should this year receive only thirty-seven votes on its merits; but when we consider the manner in which the cause of temperance is handled by its pretended apostles, the wonder ceases. Dr. Miner spoke as a priest, and although his theology was somewhat rambling he enunciated his dogmas with all the authority of one who understood and declared the canon law. However, he seemed to feel that he was speaking in a bad cause; his illustrations were far-fetched and very fine spun. He said that no liquor was sold in Vineland. Perhaps this may be true; if so, it is a remarkable township. He also spoke of an Irish town, and as cows which are farest off have the longest horns, the Irish town beats Vineland hollow. In that "happy Valley," the folks have all the blessings of Vineland, and pay no taxes.

If the Dr. was an Irishman, I would say this was a *bull*—but as he is a thoroughbred Yankee, I only call the statement a *very long horned cow*. What a mistake the Irish made in coming here, when they had such a paradise at home to go to. If the Dr. understood the subject he was speaking of, he could find no better place to draw his arguments from than Ireland. He made another *mistake*, when he said that a License Law could not be made effective. They have a License Law in Ireland; it is not a very stringent one, but it is rigidly enforced, and it is effective for regulating the sale of intoxicating liquors. They make large quantities of whiskey in Ireland, and export a good deal of it to America, and many of the apostles of Prohibition are only too happy when a "wee drap" is forced upon them. Let Dr. Miner ask the opinion of the most prudent and reliable State Constable he knows, and he will get a satisfactory answer on this point. They know if the Dr. really wishes to make the people temperate, let him imitate the venerable Father Matthew. He was truly a temperance man—temperate in speech, as in all things else. He was as well acquainted with the law of God as Dr. Miner, yet he never presumed to denounce damnation against a man for selling liquor—he knew human nature well, with great pleasure and benefit to all concerned. And it will prove so if all our intelligent citizens, who have not already done so, will come forward and aid in this matter with as earnest a desire for success as WELL WISHER.

For the Patriot.

FROM THE "HUB."

BOSTON, Nov. 9th, 1869.

Your readers may wish to hear "some what" from our city as winter approaches. We are a stirring people about this time. Election is over and Democracy and the Workingmen have made a raid into the Republican party beyond all expectation. The fact is, the people of Massachusetts are against the Prohibition Law, and in some way this will show it.

Nothing is exciting more interest at present here than our lecture courses. The *Fraternity Course*, thus far, has been successful. Annie E. Dickinson "pitched into" the men without mercy, and the dailies, in their criticisms, (made by men you know) "pitched into" her quite as furiously. So it was a running fight all round.

Lucy Stone, alias, Blackwell, went at the men with the same feeling, but with smiles all over her face, so pleasant that all were delighted to be thoroughly whipped.

The third lecture was by Senator Sumner, in his old theme, only of a little different cast. The Senator looked care-worn, but got off a good story.

We have other lectures, almost *ad infinitum*. The Y. M. C. Association, the Y. M. C. Union and the Y. W. C. Association are all having courses. Your old townsmen, Dr. W. M. Cornell, gave one to the last named Association, the other evening, on the "Imagination,—its uses and abuses," which was esteemed very much. The papers, Journal, Post, Transcript and Traveller, all spoke of it as of a "high order." It abounded in amusing anecdotes and instructions upon a fertile subject.

I notice you are to have a course of lectures by the most eminent of the Fraternity and "Sisterhood" of the last *drawers*. Mind and get those who will *draw* *draw*, a *Murray*, of "the wilderness." Then Boston Music Hall won't be large enough to hold the *drawers* ones.

The Governors of thirty-one States have united with the President in recommending November 18, as a day of thanksgiving and praise.

Summary Intelligence.

The hog slaughtering season at the West has begun, and the business is very active.

Four inches of snow fell on Sunday last, at Covington, Virginia, and Greenbrier, North Carolina.

The tolls on the Chelsea Bridge and Salem turnpikes were abolished on Saturday last.

The closing Sunday night trip of the Fall River line, for the season, was made last Sunday. It received a good patronage, and will be resumed in the Spring.

More lumber will be cut in Maine this winter than ever before.

The United States armory at Springfield has lately received forty-one great grindstones weighing from 4000 to 7000 pounds each, to be used in grinding down gun barrels, and the freight bills make mention of 50,000 guns from Governor's Island sent there for repairs, also 200 boxes of condemned pieces of guns from Sharp's factory in Hartford.

The GREAT BENEFACTOR. The remains of the late George Peabody will be brought to this country by a British man-of-war, and interred at Salem, Mass. The New York Evening Post thinks that he was worth \$1,600,000, but it would have been entirely safe in setting the amount at ten times that sum.

A monument to his memory will be erected in Central Park, New York. The Treasurer of the fund for this purpose has received remittances from fifty-two subscribers.

OBITUARY. The funeral of the late Major-General John E. Wool will take place to-day at 11 o'clock, from St. Paul's Church in Troy, New York. He died on Wednesday morning at the advanced age of eighty-six years.

Marriages.

At the Sailors' Snug Harbor, on the 23d inst., by the Rev. H. D. Catlin, of Dorchester, Mr. Ebenezer Bent to Mrs. Elvira S. Smith, both of this town.

Deaths.

In this town, at the Sailors' Snug Harbor, on the 6th inst., Mr. William Douglass, aged 54 years and 3 months.

On the 10th inst., Mrs. Wealthy Dean, aged 32 years and 6 months.

On the 10th inst., Mrs. Lurania Higgins, aged 67 years.

Funeral this afternoon at half past one. Friends and relatives are invited.

In Haverhill, on the 8th inst., Mr. George H. Veazie, formerly of this town, aged 42 years, 1 month and 22 days.

SATURDAY, NOVEMBER 20, 1869.

"Born to no Master, of no Sect are We."

THANKSGIVING!

How redolent with sweet and pleasant memories is this New England Thanksgiving Day! It possesses its own peculiar charm. We have our political holidays; our days of civic parade and military display; birthday celebrations in honor of our country's heroes and the world's magnates; we have year by year our religious feasts and festivals, our State and County gatherings, by which we foster and extend the interests of science, commerce or agriculture. But unlike them all, above them all, like "a mountain apart," towers this ancient jubilee, this loved and honored feast of the Pilgrims. Towards it we turn our longing eyes as to the sacred shrine of Mecca the devout pilgrim fondly bears his gaze. From it as from the ancient games of Greece we, as they of old, are wont to reckon time and occurrences such as diversify the calendar of life. Through all their Olympiads the Greeks noted events as chronologically related to the sacred feasts of Jupiter.

Thanksgiving is eminently a domestic jubilee. The old homestead welcomes back again the long separated. Sevices are reunited. Wandering feet are now at home! HOME!—what magic in that word.

"A mystic circle which surrounds
Conforts and virtues never known
Beyond the hallowed limit."

It is a sweetly sounding syllable. He felt its wondrous spell who gave it a place as one of the three holiest words we breathe,—MOTHER, HOME and HEAVEN!

This should be a genuine Thanksgiving. Our good President and the Chief Executive of this Commonwealth have catalogued some of the blessings we are now as a people enjoying from the Parent of all good. We will not repeat or enlarge upon their excellent messages, but only iterate the kindest salutations of the day to all our readers far and near. May they all enjoy a festival of gratitude and gladness, eating and drinking with temperance, and sending a portion to those for whom nothing is prepared. The feast will then bring no surfeit and the remembrance of it will be a life long pleasure.

CONSTATORY. On Thursday last, three of the State Constables, called at the residence of Mr. Thomas Swithin, on Granite street, in this town, with a warrant to search his premises for intoxicating liquors which they were informed were concealed there. Mr. Swithin being absent at the time, the warrant was read to his daughter—who had charge of the place. Soon after, the officers began their duty—Mr. Swithin returned and manifested considerable indignation. They exhibited their warrant and offered to read it to him, but he refused to listen, and threatened to shoot them if they attempted to pass into the next room. The officers arrested him, carried him to Dorchester, where he was tried before Justice Temple and fined for resisting the officers, while on duty.

SALES. We would call the attention of our readers to the sale of vehicles and farming utensils, including one excellent mowing machine, at the residence of the late Deacon Elijah Baxter, on Friday, Nov. 19th.

AN UNUSUAL SERVICE. On Monday, the 8th instant, the Rev. Mr. Timlow of East Cambridge was called to perform a double service of rather opposite character. It was both a marriage and funeral service at the same hour and in the same family. The mother was dead, and at her request, the daughter was to be married as soon as possible. It was so arranged that the marriage ceremony was performed at the side of the coffin, and this was followed by the funeral services. There sat the father alone, the sacred tie having been broken, and there was the daughter forming the tie, while deeply mourning her mother. The services, though so strangely in contrast, were nevertheless very solemn.

THE OLDEST COMMISSION IN THE ARMY is that of Gen. Sylvanus Thayer, of Braintree, who entered the army in 1808.

MORMONS. The New York Times says a Mormon temple is to be erected in that city within the coming year. The building is to cost at least \$500,000. There are upwards of 300 families of Latter-day Saints in Brooklyn, and as many more in New York. Some of the men, it is said, have as many as four and five wives living in different parts of the city.

CHARITABLE SOCIETY. The Directors of the Quincy Charitable Society have just begun their winter's work. This organization is wholly unsectarian in its aims and objects; and contributions from whatever quarter are gladly welcomed. One dollar a year constitutes a gentleman a member; while ladies are asked to pay only twenty-five cents.

The Society has lately received seven-five dollars from the Executors of the late Lemuel Brackett, Esq., the same being the interest of a certain fund left in trust by him for the benefit of the poor of the town.

FIFTY DOLLARS have been received also from Henry H. Faxon, Esq., who has shown himself of late years a frequent and generous contributor to the treasury of the Society.

EDWARD B. KETCHUM, whose heavy forgeries a few years ago created a first-class Wall street sensation, was released from Sing Sing on Saturday last, his term of sentence (reduced by a commutation of eight months, for his uniformly good conduct) having expired.

QUINCY LECTURE COURSE.

Josh Billings' lecture on Monday evening was a decided success. The Town Hall was crowded with attentive listeners, who seemed to appreciate to the utmost, the keen wit and bright jests of the speaker. Not a few wholesome truths were hidden behind the fun. Mr. Billings' real name is Henry W. Shaw.

The subject of his discourse was "Milk" and the subject stood on the table during the evening, in the shape of a tumbler of that fluid. But the lecture was about "nothing extenuate or set down aught in malice." Now we find Boston about the same as when we left, September 28th, but a "leettle" altered in some localities. The Coliseum is gone,—and good-bye to it. Walking down Hanover street all is confusion at the upper end by the process of widening, which improvement has reached as far as Elm street. Concert Hall, at the entrance of Hanover from Court street, has disappeared,—an ancient landmark. The Boston Gazette of December 20, 1773, is before me. The following advertisement is in it:

"At Concert Hall, on Thursday, the 24th instant, will be performed a Grand Concert of Vocal and Instrumental Music,—tickets at a half dollar each. In Cole Lane, (now Portland street,) Joseph Hall sells choice Malaga "Lemons" at six dollars per single box, and less by the large quantity,—and three pounds per hundred, and nine shillings per dozen, old tenor. Mrs. Shaffee, at her shop in Queen Street, (now Court street) sells choice Fontinac Wine, playing cards and rappee snuff. Then, no State Constabulary to cross her business path. Moses Deshon opens a singing school to instruct in the art of Psalmody. And even in those days of a past century, Donald McAlpine "opens a school for to teach the noble art of self-defence, called the Black Sword, at the Green Dragon Tavern." This stood on or near the site of the Blackstone Bank.

Those were trying days for the fate of the country as appears by the following notice in a large print:

"At a meeting of the principal vendors of teas, in Boston, on Friday evening, December 17, 1773, for consulting and determining on suitable measures to be adopted, and to co-operate with a number of respectable inhabitants of this Province, expressed by a vote of their late assembly, to suppress the use of that detested article. The more freely to execute this purpose, it was agreed that a general and full meeting should be convened on Tuesday, the 21st instant, at 5 o'clock, p. m., at the Royal Exchange Tavern, in King street, (now State street) where it is desired and expected that all the dealers in, and vendors of teas will punctually attend.

He was at once arrested and taken to the lock-up. On the way he was asked why he did the deed, and he replied that his wife aggravated him and that he had often told her he would kill her sooner or later. Healy did not appear to be under the influence of liquor, nor did he manifest any regret for the crime he had committed.

AN UNUSUAL SERVICE. On Monday, the 8th instant, the Rev. Mr. Timlow of East Cambridge was called to perform a double service of rather opposite character. It was both a marriage and funeral service at the same hour and in the same family. The mother was dead, and at her request, the daughter was to be married as soon as possible. It was so arranged that the marriage ceremony was performed at the side of the coffin, and this was followed by the funeral services. There sat the father alone, the sacred tie having been broken, and there was the daughter forming the tie, while deeply mourning her mother. The services, though so strangely in contrast, were nevertheless very solemn.

THE OLDEST COMMISSION IN THE ARMY is that of Gen. Sylvanus Thayer, of Braintree, who entered the army in 1808.

THE MORMON TEMPLE is to be erected in that city within the coming year. The building is to cost at least \$500,000.

There are upwards of 300 families of Latter-day Saints in Brooklyn, and as many more in New York. Some of the men, it is said, have as many as four and five wives living in different parts of the city.

SINGULAR LAWSUIT. In the Supreme Court for Franklin county, this State, Rev. T. C. Pratt has brought an action to recover for \$298 worth of preaching, which he claims to have done for Methodists in Leverett, Shutesbury and Wendell. They deny that he had a right to act as pastor; that if he was to receive any pay for his services, it was in such sum as might be voluntarily practiced, and that he did not preach or practice the doctrines of the Methodist church.

DEMOCRAT'S MONTHLY. This favorite periodical for ladies improves with every issue. Its reliable fashions, its numerous full-sized patterns, its admirable illustrations, and great variety of useful and interesting reading matter, render it by far the most desirable magazine of the day, and in fact indispensable to ladies living away from the metropolitan centers. It gives as a premium, a magnificently engraved copy of Lillie M. Spear's "Fourth of July Pic-Nic"—a picture worth three times the cost of the magazine. Published at 838 Broadway, New York.

THANKSGIVING. There will be full morning service and sermon at Christ Church, at ten o'clock. Sittings free.

FROM OUR CORRESPONDENT.

Back again—Ramble through the streets—Daily changes.—How matters stood here one hundred years ago. This letter made up from gleanings of an old newspaper.

BOSTON, NOVEMBER 15, 1869.

After an absence of some weeks, we are here, to resume, by your permission, "jottings" for the Patriot. While we shall endeavor to express our humble news free from party politics, we shall "nothing extenuate or set down aught in malice." Now we find Boston about the same as when we left, September 28th, but a "leettle" altered in some localities.

The Coliseum is gone,—and good-bye to it. Walking down Hanover street all is confusion at the upper end by the process of widening, which improvement has reached as far as Elm street. Concert Hall, at the entrance of Hanover from Court street, has disappeared,—an ancient landmark.

The Boston Gazette of December 20, 1773, is before me. The following advertisement is in it:

There is a movement in N. Y. in favor of calling all prices on the Stock Exchange list in gold and ignoring greenbacks, as in California. It is argued that this plan would place negotiable securities on a gold basis for price at once and would be a great stride towards the resumption of specie payments all over the country.

A citizen of Knoxville, Tenn., has invented a steam wagon on original principles throughout. The method of propulsion is by driving rods, not wheels, and the inventor says its construction will cost about the same as a good horse and wagon, will run ten miles an hour on common roads, and be serviceable for all kinds of work.

The PHENOMENAL JOURNAL FOR NOVEMBER contains the following sketches of general interest: Hon. Asa Packer; Gen. John A. Rawlins; William P. Fessenden; Gen. Washington's Head; Life's Mission and Reward; Mother Ann Lee, the Shaker; The Cathedral of Milan; Are the Women to Blame? A Beautiful Face, how it is marred; Insects, or Insect without Brain; Chinese Proverbs and Wise Saws; Salem Witchcraft; Personal Responsibility; Cranial Defects in Criminal Classes; On the Expression of the Eye; Spectrum Analysis, etc., with Engraved Portraits and other Illustrations.

Price only 30 cents, or \$3 a year. A new volume begins with the January number. Address, S. R. Wells, publisher, 389 Broadway, New York.

Adrian Bee, the member of the Fourth Michigan Cavalry, who captured Jeff Davis in petticoats, is now a tinsmith at Janesville, Wis. He says if he had then known what he knows now he would have shot the patriot Jeff in his female trucks.

One of the busiest places we have visited of late is the Clothing establishment of Geo. H. Richards, 24 & 25 Dock Squares Boston. He has the largest and best selected stock of Clothing we ever had the pleasure of gazing upon, and we only wish the length of our purse would admit, as often as once a quarter, of our robbing ourselves in one of the many becoming suits displayed on his counters.—We advise all, whose eye this may chance to meet, to call and examine his stock and styles, before purchasing elsewhere. His styles and prices cannot fail to please the most fastidious and economical.

THE ONLY RELIABLE CURE FOR
Dyspepsia in the Known World.

THE GREAT AMERICAN DYSPEPSIA and
PINE TAR CORDIAL are a positive and infallible cure
for dyspepsia in its most aggravated form and most
acute cases.

For Inflammation, Neuralgia, Catarrh, Con-
sumption, and Throat Diseases, they have a sooth-
ing effect.

SINGERS and PUBLIC SPEAKERS use them to clear
and strengthen the voice.

Owing to the good reputation and popularity of the
Trotters, many worthless and cheap imitations are offered,
which are worth nothing. Be sure to obtain the
original.

Poetry.

THE STREAM OF LIFE.

Oh silvery streamlet of the fields,
That flows full and free!
For then the rains of spring return,
The summer dews for thee;
And when thy latest blossom die
In autumn's chilly showers,
The winter fountain gush for thee,
The May brings back the flowers.
Oh Stream of Life! the violet springs
But once beside thy bed;
But one brief summer, on thy path,
The dews of heaven are shed.
They parent fountains shrink away,
And close their crystal veins,
And when thy glistening current flows
The dust alone remains.

Farmers' Department.

PRESERVING CABBAGES.

Cabbages are preserved very simply; they are left out as late as they can be pulled up by the roots, in this section, about the end of November, they are then pulled up and turned upside down—the roots up, the heads packed close together, in beds six feet wide, with six feet alleys between, care being taken to have the ground levelled where the cabbages are placed, so that they pack nicely. They are left in this way for two or three weeks, or as long as the ground can be dug between the alleys, the soil from which is thrown on the beds of cabbage, so that, when furnished, they have a covering of four or six inches of soil. This is not enough to cover the root, however, which is left partly exposed, but this is in no way injurious. Some prefer to cover them up at once by ploughing a furrow, shoveling it out wide enough to receive the heads of the cabbages, and then turning the soil in on the heads, and so continuing until beds of six or eight feet are thus formed. This plan is rather more expeditious than the former, but it has the advantage of compelling them to be covered up at once by soil, while the other plan delays it two or three weeks later, and it is of the utmost importance in preserving vegetables that the operation (particularly the final covering) be delayed as late in the season as frost will permit. Generally more are lost by beginning too soon than delaying too late. Onions, we find, are best preserved in a barn or stable, in layers from eight to ten inches deep, covered up with about a foot of hay or straw on the approach of severe frosts. The great points to be attained are a low temperature and a dry atmosphere; they will bear twenty degrees of frost without injury, provided they are not moved while frozen, but they will not stand a reduction of temperature much lower than this without injury.

"Born to no Master, of no Sect are we."

RAILROAD MEETING!

It having been proposed by a number of citizens of Seimate, to build a road from that town through Hingham, North Weymouth and Quincy Point, uniting with the Old Colony and Newport Railway, at, or near the Wollaston Depot, considerable stir has arisen among the citizens residing in those towns concerning the matter.

On Friday evening of last week, a meeting was held in the Town Hall, at Hingham, which was well attended. A large number of interested citizens came from all the adjoining towns. Quincy Point was well represented, a committee of thirty gentlemen having been chosen at a meeting held on the day previous to attend it. Addresses were made by some very earnest and interesting speakers, among the rest were Esquire Simons, of Scituate, Hon. E. S. Beals of North Weymouth, H. Farnam Smith, Esq., of Quincy Point, Mr. Quincy Bicknell, of Hingham, Hon. Mr. Gifford, Clerk of the State Senate, and Mr. Crane of Dorchester. Some suggested having the Railway pass through Dorchester to South Boston, then uniting with the Boston, Hartford and Erie, but the general sentiment was to have it unite with the Old Colony and Newell at Wollaston.

A committee of five gentlemen from each town was chosen to consider the subject and make such recommendations in regard to the route and other questions connected therewith, as in their opinion may be thought best, and to report at an adjourned meeting held last night. H. Farnam Smith, Lemuel Baxter, Daniel Baxter, Henry H. Faxon and Joseph W. Robertson were chosen from this town. "The right men in the right place."

The meeting adjourned with full house about eleven o'clock, with the determination that the road was a fixed fact.

The meeting was enlivened with good music by the Hingham Band, which played at intervals.

LECTURES.

Next Wednesday evening we are to have the privilege of listening to a lecture by Rev. Robert Collyer, of Chicago. This gentleman needs hardly any introduction to our readers. He was born, if we are rightly informed, in Scotland, or in the north of England. During his early manhood he followed the trade of a blacksmith; studying during the intervals of labor, and even keeping his book open by the side of his forge. He came to this country some years ago as a Methodist preacher; and within a comparatively recent period took charge of a large and affluent Unitarian society in Chicago. Both morally and physically, he is a splendid specimen of a man; and all his audiences pronounce him an earnest, eloquent and persuasive speaker. He deals little in long words or roundabout phrases; he uses plain, simple Saxon.

Our sheet is badly crowded with advertisements. We endeavor to accommodate our patrons, but have not succeeded very well this week. Several notices have been laid over and many interesting articles.

ACCIDENT. On Sunday evening last, Mrs. John Savil, an aged citizen of nearly four score years, residing near the National Granite Bank, accidentally fell and broke her hip. She was going down stairs, and thought she had reached the floor, (the passage way being dark) but was up some two or three steps, when she made the mistake which has caused quite a serious accident, for a lady of her years. Dr. Gilbert was called but from want of medical assistance, Drs. Stetson and Morison being sick, he thought best to wait until the following day before setting the limb. Mrs. Savil is quite comfortable and suffers very little from pain.

HIGHWAY ROBBERY. Mr. Joseph Welsh, who resides in North street in this place, was robbed yesterday morning, between twelve and one o'clock, while going to Boston to purchase a load of fish. He started about twelve, the moon was shining brightly, and was riding along leisurely, on Hancock street, near the willow trees south of the residence of Mr. John J. Glover, when two men sprung from the side of the road, one stopping his horse the other pointing a pistol at his head and demanding his money. He was so frightened he gave them what he had—amounting to about ten dollars. After they left him they came towards this village passing the Hancock House, he following them at a safe distance. He aroused two of the constables in this place and started in pursuit, but was unable to find them.

The inmates of the Dedham Jail and House of Correction were treated to a Thanksgiving dinner of roast turkeys, chickens and plum pudding.

FROM OUR CORRESPONDENT.

The Currency difficultly still under clouds. City Election.—The proposed Railroad from Hingham to Quincy, &c.

BOSTON, NOV. 25, 1869.

Superficial appearances here would indicate that general business in our city was active and with many remunerative. A closer examination will present a different picture. There is little confidence among the trading community—a timid condition of the business mind, traced to the great fluctuations in the national finances; the uncertainty in the value of our domestic products as compared with foreign commodities, by reason of the ups and downs in the standard of gold value—all leading to the constant apprehension of a general monetary panic. For these business woes the country will look to Congress at its approaching session for relief. Will it be afforded by the early resumption to specie payments, or the adoption of the scheme now talked of, by reason of free banking? The former would produce a financial tornado, and the latter, or free banking, by the greater expansion of paper currency, would make matters more unfavorable than at present. Since the close of the rebellion the government has had two kinds of currency—paper money as legal tender in some cases, and gold for the merchants' to pay for duties on foreign imports. This has not worked well for trade or commerce. The payment of custom dues in greenbacks would have prevented the gold ring operations, which have disgraced the nation.

The municipal election is near at hand and there are indications of a very lively campaign. Probably there will be three candidates in the field for Mayor; but the chances that Dr. Shurtleff will win are the best at present. The annexation of Dorchester to Boston will add four members to the Common Council, and perhaps one Alderman. When Charlestown, Brighton, Brookline and West Roxbury are annexed to this city, it will be a large municipality; and these places from present appearances will soon be a part of Boston.

The annual meeting of the State Legislature is regarded with much interest, as important matters, touching the rights, liberties and business interests of old Massachusetts will come before the "Great and General Court." It seems to be admitted now that a majority of members in both branches will be found favorable to license; but their action may be vetoed by the Governor. Another important matter will be the construction of more railroads in various parts of the State. A railroad meeting was held in Hingham on Friday evening last, and was well attended by prominent citizens in the neighboring towns of Hingham. The subject was a proposed railroad from Scituate to Quincy Point, or Wollaston Heights in North Quincy, and ultimately to intersect the Erie railroad in Dorchester. A good feeling prevailed. The construction through Quincy would be easy and not expensive. Passing near to and on the northeasterly side of Washington street from the Bridge to the northerly section of Quincy Village, and thence between Wollaston Heights and Baxter's Hill,—the extension could be continued through North Quincy and a portion of Milton to Dorchester,—benefiting all on the route, to take some stock and asking little or no land damages. By the consummation of this enterprise the town of Quincy would receive a lively impulse to future prosperity.

WINTER FEES. The possession of a set of furs is always an object of desire with all ages and degrees of the genus. Those whose means cannot command the most costly kinds are compelled to content themselves with cheaper materials or imitations, but furs of some sort almost every one will have. The omnipotent laws of fashion require it, and accordingly the earth is ransacked from pole to pole, to supply the demand; every sort of fur-bearing animal is laid under contribution, and the warm covering which Nature gave to protect him from the cold is converted into garments to deck the dames and damsels of our northern clime. As winter approaches it becomes a matter of interest for those not already sufficiently provided with furs to know where they can supply themselves to the best advantage. We would recommend all such to look at the stock in the C. 316 and 318 Washington Street.

DACTING SCHOOL. Professor Walker, it will be seen, by his card, which appears in another column of our paper today, has again returned among us, and is soon to open a school for the instruction of our youth in that graceful accomplishment. The meeting was enlivened by singing by the School. After short addresses by Messrs. Beals and Cleverly of North Weymouth, the meeting adjourned.

Mr. Thomas Davis, sexton of the
Rural Cemetery, at New Bedford, on
coming out of the public tomb recently,
had some trouble in shutting the door.
He went inside to try to find out what
was the matter, and succeeded in shutting
the door so securely that he was made a
close prisoner. He shouted for help with
all his might through the key-hole, but
nobody heard him, and finally by great
exertion he managed to release himself
in about an hour.

NEW CLOTHING STORE—Fall and
Winter Clothing. We will call the at-
tention of our readers to the advertise-
ment of L. D. Boise & Co., to be found

Rebecca W. Balkam, aged 71 years and
9 months.

In Braintree, 22d inst., Mr. Augustus T.
Cushing to Miss Ruth S. Tirrell, all of
Randall, the Poem.

IN the Unitarian Church in West Bridg-
water had but three pastors during the
first one hundred and sixty-seven years of
its existence, and ten during the remaining
thirty-seven years.

SHORN DAYS. Over six hours have
been dock'd off in the length of our days
since last June. This, household and
other business pursuits consider an incon-
venience.

SOUTHMADY'S CANDY is pure and
good, as everybody knows; but Mr.
Southmaday is willing to back up its repu-
tation with his check for \$500 to any
body able to discover any impurity what-
ever in his confectionery. He could safely
offer \$500.

Thousands have been changed by the use of
the Peruvian Syrup (a prototyde of iron) from
weak, sickly, suffering creatures, to strong,
healthy, and happy men and women and invalids
cannot reasonably hesitate to give it a trial. For
Dyspepsia and Diphtheria it is a specific.

Butter and cheese are almost indis-
pensable articles of food. Properly used,
they are nutritious and healthy; but an inordinate use
of either causes indigestion and dyspepsia. Parsons' Par-
ticular Pills, judiciously used, will remove
both of these troubles.

SATURDAY, DECEMBER 4, 1869.

"Born to no Master, of no Sect are We."

ACTING WITH ENERGY.

The meeting of the friends of the Scituate and Mount Wollaston Railroad was held at Hingham Town Hall one week ago last evening, according to adjournment, and was well attended by citizens from the several towns interested in the project.

The Committee previously chosen reported in favor of a route, nearly straight, from a point near the Town Hall, in Scituate, through Hingham, North Weymouth and Quincy Point, to connect with the Old Colony Railroad at Mount Wollaston. This route will pass through a tract of land finely situated for building and business purposes, and will shorten the present railroad distance of Hingham from Boston, about four miles.

Pertinent addresses were made by Messrs. Bicknell, Stephenson and Seymour of Hingham, Fogg and Torrey of South Scituate, and by Messrs. Beals and Newton of North Weymouth.

Messrs. F. R. Nash of South Scituate, David Cushing, Jr., of Hingham, and E. S. Beals of North Weymouth, were appointed to procure a temporary survey of the road, and we are informed that the surveyors have already commenced their work.

The gentlemen chosen at the former meeting were instructed to take measures to obtain a charter, and to secure subscriptions for stock. H. F. Smith, Daniel Baxter, Lemuel Baxter, Henry H. Faxon and Joseph W. Robertson, representing the Quincy interest. The meeting was then adjourned to the 10th inst.

No town is more directly interested in this movement than Quincy, as aside from the general benefit which will derive from the increase of population and taxable property naturally incident to increased railroad facilities, she has a special interest for the reason that it would bring the tract of land devised to her by the will of the late Dr. Woodward, in the immediate vicinity of a depot, and thus greatly enhance its value. We hope to see our citizens individually alive in this matter, and when the time shall come for town action we shall expect the people to show by their vote, in favor of material stand where their true interest lies.

The men engaged in this undertaking mean business, and the cause deserves success. Let every citizen of this good town do what he can to keep the ball rolling.

THE RE-UNION. There was a very good attendance at the High School Reunion on Thursday evening. The oration by Mr. H. A. Keith, was very good; surpassing in some particulars any we have listened to in any former years. The address was short but it showed the good judgment of the speaker, for who wished to be bored with a long speech on such an occasion. The poem of Mr. George Randall was excellent and was received with prolonged applause. We shall endeavor to publish the poem next week, and are in hopes soon to find room for the oration.

A COMPLIMENT. Professor McAfferty is said to be the most perfect Irishman in America. This is the testimony of those who have heard his inimitable rendering of "Billy" in the *Lost Heir* by Tom Hood. We are glad to see it on the programme for next Tuesday evening.

NOW'S THE TIME TO BUY. Let the ladies who visit Boston call at Messrs. Cushman & Brooks, at 37 and 39 Temple Place, if they would buy cheap the very best goods in the market. They have an immense stock and are selling low. It gives one pleasure to even examine their stock. Don't forget their numbers, 37 and 39 Temple Place, Boston.

UNIVERSITY CONVENTION MEETING. A large meeting of the members of the Universalist denomination was held in Boston on Wednesday evening. Addresses were made by Hon. Richard Frothingham, Hon. Israel Washburn, Jr. Rev. E. C. Bolles and Rev. Dr. Miner. It is proposed to create a fund of \$200,000, the income to be devoted to such objects as may tend to benefit the denominational interest. \$10,000 was given at this meeting towards the object.

The subject is too painful to dwell upon, and I will only add that I did not suppose that so mean an act of revenge, as caused the removal of Mr. Rideout, could have influenced any one that breathes the free air of Mt. Wollaston Heights.

FROM OUR CORRESPONDENT.

BOSTON, Dec. 2, 1869.
Winter.—Prostration of Business.—Government Interference in the Laws of Trade.—Public Amusements—Sanitary Condition of Boston.—Sui generis Lecture of Wendell Phillips.—Hard kicks but no lives lost.

Winter opens mildly, working a favorable influence on all classes of industry. But we know not what a day may bring forth, as those conversant with the laws of weather predict a severe season.

As to business aspects through another New England winter, they are anything but propitious. Trade is emphatically dull and with the continued interference of Government in business affairs, matters grow worse. A new lever is to be put upon National Banks. The Government through the assessors are to call upon the Banks to ascertain the practice as to making call loans without stamped notes. Uncle Sam is to put forth a new edict that stamps shall be used in all cases. At present, the custom is either to leave collaterals without notes or the lodging of a good check, to be withheld according to understanding. The rapid fall in the price of Gold surprises everybody—so far, the money market has worked well under its operations; for to-day, call loans by Banks are easy on State Street at six per cent, to prompt borrowers. The money community is therefore relieved, until another *Ukase* is sent from Washington with new interpretations as to the excise laws. Our whole system of internal revenue needs a thorough revision.

While business with all classes is at a low ebb our city continues to enjoy one of the greatest blessings, a healthy status. The weekly bills of mortality show consumption and typhoid fever to be the most prevalent and most fatal maladies. Pulmonary consumption, annually sweeping away about one-tenth of all that die in Massachusetts. The cure of which without success, is a *desideratum* to the medical faculty.

The places of public amusement are highly attractive this season—the drama in full blaze. The scenery at many of the theatres more gorgeous than ever before. The theatre mania is widely extensive.

The lecture season opens well both here and in the suburbs. Wendell Phillips held forth on Tuesday evening in the Music Hall. Subject—"what we ask of Congress." Many prominent characters, friends of the national administration were present. His comments on "the powers that be" at Washington were anything but favorable. For instance, he says, "with the exception of one great name, that of the Treasurer, George Boutwell—the earliest and most dangerous to scrutinize the elements which were producing it—with this exception the administration represents a section, and a weak section, an unthinking, an unwilling section of the Republican party. It is no wonder, therefore, that its work has been halting. Neither have I anything to say of the President. The born monarch that falls below his station, disgraces only himself; but the elected chief who falls below his station, disgraces his constituents; and if there is any defect in the civil ability of our great chief, the fault rests on the heedlessness and hero worship of millions, not him." He pays the following flattering compliment to Judge Chase, (probably the next President) "The Southern whites have got the business and the wealth, and have captured the Supreme Court. A worse than Taney yields its thunderbolt to day—a recreant Republican who does the devil's work in the disguise of an angel—a man who drags his ermine through the infamy of Tammany Hall and means to contest the next election with the candidate of the Republican party."

The late Removal from the Custom House.

To the Publisher of the Patriot:
I cannot forbear from expressing thro' your columns my deep regret that Mr. W. H. II. Rideout has been removed from an office which he filled creditably to himself and beneficially to the government, merely because he is charged with voting for that candidate for the Senatorship whom he thought was best suited for the position.

THE LATE REMOVAL FROM THE CUSTOM HOUSE. The late Removal from the Custom House.

"They personally appeared the within named Mary A. W. Woodward and acknowledged the foregoing instrument to be her free act and deed. Before me

THE "WOODWARD FUND."

We take pleasure in presenting to our readers and the town, a copy of an important instrument, recently executed for the advantage of the town, by Mrs. Woodward, the widow of the late Dr. Woodward, because it tends to disprove certain libelous reports, which were freely circulated at the time the bequest was before the town for acceptance, and demonstrates that this excellent woman has but one desire and purpose in this matter, that of voluntarily co-operating with her late husband in his noble design, for the benefit of the future young women of Quincy. It will also remove from the public mind that indefinite idea of doubt and uncertainty, which, by persistent effort, was made to appear to attach to the title of the real estate, devised, and by means of which our citizens were for a time placed in a position, false to their inclinations and their interests, and ungrateful to their generous benefactor.

DISCLAIMER AND RELEASE FROM MARY A. W. WOODWARD, OF ALL INTEREST IN THE REAL ESTATE DEVISED BY HER LATE HUSBAND, DR. EBENEZER WOODWARD, TO THE TOWN OF QUINCY.

"WHEREAS, my late husband, EBENEZER WOODWARD, of Quincy, in by his last Will—which Will was duly proved, approved and allowed in the Probate Court for Norfolk County—devised to the town of Quincy, certain Real Estate, which is fully described in said Will, to be held on certain terms and conditions, and for certain trusts and uses, which are in said Will fully set forth; and, whereas, a question has arisen, as to the title of the said estate and property so devised, so far as relates to the interest in the farm of the late Daniel Greenleaf, given and devised for my benefit, in and by the Will of my late husband, Thomas Greenleaf.

JURORS. Messrs. George A. Brackett and E. W. Underwood have been drawn to serve as Jurors at the December Term of the Superior Court for Norfolk County.

READING FROM THE POETS. We call attention to the card of Professor McAfferty in another column. Mr. McAfferty has been engaged for several years as Professor of Elocution in Racine College, one of the most energetic Drawing Room Dances, including the Rudiments in Dancing and Deportment.

DISCLAIMER AND RELEASE FROM MARY A. W. WOODWARD, OF ALL INTEREST IN THE REAL ESTATE DEVISED BY HER LATE HUSBAND, DR. EBENEZER WOODWARD, TO THE TOWN OF QUINCY.

"WHEREAS, my late husband, EBENEZER WOODWARD, of Quincy, in by his last Will—which Will was duly proved, approved and allowed in the Probate Court for Norfolk County—devised to the town of Quincy, certain Real Estate, which is fully described in said Will, to be held on certain terms and conditions, and for certain trusts and uses, which are in said Will fully set forth; and, whereas, a question has arisen, as to the title of the said estate and property so devised, so far as relates to the interest in the farm of the late Daniel Greenleaf, given and devised for my benefit, in and by the Will of my late husband, Thomas Greenleaf.

"Now, know all men by these presents,

that I, MARY A. W. WOODWARD, widow of the said late EBENEZER WOODWARD, in consideration of the premises, and to quiet and assure, to and for the said town of Quincy, the title to so much of the farm of the said late Daniel Greenleaf, as is given and devised them, by my late husband's Will, do hereby disclaim, all and any right, title and interest, whatsoever, in and to the estate and property so devised as aforesaid, and do hereby, so far as I am in lies, confirm that said gift and devise, to the said town of Quincy, and in consideration of one dollar to me paid, the receipt of which is hereby acknowledged, do hereby release to the said town of Quincy, the said estate and property, and all my right, to the end interest there in—if any.

"To have and to hold the same to the

said town of Quincy, its successors and assigns, upon the terms and conditions, and for the uses, trusts, and purposes, in said Will of my late husband contained, and set forth.

"... and see, uns, uns, mth of November of November, in the year eighteen hundred and sixty-nine.

GEORGE L. GILL,
Justice of the Peace."

ANOTHER BANK ROBBERY. The National Bank at Port Jervis, N. Y., was entered on Tuesday morning last, and about \$125,000 were stolen. The depositors are the heaviest losers, the Bank losing only about \$25,000. It is said to be one of the boldest and coolest robberies ever perpetrated. The doors of the vault and safe were blown off by powder, being partly pried open by steel wedges. The following tools used by the burglars were found in the bank:—About thirty steel wedges, circle saw, gimlets and auger bits, screw driver, chisel, heavy iron crowbar and claw, wire cutter, pincers, steel pointed drills, an assortment of files, two putty knives, roll of sheet brass, priming wires, fuse, twine, straps, bradawl, &c.

THE QUINCY PATRIOT,

OUR PHYSICIANS--COMPLIMENTARY.

To the Publisher of the *Patriot*:

We have a little girl whom we love dearly--whose life has been saved, as we think, by Dr. Underwood, of this town. We have paid him his bill, but do not think his compensation half so large as he deserves. If we were wealthy, he should find we are not ungrateful; but we are not wealthy, and so must try to express our obligations by this public testimonial; that those who may be in need of a physician, may not suffer such anxiety and trouble as we have by not knowing of his skill and goodness.

We had given up our little Lottie to die. Our physician gave us no hope,--and our neighbors, though always kind to us, were daily expecting her death and manifesting their sympathy. A good friend advised us to call in Dr. Underwood, telling us of his remarkable success in the treatment of children.

Although we had but little courage to expect any benefit so late an hour, yet we felt that we must try the change. Our little one was literally "skin and bone." She could not sleep without "soothing medicine" --(we hate the very name of it now)--she was constantly vomiting or purging; her strength was so little, that she could not turn her head upon the pillow, or move her limbs in bed; she could only moan and breathe--she could not cry. When he came to see her on the 5th of last month, she had been sick four months, and we were tired out and discouraged. His first visit brought us hope, for he was considerate and fatherly. We felt that he would do his best, and deal honestly with us. He has loved children and lost them. He promised nothing, yet gave us new hope. He explained the case to us, and told us, that if we would help him and give only the nourishment and medicine he should order, that together we might save the child. Now, we had always been careful, and had endeavored to do as directed by our previous physician. Of course, we promised, and since that time we have not been disposed to disobey orders. We soon left the "soothing medicine" and other nostrums, and began to give what seemed to us to be only cold water and a few little white powders and pills. It was not two days before a change began for the better; we do not know what he gave, nor do we care--we only know that the improvement has gone on ever since steadily; now our little darling sleeps as sweetly, eats with as keen an appetite, and smiles as prettily, as any baby in town. We are very happy together now. Our weary days and nights of watching and carrying the little sick one about are over, and our hearts beat cheerfully once more. Now that our little Lottie is getting well, we have of her other families where our good Doctor has carried health and happiness. And we are glad of it for his sake and for the sake of his friends. If we could only confer upon him such real happiness as he has conferred upon us, it would be one of the greatest pleasures of our lives.

THE QUINCY PATRIOT,

SATURDAY, DECEMBER 4, 1869.

THE BROKEN HOME.

"TRUTH STRANGER THAN FICTION."

In San Francisco, on the north side of Folsom street, overlooking Mission Bay, stands a palatial residence.

The interior of this house is even more beautiful than its exterior, every apartment being in its way a gem of magnificence and refinement.

The library especially realizes the most perfect ideal of an elegant and cultured home.

And yet, at the moment we look in upon him—one August afternoon, as he occupied his library—the proprietor of all this wealth appeared of all men the most miserable.

He was Mr. Morton Preble, for many years a lending banker of San Francisco.

It was in vain that the broad bay-window at the south end of the room had been opened, giving ingress to the sun-shine and the fragrance of rare flowers—in vain that the walls were lined with richly carved book-cases and paintings—in vain that soft couches and luxurious chairs had been gathered around him.

He was wretched.

He lay on a sofa, in the depths of the great bay-window, the wreck of a once powerful man. His figure was thin and gaunt; his face white as marble; his eyes having an expression of woful apprehension, of harrowing anxiety, of dreadful expectancy.

It was evident at a glance that no merely physical ailment had made him what he was.

By what withering secret, by what destroying affliction, had he been thus agonized? thus haunted? thus hunted? he so noble and good! he so wealthy and distinguished!

As he moved restlessly upon his luxuriously cushioned, the pretty clock on the mantel-piece struck five, every stroke seeming to fall like a hammer upon the heart of the nervous invalid. He aroused himself, struggling feebly to a sitting posture.

"Oh, will this fatal day never, never pass?" he murmured; "nor bring us relief?"

Noticing with a nervous start that he was alone, he touched a bell upon a table before him, and called:

"Helen! where are you?"

Before the echoes of his voice had died out a step was heard, and his wife entered his presence.

"I left you only for a moment, Morton," she said, advancing to the banker's side. "You were dozing, I think. I wished to send for the doctor!"

She was a beautiful woman, of some six and thirty years, graceful, with broad white brows, and loving eyes, in which the brightness and sweetness of a sunshiny nature were still perceptible, under a grief and anxiety no less poignant than that evinced by her husband.

"The doctor!" he echoed, half-reproachfully.

"Yes, dear," she said, in a calm and cheerful voice, as she drew a chair to the side of the sofa, and sat down, stroking the corrugated forehead of the invalid with a magnetic touch. "He will be here immediately. Your last nervous crisis alarmed me. You may become seriously ill!"

Mr. Preble bestowed an affectionate look upon his wife, but said despondently:

"The doctor! He cannot minister to a mind diseased! Oh, if these long hours would only pass! If only knew what the day had yet in store for us!"

"Look up, Morton!" enjoined Mrs. Preble, with a reverently trustful glance upward through the open window at the blue sky, and as if looking beyond the azure clouds therein. "Let us appeal from the injustice and wickedness of earth to the goodness and mercy of Heaven!"

The banker gave a low, sobbing sigh.

"I cannot look up, Helen," he answered, with a passionate tremor in his voice, "only down, down at the grave that is opening before me!"

Mrs. Preble continued to stroke his forehead softly, while she lifted her pale face to the sunlight streaming into the apartment.

"Look up, Morton—always look up!" she again enjoined upon the invalid. "During all these fourteen years of agony, I have not once doubted either the goodness or the justice of Heaven. Blessed are they that mourn; for they shall be comforted! I believe that we shall yet rejoice more keenly than we have mourned, and that we shall come to a glorious day of joy beyond all this long night of sorrow!"

The face of the invalid lighted up with an answering glow, and he murmured:

"Glorious faith! My wife, you are indeed a blessed comfort! Perhaps...

A knock resounded on a side-door at this juncture, and the next moment Dr. Hutton, the family physician, for whom Mrs. Preble had sent, entered the room.

He was an old man, portly in figure, with white hair and beard, but with a fresh and ruddy complexion, and an exuberant boyishness of manner that sat well upon him. He had a kind heart and a clear head. He approached the sofa, after greeting the husband and wife, and lifted the thin restless hand of the invalid, feeling his pulse.

"Quite a high fever," he said, after a brief pause. "Worrying again, eh, Mr. Preble? You are wearing yourself out. Medicines will do you no good so long as your mind is in its present condition. I must give you an opiate—"

"Not now, doctor," interposed the banker. "I cannot—must not—sleep to-day! I need to be broad awake now, for I cannot tell at any moment what the next may bring forth. I am looking for the culmination of all my years of anguish—for the crowning agony of the whole. Perhaps even now—Ah, what was that?"

He started up wildly, and then, as the sound that had disturbed him was not re-

pealed, he sank back again on his cushions, pallid and panting.

The doctor looked at Mrs. Preble with an anxious, questioning glance.

"It is the anniversary," she replied to his unspoken inquiry—"the anniversary of our loss."

"Ah, yes," said the doctor. "I remember."

"Yes, it's another of those terrible days," cried the banker, in a hollow whisper. "Sit down, doctor, and I will tell you the whole story. I can think of nothing else to-day, and am almost wild with apprehension and anxiety. Sit down."

The mother averted her face. Her heart faltered as that question echoed in her soul.

"You knew us four years ago, doctor," said Mr. Preble. "We lived then where we do now, in a cottage on the site of this great mansion. There were but the three of us—Helen and I, and our three-year-old Jessie. And it was fourteen years ago to-day that our little Jessie was stolen from us."

"I remember it," said the doctor softly. "Yet might she not have been lost, Mr. Preble? She went out to play in the garden, if I remember rightly, and was never seen by you again. She might have strayed away—"

"So we thought for a whole year, doctor," interrupted the banker. "We searched everywhere for her, and offered immense rewards for her recovery. I employed detectives, but all to no purpose. When our little Jessie ran down the steps into that flower-garden, and he pointed to the front of the house, "as if the earth had opened and swallowed her up, we never saw her again."

The banker shook his head. He had asked himself all these questions repeatedly.

"Have you no enemy? I do not mean people with whom you are not friendly—every stirring man has plenty of these—but a downright enemy! Is there no man whom you knew in the East who hated you? No one against whom you were called upon to testify—no one whom you possibly injured?"

"Think," said the Doctor. "Have you no enemy? I do not mean people with whom you are not friendly—every stirring man has plenty of these—but a downright enemy! Is there no man whom you knew in the East who hated you? No one against whom you were called upon to testify—no one whom you possibly injured?"

The banker fixed his burning eyes upon the physician's face, and whispered:

"I said we never saw her again. She was lost on the 9th of August, 1854. For a year we thought her dead. But on the anniversary of our loss we received a written message concerning her."

"Not the slightest," declared the banker.

"A message!" cried Dr. Hutton, starting.

"Not the slightest!" echoed Mrs. Preble. "My husband had a step-brother who might have been capable of this infamy—but he is dead!"

"The handwriting is not familiar?"

"No, it is merely a rude scrawl, as you see," said the banker. "It suggests nothing—except that it is evidently disguised!"

"August 9, 1855. Jessie, ha, ha! Jessie."

Dr. Hutton looked with a puzzled air, from the scrap of paper, which he turned over and over, to the countenance of the banker.

"I can make nothing of this," he declared. "It is merely a date, with the name of your lost daughter. It tells me nothing."

"But where is she?" asked the physician—and now his voice was broken by his deep sympathy with the agonized parents. "Where can she be?"

"Heaven only knows," answered the mother. "Perhaps in San Francisco—perhaps in some rude hut in the interior, with some obscure farmer, and under a name that is not hers! I think her abductor would have carried her to some lonely region of the interior, among the valleys and mountains. Yet I never see a young girl in the streets without turning to look at her. I never hear a girl's voice without listening eagerly, half fancying that it may prove the voice of my lost Jessie!"

"Nor did it us, at first," said Mr. Preble. "Then that name and that date, with the name of your lost daughter. It tells me nothing."

"Nor did it us, at first," said Mr. Preble. "Then that name and that date, with the name of your lost daughter. It tells me nothing."

"Heaven only knows," answered the mother. "Perhaps in San Francisco—perhaps in some rude hut in the interior, with some obscure farmer, and under a name that is not hers! I think her abductor would have carried her to some lonely region of the interior, among the valleys and mountains. Yet I never see a young girl in the streets without turning to look at her. "I can make nothing of this," he declared. "It is merely a date, with the name of your lost daughter. It tells me nothing."

"But where is she?" asked the physician—and now his voice was broken by his deep sympathy with the agonized parents. "Where can she be?"

"Heaven only knows," answered the mother. "Perhaps in San Francisco—perhaps in some rude hut in the interior, with some obscure farmer, and under a name that is not hers! I think her abductor would have carried her to some lonely region of the interior, among the valleys and mountains. Yet I never see a young girl in the streets without turning to look at her. I never hear a girl's voice without listening eagerly, half fancying that it may prove the voice of my lost Jessie!"

"I can make nothing of this," he declared. "It is merely a date, with the name of your lost daughter. It tells me nothing."

"But where is she?" asked the physician—and now his voice was broken by his deep sympathy with the agonized parents. "Where can she be?"

"Heaven only knows," answered the mother. "Perhaps in San Francisco—perhaps in some rude hut in the interior, with some obscure farmer, and under a name that is not hers! I think her abductor would have carried her to some lonely region of the interior, among the valleys and mountains. Yet I never see a young girl in the streets without turning to look at her. I never hear a girl's voice without listening eagerly, half fancying that it may prove the voice of my lost Jessie!"

"I can make nothing of this," he declared. "It is merely a date, with the name of your lost daughter. It tells me nothing."

"But where is she?" asked the physician—and now his voice was broken by his deep sympathy with the agonized parents. "Where can she be?"

"Heaven only knows," answered the mother. "Perhaps in San Francisco—perhaps in some rude hut in the interior, with some obscure farmer, and under a name that is not hers! I think her abductor would have carried her to some lonely region of the interior, among the valleys and mountains. Yet I never see a young girl in the streets without turning to look at her. I never hear a girl's voice without listening eagerly, half fancying that it may prove the voice of my lost Jessie!"

"I can make nothing of this," he declared. "It is merely a date, with the name of your lost daughter. It tells me nothing."

"But where is she?" asked the physician—and now his voice was broken by his deep sympathy with the agonized parents. "Where can she be?"

"Heaven only knows," answered the mother. "Perhaps in San Francisco—perhaps in some rude hut in the interior, with some obscure farmer, and under a name that is not hers! Advertisements correctly and conspicuously inserted at the customary prices, and will be charged until ordered out.

The privilege of Annual Advertisers is limited to their own immediate business.

Advertising Agents.

The following gentlemen are authorized Agents to receive Advertising for the *Patriot*:

BOSTON—S. M. PETTINGILL & CO., S. R. NILES, HORACE DODD, T. C. EVANS, A. L. BRYANT, & CO., ALLEN & SHATLER and COOLEY & DAUGHTER.

NEW YORK—S. M. PETTINGILL & CO., GEO. P. RUEWELL & CO., and PEASLEY & CO.

PHILADELPHIA—CO., WETHERILL & CO.

a sudden thought, she turned, and added :

"Yes, if you please, say to her that she must surely be at Mrs. Bell's this evening. We have just received our invitation," she added, indifferently, as if by way of necessary information.

"In that case, I am, as you know, at your service," said he, with stately courtesy.

"Thank you, I have promised Mr. Wharton."

And Mr. Frederick walked away with the drop of gall in his own heart.

Its bitterness was not diminished by the events of the evening, by seeing Kate and Lieutenant Wharton promenading the side piazza at Mrs. Bell's in the intervals of the dance, apparently in confidential discourse; by observing how happy they both looked on their return to the parlors, as though an understanding existed between them; and by the subsequent lingering parting at Kate's door. Nor was he consoled on learning next morning that the young officer had taken leave for the present of Rivendale, where his presence on official duty had caused other heart burnings and jealousies than that of Mr. Frederick Cauldwell.

Kate did not appear at tea, and the next morning, bright and early, he was out for a day's shooting. Upon his return, late, he learned that Kate had suddenly gone on a visit of two weeks to her grandmother's.

Those two weeks were miserable ones for Fred Cauldwell. Do what he would, his love for Kate, instead of diminishing, only appeared to increase. He thought of all her good and lovable qualities, and winning ways, and his heart ached under the consciousness of what he had lost.

One day, sitting in the library, the door opened, and somebody came softly in, and laid a light hand on his shoulder. It was Lizzie, and she blushed a little as she said :

"Cousin Fred, will you do something for me?"

"Certainly : what is it ?"

"I want you to mail this for me, and keep my secret."

He looked at the letter she handed him. It was the *fac simile* of the envelope he had seen in Kate's handwriting, addressed to Lieutenant Wharton.

"This ? This is Kate's handwriting."

"Yes ; the outside address is her handwriting. I got her to direct the envelope for me, because I knew my finger would not be well enough to admit of a fair, legible, decent chirography before her return. As to the inside," she added, laughing, "that does not so much matter, if he can only manage to read it."

Fred remembered that a short time previous Lizzie had sadly sprained her wrist in a fall from a buggy, and had also badly bruised her hand. Indeed, he had never forgotten it, though it now struck him anew in regard to this letter-writing.

"But why should you write to Lieutenant Wharton, Lizzie, if I may ask ?"

"I want you to mail this for me, and keep my secret."

He looked at the letter she handed him. It was the *fac simile* of the envelope he had seen in Kate's handwriting, addressed to Lieutenant Wharton.

"This ? This is Kate's handwriting."

"Yes ; the outside address is her handwriting. I got her to direct the envelope for me, because I knew my finger would not be well enough to admit of a fair, legible, decent chirography before her return. As to the inside," she added, laughing, "that does not so much matter, if he can only manage to read it."

A sudden light flashed upon Fred's mind. He turned round and eagerly seized Lizzie's hand.

"Lizzie, dear," he said, "did you when you could not write at all—as I now remember was the case—did you get Kate to write for you to Lieutenant Wharton ?"

"Yes," answered Lizzie ; whereupon

Frederick Cauldwell greatly to her astonishment, and somewhat to her indignation, very unceremoniously caught her in his arms and kissed her.

"Cousin Frederick, what do you mean ?" demanded Lizzie.

"Only that I am the greatest fool on earth !" replied he, with energy. "What shall I say to Kate for you, Lizzie ? I am going to order my horse, and shall see Kate (God bless her ! she thought my suspicions insulting, and so were they) before night. Oh ! what a fool I have been ! I wonder if she can forgive me ?"

Whether she did or not may be inferred by her returning home a few days thereafter, looking very happy and subdued, as did also Mr. Frederick. And the moral of this story I leave as a warning to all lovers, advising them to take it to heart if they would be happy.

When Autumn is married to Winter, the wedding-cake is always frosted,

Better soil your hands with honest labor, than your honor with unpaid bills,

THE HEAD AND HEART.

BY JOHN G. SAXE.

The head is stately, calm, and wise,

And bears a princely part;

And down below in secret lies

The warm, impulsive heart.

The Quincy Patriot.

SATURDAY, DECEMBER 11, 1869.

"Born to no Master, of no Sect are We."

We have received and will publish next week quite a long article—several columns—from Rev. F. A. Whitney, of Brighton, giving some facts relating to William Goffe, or "Did Quincy shelter a Regicide?"

The following week we shall publish the Oration delivered by Mr. Keith at the High School Re-union.

APPOINTMENT. We understand that Mr. Jefferson Morrill has been appointed Depot Master at the Centre Railroad Station in this town—Mr. Colman having been placed there only until the vacancy occasioned by the resignation of Mr. Burr could be filled. Mr. Morrill bids fair to prove exactly the right man in the right place.

THE FORTY ASSOCIATES. The annual gathering of this noted Association took place at the Hancock House, on Wednesday evening. It was quite largely attended, and each member appeared ready and willing to fill the positions assigned them, and help make the entertainment of the evening pleasant. After the usual business, the Association was invited to the dining-room, where a hot supper, in Col. Wiley's best style, was served. Room will not permit us to give the "bill of fare," but we will say it met with high eacnomiums, from every side—and there were many present who consider themselves judges on good living. Few persons know how to entertain a party better than Messrs. Wiley and Savil.

The sleighing in this vicinity is excellent, and our streets are more lively than usual.

We would call the attention of our readers to the advertisement of Mr. Benjamin Watson in another column. He intends to give a pleasant course of assemblies at Revere Hall.

SPORTING. Messrs. Benjamin Curtis, Charles H. Hardwick and Noah Curtis of this town, killed thirty-two geese and forty-seven ducks, in three days, last week, at Carrick Sound, North Carolina.

LECTURE. Hon. J. G. Dow, for over twenty-two years a resident of California, will lecture in the Town Hall, on Wednesday evening next. Subject—"California: its Agricultural, Mechanical and Mineral Resources," with some facts in regard to Wages of Male and Female Labor on that Coast from personal observation and statistics.

The usual S. S. Concert, should the weather be favorable, will occur at the Orthodox Church to-morrow evening.

FIRST CHURCH. Rev. Dr. Bellows of New York, will occupy the pulpit of First Church to-morrow morning and evening.

NATIONAL BANKS. The Comptroller of the currency will early in January present a special report to Congress on the national banks and their relation to the varied interests and industries of the country. He some time ago sent a circular letter to each of them, asking information on various points, and the report will be based on their replies to this document.

General Butler is preparing a bill providing for the payment of army and navy pensions by postal orders, payable at the Post Offices nearest to the residences of pensioners. This will dispense with pension agents and attorneys, and the pensioners will promptly receive the full amounts due them without any deduction.

For the Patriot.

There are a great many men who will sign petitions when they well know that the petitioner is not in any way worthy of the position petitioned for. Such men are the first to complain about the corruption of office holders.

CONSISTENCY, WHERE ART THOU?

For the Patriot.

OUR STREET LIGHTS AGAIN.

What incomparable slim management we have in this town by those who have the lighting of the street lamps. I should think the Selectmen would be ashamed to sponge between three and four thousand dollars for services and call it, "To the best of my ability, shall help me God!"—Last Monday night was the worst of the season, and dark at five o'clock, and there was not a street light burning, and hundreds of our citizens returning home, and wondering why they were not lighted.

We intend they shall be in future.—We pay the expense; and if it cannot be done in any other way, we will do it ourselves, and let them burn.

Taxes \$17.50 and such management.

Shame on the "Three Graces." B***

Two men stole a coat at Bridgeport, (Conn.) a few days ago, and then informed on themselves, in order to get sent to jail, where, as they said, they can get "three square meals a day."

THE PRESIDENT'S MESSAGE.

This interesting document was published in most of the daily papers on Tuesday, and we presume it has been read by many of our readers. The Message was received with considerable interest, it being the first full and deliberate exposition of the views of General Grant, in defining the landmarks of his administration, on our domestic and foreign affairs. It is clear and practical, has been favorably received by the press.

The President's opening on the abounding prosperity, the comprehensive resources and immeasurable capabilities of the United States, is a magnificent picture, and well calculated to inspire universal confidence in the glorious future of the "great republic." His specifications and suggestions cover a great number of subjects, which in detail we have not room. On the leading questions of the day, however, his opinions and propositions to Congress are of such importance as to ask our attention.

First, with regard to Southern reconstruction, while advocating the admission of Virginia and hoping that Mississippi and Texas will come out all right, he recommends that Georgia be required to say her lesson over again, inasmuch as she has not conformed to the terms laid down by Congress and the fourteenth amendment. He recommends a bill providing for the meeting of the original reconstruction State Legislature of 1868, including the negro members turned out by a majority of the whites of the two Houses, and that they all be held to the oaths enjoined in the terms of reconstruction, &c.

On the national finances, pleading for the funding of the debt at four and a half per cent interest, and a gradual return to specie payments and a steady extinction of the debt, the judicious and carefully considered opinions of the Message will, we doubt not, command the general approbation of the country. It is gratifying to see from the Message that of all questions to which General Grant has given the most thoughtful attention, and that in which he is most deeply interested, is the money question and its earliest practicable settlement, without disturbance, upon a broad and solid foundation.

In connection with the funding of the debt he suggests the postponement till next session of any general modifications of the tariff or internal tax laws, except a reduction of the tax on incomes to three per cent.

On Cuba the Message is non-committal, except in the matter of our international obligations, on which it is very clear.

On the Alabama claims the Message holds substantially to the argument of Senator Sumner's speech. The President is waiting for the opportunity, which he thinks is coming, for a satisfactory and comprehensive settlement.

The Message disapproves the project of Canadian reciprocity as a scheme for the benefit of the Canadians at the expense of our own people and public treasury, which is the correct view. The Quaker Indian policy, with Indian reservations for those unfortunate people, is warmly defended; the repeal of the Tenure of Office law is urged; the movements entered upon for the survey of the Isthmus of Darien, in view of an inter-oceanic canal, are referred to; the reports of the several executive departments are drawn upon to show their operations respectively and their condition; the monopoly of the French cable is opposed, and all ocean cable monopolies; an increase of salaries to certain public servants, including Justices of the Supreme Court, is recommended, and finally, the President promises an adherence to the laws and their enforcement.

We would advise our readers, who are troubled with coughs, colds and sore throats to use Brown's Bronchial Troches. They are not injurious and their efficacy has been proved by a test of many years. They are recommended by physicians and we can speak favorably from a trial of them ourselves. For sale by all druggists generally.

AFRICAN WINES. It is not generally known that Cape Colony produces the most delicious wines grown on the face of the earth.

A cargo received as a remittance by our neighbors, Dr. J. C. Ayer & Co., contains several varieties raised there, among which the Constance commands the highest price of any wine in the world. Almost the entire crop of it is consumed in the palaces of Europe, this rare exception being sent to them in exchange for their medicines, which have long been the staple remedies of South Africa.—*Boston Journal.*

THE MOST UNHAPPY PERSON in the world is the Dyspeptic. Everything looks dark and gloomy; he feels "out of sorts" with himself and everybody else. Life is a burden to him. This can all be changed by taking Peruvian Syrup, (a protoxide of Iron.) Cases of twenty-seven years standing have been cured by it.

F. A. Stanley of Randolph is building a new school house in South Braintree, three stories high, with French roof, for \$11,000.

The first passenger train over the Suncook Valley Railroad left Pittsfield, N. H., last Monday morning.

OUR EATING FIXTURES.

"The colony of teeth, though small, Are little folks of resolution; And when upon their prey they fall, Do a vast deal of execution."

Peter Pindar.

The philosophy of eating has been largely discussed. But the principal portions of the apparatus with which nature has furnished us chiefly for eating purposes have not received the consideration and care which are due to the prominence and importance of the functions they exercise in the animal economy. There is a large amount of useful and interesting information relating to the teeth—their uses and abuses, the proper methods of their preservation, and to their replacement, when absent, by dental substitutes—which has not yet been popularized and placed within the reach of the general reader.

Each individual has necessarily a personal, and oftentimes a *feeling* interest, in the tooth family. That this small "colony" of grinders do a "vast deal of execution" is in more than one sense true. If it is one of their principal offices to prepare the food for its reception into the human stomach, and thereby aid in the sustenance of life and the continuance of health, they sometimes assume more unfriendly offices, and contribute largely to the general sense of discomfort, ill-health and positive misery with which mankind are often afflicted. They may over-hang the fairest day with gloom, and render the night-time a season of tedious and unrelieved suffering. If "the Lord gives his beloved sleep," he does so very rarely, we imagine, when they are enduring the torture of a "killing toothache." If the teeth are "pearls of great price" in the eye of loveliness, and the glittering ornaments which help to render the "human face divine," they sometimes, and more frequently, become eye-sores to good taste, and are radical defects of the one single beauty which has been almost entirely left to the control of simple care and scientific skill. And it is not, we apprehend, straining the matter too far to conceive a connection temporary or permanent, between bad teeth and exceptional moralities, in a degree; for, to a close observer, it becomes almost an instinctive impression that one who has an oblique tooth may be, at least slightly, oblique in thought or feeling or action. It is certainly not too much to say that the structure and condition of the dental organs often afford very clear and positive indications of the character of their possessor.

It is quite probable that our grandfathers, or even our grandmothers, had but a slight acquaintance with dentists as a professional body. Egyptian and Roman antiquity show that there were certain persons who were skilled in arresting the decay in teeth by filling their cavities with gold; but to what extent the development of dental science had reached in those early periods does not clearly appear. Undoubtedly there were then, as there are now, benevolent individuals who "spared no pains" in removing a carbuncle or aching tooth, or who often exhibited their useful pity by "looking down in the mouth." In subsequent times, the elongated and sanguine-hued sign of the barber indicated the place where dental surgery was practised in its various degrees of turn-key torture; but at present the tonsorial artist chiefly confines his blood-letting to the external surface of his subject's face, and leaves the teeth to the manipulations of more skillful hands.

It is chiefly within the present century that "tooth-doctoring" has achieved its grandest triumphs and rises to the triple dignity of an Art, a Science, and a Profession. The increasing deterioration in the teeth of successive generations, from whatever cause produced, has called for greater learning and skill in their treatment; ingenious and devoted men have set themselves apart for this special study and calling; and it is not in the least boastful to say that dentists, as a body, are entitled to a measure of respect equal to that awarded to any other profession whose claims are based upon acquirements and capacities which render it useful to society.

Your correspondent ascribes his removal to motives of personal revenge. Nothing could be further from the truth. He fails to discern its true intent, namely, a rebuke for that demoralizing custom of playing "fast and loose," of using the influence of party position and name for personal advantage, and then turning the party over to the opposition, and then glorying in the perfidy. It was not for the exercise of his *private* right of judgment that he was condemned, but for his public breach of faith with the party to which he claimed to belong, and in which he had consented to hold a prominent position. The historical allusions of "Liberty" are peculiarly inappropriate, as the cases are by no means parallel.

Your correspondent appears to have considerable feeling in the matter. He should thought of this result, before advising as he did. Then he might have saved his protege, from such folly and its consequences, and others from discrediting themselves.

I should have taken no notice of the article if your correspondent had not made an untrue statement of the case and that the public might have the facts from

it may seem, is far too small for healthful and even economic purposes. Society may be divided into two classes—those who patronize the dentists, and those who do not. The last class is the most numerous, and the less happy. The introduction of Vulcanic Rubber as a base for artificial teeth, has placed the luxury of new grinders within the reach of nearly all who need them. If they were to supply their wants in this respect, they would live longer and look far better when they come to die. It seems to us that they should be reasonably ambitious to wear a good face on an occasion where they are more observed, than observing.

In Boston, no one has a more extensive practice than Dr. J. M. Thresher.—He commenced business in Court street, twenty-three years ago. He now occupies three floors at 132, same street, and close by his early starting point. He furnishes constant employment to from eight to twelve assistants, and gives his personal supervision to every department of the business. His own long experience and natural tact enable him to secure the right kind of assistance in both the operating and the mechanical branches, and he allows no work to go out of the office unless it is executed in the most satisfactory manner. He administers ether and nitrous oxide—the latter is manufactured fresh every morning—to those who desire the removal of teeth without pain; and he is himself the most expert and expeditious extractor of teeth we ever knew. Genial and patient in the highest degree, no one can fail to be pleased with his manner, or to appreciate his endeavors to give a new pleasure to the heart, while he endows the countenance with new comeliness and grace. We do not wonder at his success, nor can we doubt that his prosperity will long continue.

THAT "CUSTOM HOUSE REMOVAL."

To the Publisher of the Patriot:

Your correspondent "Liberty" of last week says, "Rideout was removed merely because he is charged with voting for that candidate for Senator whom he thought was best suited for the position." That is not true. The facts are these: Rideout, holding a place in the Custom House, under a Republican administration, and being also one of the Republican Town Committee, aided in the distribution of votes for the candidates of the opposite party, and was engaged with others in altering the regular ballots of his own party, by placing the name of the opposing candidate for Governor on the Republican Ticket, and erasing the name of Gov. Claffin, and putting the names of Democratic candidates for other offices upon the regular Republican tickets, and producing the defeat of the regular Republican candidate for Senator.

It was a gross outrage upon the Republican party to suffer defeat by such means. The course adopted and pursued by R. was of the nature of an act of fraud; was intended to deceive, and did deceive voters.

On the Alabama claims the Message holds substantially to the argument of Senator Sumner's speech. The President is waiting for the opportunity, which he thinks is coming, for a satisfactory and comprehensive settlement.

The Message disapproves the project of Canadian reciprocity as a scheme for the benefit of the Canadians at the expense of our own people and public treasury, which is the correct view.

FROM OUR CORRESPONDENT.

LATE "CUSTOM HOUSE REMOVAL."

FROM ANOTHER POINT OF VIEW.

To the Publisher of the Patriot:

Integrity, principle and reliability are

virtues, and are as useful and as valuable

politically as personally. A man of "ma-

ture judgment" connects himself with a

political organization. As it is for his

advantage, he wishes, in order to keep a

place he holds, to be recognized as in full

sympathy with said organization. His

friends put him forward, and he is placed

in the front rank. He consents to be in

the same position in the party, as an offi-

cer is in an army. He is trusted. Be-

hold! in the day of strife and of active

service, he proves treacherous. He is

seen and known to be aiding the foe. He

connives with others to betray his party

to the enemy. The enemy see it and re-

joice. His evil designs are successful,

and the friends who relied on him, his

party which trusted him suffers defeat

through his means. Not the man who

happens to be a candidate is defeated, but

the political principles represented by

that man are betrayed and defeated. Not

one town is defeated, but a whole District.

The loss is not personal. It affects a

whole community.

Now, how should honorable men judge

and treat such a man. Decide, all you

who want purity and integrity at the polls

and in your politics. Let treachery stand

condemned and punished, and let every

man who values political integrity and

manly honor, and faithful friendship say

"Amen" to the final decision of that

just "Judge" who investigated, decided

and promptly acted.

SECOND NORFOLK DISTRICT.

THE PLACE TO PURCHASE CLOTHING.

THE ONLY RELIABLE CURE FOR

Dyspepsia in the Known World.

WISHART'S GREAT AMERICAN DYSPEPSIA PILLS and

PINE TAR CORDIAL are a positive and infallible cure

for all forms of dyspepsia and aggravated forms and

of long standing.

They are the secret of WISHART'S

CURE.

They are noted for curing the most desperate and hopeless cases, when every known means fail to afford relief.

No one with dyspepsia or indigestion can resist their

proven power.

D. R. WISHART'S

Pine Tree Tar Cordial.

It is the plain principle of the Pine Tree, obtained by a

peculiar process of distillation.

The best properties are retained.

It invigorates the digestive organs and restores the appetite.

It strengthens the heart and lungs.

It cures the most aggravated forms of

dyspepsia.

It is a common

sense medicine, and will cure, not because

of pungency, but because it is a simple and

healthful natural agent.

The diseases are those which appear to

be the result of the abuse of

alcohol.

It is a common

sense medicine, and will cure, not because

of pungency, but because it is a simple and

Poetry.

POEM READ AT THE RE-UNION.

To the Publisher of the Patriot:

QUINCY, DEC. 6TH, 1869.

At your request, I send a copy of my lines written at the last moment, in great haste, for merely one evening's entertainment. I hesitate to have them published, but being requested by a number to do so, I send them, conscious of their many faults, which I endeavored to conceal in my reading, and which are more prominent than the few merits they may possess.

Very truly yours,

GEORGE RANDALL.

Poem read at the High School Re-Union, in the Town Hall, on the 2d inst.

In this fast age of telegraph and steam, What shall I take for an accordant theme? Shall I sail up in empty ocean blue, Or roaming over earth seek something new; Man's research now has taken such a range, That hard to find a topic new or strange.

Small your ears with tumult when I speak, Or when I call your faith with a joke? Upon each separate theme I'm able, From Jim Fisk, Jr., to the new French cable. Though as 'twere hard to please in this half-Instead of one theme I shall take them all; With your permission I will make my rhymes, A rather hasty comment on the times.

First for the Alumni! with delight, Welcome each one of you present to-night, Stop now the sands of time, forget your age, Turn back the years, like a picture page, But when you come and care, feel gay and light, Do you not know friends we're schoolmates to-night?

Nothing but pleasure should fill ev'ry breast, - We are all schoolmates now, and planned, To be all schoolmates still, when we're dead, We're equal here as in blustery days of yore, What thrilling memories crowd on the brain, As the dear old days come back again!

Books and girls, and boys, how great our joys, How sweet our sorrows, how wisdom how great, How all our dreams were melted by fate! What diff'rent scenes we're acting to-day, From those that we dreamed when schoolmates to-night.

Then since old Time with so ruthless a hand

Destroys the schoolmate, we will, bear a part,

With the same freedom and same loving heart,

And pray the spirit of childhood may rest

With true heart and soul in every one's breast.

I don't propose, though my subject allows, Explaining to you the whereso're or hows, Of all the questions up for debate,-

Or whether you're going to the State?

Or whether you're going to the country?

Or whether you're going to the woods?

All these indicate disease of the Liver and Bile organs with Jaundice or Jaundice.

Hoofland's German Bitters
is a combination of all the ingredients of the Bitters, with pure Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where the latter are not successful. It is a sound healthy cordial, by the use of which the patient recovers quickly. The Bitters are more medicinal extracts, while the others are more decoctions of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. To those who are fond of Bitters, it is the only Bitters that can be used in cases where medicinal stimulants are not advisable.

AUCTIONEER.
The Subscribers would respectfully inform his friends and the public, that he is prepared to sell to the highest bidder of all kinds, Real or Personal property.

HON. JAMES THOMPSON,
Justice of the Supreme Court of Pennsylvania,
writes:

Philadelphia, April 25, 1866.
I consider "Hoofland's German Bitters" a valuable
medicine in diseases of the digestive organs, and
especially in cases of dyspepsia. I can certify this from my experience of it.
Yours truly, JAMES THOMPSON.

HON. GEORGE W. WOODWARD,
Chief Justice of the Supreme Court of Pennsylvania,
writes:

Philadelphia, April 25, 1866.

I have found, by experience that "Hoofland's German Bitters" is a good tonic, especially
in cases of dyspepsia.

Yours truly, G. W. WOODWARD.

HON. W. F. ROGERS,
Mayor of the city of Buffalo, N. Y.
April 25, 1866.

I have used "Hoofland's German Bitters" a valuable
medicine in diseases of the digestive organs, and
especially in cases of dyspepsia.

Yours truly, W. F. ROGERS.

HON. JAMES M. WOOD,
Ex-Mayor of Williamsport, Pa.

I take great pleasure in recommending "Hoofland's
German Bitter" to any one who may be afflicted with

MEN'S CALF BOOTS,
which will be sold lower than
can be bought in
BOSTON OR VICINITY.

D. B. STETSON, Washington Street.

Quincy, April 3.

15,000 Bottles

PRIME CIDER

IN Quarts, pints and half pints at wholesale and
retail, in cases of one and two dozen, suitable
for transportation to any part of the country.

At present we have our cases and bottles if
returned in good order.

Orders left at the Store of N. B. FARNAL,
Hancock street, or at the house of G. BROOKS,

will receive prompt attention.

FARNAL & CO., Quincy, July 10.

CAUTION

Hoofland's German remedies are counterfeited.

The genuine have the signature of C. M. JACKSON

on the front of the outer wrapper of each bottle, and
the signature of C. M. JACKSON on the label inside.

Others are counterfeited.

Price of the Bitters, \$1.00 per bottle;

Or, a half dozen for \$5.00;

Price of the Tonic, \$1.50 per bottle;

Or, a dozen for \$10.00.

The tonic is put up in quart bottles.

Recollect that it is Dr. Hoofland's German Remedy

that is so universally popular and so highly recom-
mended; and do not allow the druggists to mislead

you.

It is a sure preventive of all

merchants. Build up your local interests and all is safe. By so doing you will not be compelled to sell out and go elsewhere to find a live town or city.

The Quincy Patriot.

SATURDAY, DECEMBER 18, 1869.

"Born to no Master, of no Sect are We."

RAILROAD MEETING.

The railroad meeting was held at Hingham Town House on Friday evening of last week, according to adjournment. A continued succession of meetings of this character ordinarily shows a falling off in attendance and enthusiasm, but in this case the result was otherwise, and was unexpectedly gratifying to the friends of the road.

In consequence of the unfavorable state of the weather the survey had been interrupted, and the surveyors were not prepared to make their report, which was expected to have furnished the ground work for the business of the meeting.

In reply to a call from the chairman, Mr. S. H. Gardner, some general statements were made, in regard to the amount of subscriptions for stock, but the uncertainty as to the exact route to be chosen, and the estimated expense of construction, which waits solution from the results of the survey, no very definite figures could be reached.

Hon. John Quincy Adams and Mr. Isaiah G. Whiton were added as members of the General Committee, representing Quincy, and these gentlemen will, we are confident, contribute much for the success of the enterprise.

Hon. Perez Simmons and Messrs. E. S. Beals and H. Farnam Smith were chosen a committee to present the case before the Railroad Commissioners and the Legislature.

The meeting was adjourned subject to the call of the chairman of the General Committee.

We hope that our citizens will not be negligent of their interest in this matter, but will both individually and collectively, lend their influence and material aid, when called for, to the furtherance of this projected improvement and thus help to make Quincy a live town.

CHRISTMAS SERVICES.

The Christmas Services at Christ Church will be as follows:

Christmas Eve at 7 1/2 o'clock.

Christmas Day, early service at 7 o'clock, a. m.

Second Service at 10 1/2 o'clock.

Children's Festival in Lombard's Hall at 5 o'clock.

Services on Sunday, at 10 1/2 o'clock, a. m., and 7 1/2 p. m.

On Monday following, (Feast St. John, the Evangelist,) and on Tuesday (Feast Holy Innocents,) Services will also be held at the same hours as on Sunday.

The public are invited.

CHRISTMAS. Kind patrons please favor us next week with your notices and articles early, as Saturday is a holiday, and we shall issue the Patriot on Friday.

THE HOLIDAYS. Christmas is upon us, and we trust that to each of our readers it will be a pleasant and a merry one. The children will all be expecting presents, and we hope they will get them. If any are at a loss what to purchase, or where to purchase, they have but to glance at our advertising columns, it includes almost everything desirable.

MESSRS. Magee and Penniman of this town, have purchased the right to sell Russell's Patent Reversible Gridiron, —an excellent article,—one that all persons who have an occasion to cook beef-steak will certainly want. See notice in another column.

The excellent sleighing we had last week, has become decidedly bad, owing to the warm winds and rains of late.

Mr. Chas. H. Newcomb, youngest son of Mrs. Bryant B. Newcomb of this town, returned from Vineland, N. J., last week, after an absence of two years. He says the prospects there indicate a hard winter for business, —money is very scarce. Mr. Thos. Dodds, a former citizen of this place, is pursuing the clothing business with good success, enjoying it much better than he did farming.

The Sabbath School Concert at Mr. Hall's Church owing to the storm last Sunday night, was postponed till to-morrow evening.

Boucicault's famous play of "Arab na Pogue," is to be the next grand attraction at the Boston Museum, where it will be presented with scenery and other stage accessories of extraordinary splendor. The first representation will be on Monday, the 20th inst., it will be continued during the entire week.

A PRETTY TOY. The market is full of toys, but the prettiest one that we have seen is that known as "The Young Sportsman's Pistol," which is an appropriate one for Christmas or New Year's present. The mechanism of this toy is both simple and ingenious, and as it requires no powder, it can be used with perfect safety. The only place in Boston where it can be procured is at the store of D. B. Brooks & Bro., No. 55 Washington street, who, we learn, are prepared to furnish dealers at a liberal discount. We have no doubt but the "pistol" will become a very popular toy, and that the heart of many a little one will be made glad by receiving it as a present.

There are thirty thousand women employed in the paper box manufacturers of this country.

FROM OUR CORRESPONDENT.
City Matters.—Election—Financial—Congress.—Favorable terms of travel on the Old Colony Railway.

BOSTON, DEC. 16, 1869.

The city has been quite lively since my last. Large numbers have availed themselves in these moonshine evenings—sleighbirding; the livery stable keepers reaping a liberal compensation. Traveling however is not good in Boston. The municipal election was quite animated, the citizen's ticket generally being successful. The whole number of votes cast for Mayor in the sixteen wards was 18,554, Dr. Shurtleff receiving 8,369 plurality. Ward 16, (Dorchester) will be ably represented in the City Councils. Henry L. Pierce, Esq., an esteemed citizen of Dorchester Lower Mills, will have the honor of being the first Alderman. He was a member of our Legislature four years, and will bring to the discharge of Aldermanic duties all the requisites that are required. Messrs. William Saywood, Thomas F. Temple, William Pope and George L. Burt, all well-known and worthy citizens of old Dorchester are of the Common Council. Among those elected on the Board of School Committee for three years, is John W. Porter, Esq., formerly a Quincy boy. The result of the city election on Monday was not a personal triumph or political victory. Designing to initiate a new regime for the reform of many abuses in extravagance and junketing in the atmosphere of the territory laying along its route.—Statistics will, I feel assured, raise the Old Colony in competition with its brother railroads to the championship of high fares.

It is of vital importance to the interests of the town, that its energies should be directed to the establishment of an independent line to Boston, and this projected road may be the last opportunity available. Other advantages will be derived from an independent line by the opening up of new and large tracts of land, now so desirable for occupation. A route running eastward of Quincy Avenue would present the most direct line of communication with the city, at the same time being to speedy settlement the first and most desirable section of the whole town, and one susceptible of the highest degree of improvement with the least expenditure, thereby adding in very few years a vast amount to the taxable property of the town. A route crossing the Old Colony, running conveniently near the Railway Village, thence to the Hartford and Erie Railroad, though more circuitous, would present some local advantages, at the same time giving opportunity for honorable competition. Any distinct and independent route that may be proposed will undoubtedly be vigorously opposed by the Old Colony Company, but that is one of the best evidences of its necessity.

Several monetary schemes are already before Congress. An Inflationist party, for expanding the paper currency forty-four million, in addition to the present issue, and those opposed to currency expansion. The return to specie payments must be followed by a contraction of greenbacks. One thing seems very favorably entertained by Congress,—the passage of a Bill, authorizing the funding of the debt at a much lower rate of interest. A large number of propositions are before the Ways and Means Committee, but none of them so fine a chance of adoption as that of Secy. Boutwell. The public debt should be paid gradually, and there is no reason in the world why the next generation should not pay a part of it. In the meantime regularly lessening our taxes.

We are pleased to see it announced that the Old Colony and Newport Railroad have adopted a tariff of passenger travel at two cents per mile. It is not stated what the price of a certificate will be. On its exhibition to the Conductors, the number of miles a passenger wishing to travel is checked or erased.

For the Patriot.
OUR STREETS.

OUR excellent Board of Selectmen have received much well-deserved praise for the admirable manner in which they usually perform the various arduous duties of their responsible position. Are they trying this winter, to put the good-will of their constituents to the proof? Because if any are at a loss what to purchase, or where to purchase, they have but to glance at our advertising columns, it includes almost everything desirable.

MESSRS. Magee and Penniman of this town, have purchased the right to sell Russell's Patent Reversible Gridiron, —an excellent article,—one that all persons who have an occasion to cook beef-steak will certainly want. See notice in another column.

The excellent sleighing we had last week, has become decidedly bad, owing to the warm winds and rains of late.

Mr. Chas. H. Newcomb, youngest son of Mrs. Bryant B. Newcomb of this town, returned from Vineland, N. J., last week, after an absence of two years. He says the prospects there indicate a hard winter for business, —money is very scarce. Mr. Thos. Dodds, a former citizen of this place, is pursuing the clothing business with good success, enjoying it much better than he did farming.

The Sabbath School Concert at Mr. Hall's Church owing to the storm last Sunday night, was postponed till to-morrow evening.

Boucicault's famous play of "Arab na Pogue," is to be the next grand attraction at the Boston Museum, where it will be presented with scenery and other stage accessories of extraordinary splendor. The first representation will be on Monday, the 20th inst., it will be continued during the entire week.

A PRETTY TOY. The market is full of toys, but the prettiest one that we have seen is that known as "The Young Sportsman's Pistol," which is an appropriate one for Christmas or New Year's present. The mechanism of this toy is both simple and ingenious, and as it requires no powder, it can be used with perfect safety. The only place in Boston where it can be procured is at the store of D. B. Brooks & Bro., No. 55 Washington street, who, we learn, are prepared to furnish dealers at a liberal discount. We have no doubt but the "pistol" will become a very popular toy, and that the heart of many a little one will be made glad by receiving it as a present.

There are thirty thousand women employed in the paper box manufacturers of this country.

For the Patriot.
OUR NEW RAILROAD.

A new railroad is in contemplation to intersect a portion of our town, and the question is soon to be determined whether it shall be run as an independent line, or become one of the dependencies of the Old Colony and Newport Railroad, and subject to its illiberal system of management; and it behoves our citizens to wake up to a proper realization of their own interests. It is not enough for us as a town to rest satisfied with the increased facilities of communication for the Point section, and settle complaisantly into the conclusion that the balance of the town is already sufficiently well accommodated by the Old Colony. In regard to the frequency of trains, we will raise no question, but the system of high rates of fares, which has always been adhered to, has been one of the most serious, if not the only barrier to the growth and prosperity of the territory laying along its route.—Statistics will, I feel assured, raise the Old Colony in competition with its brother railroads to the championship of high fares.

It is of vital importance to the interests of the town, that its energies should be directed to the establishment of an independent line to Boston, and this projected road may be the last opportunity available. Other advantages will be derived from an independent line by the opening up of new and large tracts of land, now so desirable for occupation.

A route running eastward of Quincy Avenue would present the most direct line of communication with the city, at the same time being to speedy settlement the first and most desirable section of the whole town, and one susceptible of the highest degree of improvement with the least expenditure, thereby adding in very few years a vast amount to the taxable property of the town. A route crossing the Old Colony, running conveniently near the Railway Village, thence to the Hartford and Erie Railroad, though more circuitous, would present some local advantages, at the same time giving opportunity for honorable competition. Any distinct and independent route that may be proposed will undoubtedly be vigorously opposed by the Old Colony Company, but that is one of the best evidences of its necessity.

Several monetary schemes are already before Congress. An Inflationist party, for expanding the paper currency forty-four million, in addition to the present issue, and those opposed to currency expansion. The return to specie payments must be followed by a contraction of greenbacks. One thing seems very favorably entertained by Congress,—the passage of a Bill, authorizing the funding of the debt at a much lower rate of interest. A large number of propositions are before the Ways and Means Committee, but none of them so fine a chance of adoption as that of Secy. Boutwell. The public debt should be paid gradually, and there is no reason in the world why the next generation should not pay a part of it. In the meantime regularly lessening our taxes.

We are pleased to see it announced that the Old Colony and Newport Railroad have adopted a tariff of passenger travel at two cents per mile. It is not stated what the price of a certificate will be. On its exhibition to the Conductors, the number of miles a passenger wishing to travel is checked or erased.

As an illustration of the evil effects of high fares on the prosperity of a community, I will mention only one instance, as a type of many, which has come to my notice within a few weeks. A gentleman in the north part of this town who has recently completed several residences, had, as he supposed, settled all the preliminaries relative to the sale of one of them, when the would-be purchaser casually inquired the price of season tickets. Upon ascertaining the facts of the case, the bargain collapsed, the sale was frustrated, and at least three season tickets lost to the Old Colony road. Verily this is a "penny wise and pound foolish" system of management, and its effects are seriously felt throughout the entire limits of the town. In connection herewith I venture to predict that the new enterprise started in our midst, by the new Land Company, will never (and I wish it the highest success) become fully prosperous until arrangements for a cheaper rate of communication with the metropolis can be consummated. And the same principle applies with equal force to the rest of the town.

These matters are for the serious consideration of our thoughtful citizens, but let us not only think, let us act. Call a town meeting, if need be, and give expression to feeling and our Committee will move forward in their work with greater strength and energy, supported by concerted action and public sentiment. CITIZENS.

OH! GAS!

DEAR PATRIOT:—I call upon our Selectmen to resign. As your correspondent B*** truthfully says, on the evening of the last snow-storm the gas-lamps were not lighted, and the honorable board have thereby forfeited their claims upon us. I therefore ask them to vacate their offices and give us a chance to elect three astronomers or meteorologists, who can tell when it is going to storm and when the moon is not going to shine. That is our only safety now, for if everybody follows the example which B*** is going to set by lighting the lamps himself, more than half the bills which our Auditors will have to examine at the end of the year will be for pants which have been fractured by climbing the lamp-posts.

But joking aside, his signature, instead of being B with three stars, should have been the three stars without the B, particularly as the lamps are lighted by the Gas Company, and not by the Selectmen, about whom he complains. Wherever gas is used in lighting the streets, there is always some wisecrake, with gray hairs and the experience of years, who periodically finds out, the next day, that there was no moon and no gas the night before. Our streets are lighted as well as streets are anywhere with the same number of lamps, but things will go wrong sometimes. If something goes wrong once a year, "grin and bear it." In case a letter is mislaid in our Post Office, one should not cry out for a change in their lives.

A PRETTY TOY. The market is full of toys, but the prettiest one that we have seen is that known as "The Young Sportsman's Pistol," which is an appropriate one for Christmas or New Year's present. The mechanism of this toy is both simple and ingenious, and as it requires no powder, it can be used with perfect safety. The only place in Boston where it can be procured is at the store of D. B. Brooks & Bro., No. 55 Washington street, who, we learn, are prepared to furnish dealers at a liberal discount. We have no doubt but the "pistol" will become a very popular toy, and that the heart of many a little one will be made glad by receiving it as a present.

There are thirty thousand women employed in the paper box manufacturers of this country.

Publisher of the Patriot:

TO YOUR CORRESPONDENTS,

Second Norfolk District and One Who Knows Them.

I would say, the statements made by you concerning my action in the defeat of

Republican candidates at the last election, are false in every particular. What

I did, I freely admit, and to the mind of

every liberal citizen was just and correct.

That I erased the name of Gov. Claffin

on some five or six tickets, is correct, but

the men who voted the same, are men

that would not have voted a straight Re-

publican ticket under any consideration,

as they desired to vote the working-man's

ticket; and by erasing, as I did, and in-

serting the name of Chamberlain, several

were cast for a portion of the Republican

ticket, that would otherwise have been

lost. That Mr. Marsh was defeated by

my friends of the Republican party, I do

not doubt, on account of his unpopularity,

his imbecility, and his unworthiness.—

Statistics will, I feel assured, raise the

Old Colony in competition with its bro-

ther railroads to the championship of high

fares.

SALE

—AND—

ENTERTAINMENT.

THE Ladies of the Hancock Street Church

will hold a Sale and Entertainment at the

Durable, Neat and Reliable.

ELGIN and Waltham Watches with extra

Poetry.

For the Patriot.
Spiritual Birth of Mrs. Wealthy C. Dean.

Listen a voice from the spirit land;
It heard on this sin bound earth;
It heard the ear of a joyous band,
And silenced is their mirth.

It calls for a Mother dear,
From the joys of home to part;

To sever the which bind her here,
The hopes which fill her heart.

She hears and obeys the Angel of Peace,
And calmly yields her breath;

Her mortal suffering now must cease—
The form lies cold in death.

Weep not for thy Mother dear,
Though called away from earth;

She dwelt in the Angel sphere,
Where sickness never has birth.

But turn your thoughts to that bright land,
Where Love and Harmony ever reign;

Immortal Spirits with thy Angel band,

Come hold sweet communion with us again.

Tell us of thy spiritual birth,
Who came first to clasp thy hand,

When thy spirit left the earth,

And bid thee welcome to the summer land.

STAR OF THE TWILIGHT.

Farmers' Department.

PREPARING FOOD FOR STOCK.

In feeding farm stock through the winter a great deal may be saved by properly preparing the food before feeding it. It is well known to every farmer that to feed hay, straw, or cornfodder without cutting, incurs a great waste.

The hay crop is the most valuable of any grown in the United States, not even excepting cotton, and to waste it is not only an individual but a national loss. A thoughtless farmer may say—"It is not lost if trampled into the manure heap." This is only partially true. Why does he not trample his whole hay crop into the manure heap? He is too wide-awake for that. The first and most profitable use of hay is to feed stock; to either make growth or to put on flesh. The manure, however valuable it may be, and we would not underrate it, is a secondary matter, compared with putting growth or flesh on the animal, and will be all the better for having passed through the animal system.

A first class feed cutter should be found in every farmer's barn. The cost is but small compared with its usefulness. The saving of food by its use will soon pay for it; the time and labor of using it is well spent and the result will be seen both in the saving of food, and in the improved condition of the stock.

Hay, straw and cornfodder—all should be cut before being fed. Feed in troughs—never on the ground.—Amer. Stock Journal.

FRESH EGGS ALL WINTER.

Hens will lay about as well in winter as in summer, "circumstances" permitting. To produce eggs well, fowls must be comfortable, and must have animal food. When the ground is open, and insects abound, they get their own material. They must have gravel to keep their gizzard in good working order, and lime to make the shells. Sometimes a hen drops a shell-less egg, but she is ashamed of the skinny, unprotected thing and seldom does it twice. Sometimes she will drop an egg where its life is sure to be frozen out, but her instinct teaches her better, and she stops doing so, if possible. Here is the whole secret of having plenty of eggs all winter—we have tried it long, and so have others, with good success always:

Give the fowls some thoroughly sheltered place of retreat, and keep it clean. Take out all the droppings at least once a week, they are excellent guano, worth half the cost of the food.

Let them have unfrozen water always accessible. Semi-fluid eggs cannot be made out of dry grain.

Hens are not gluttons. Let them have grain in abundance, and they will eat only what they need.

Provide a wide box of gravel, earth, sand, ashes, and oil plaster, or finely broken oyster shells, for them to roll in, and to pick out such materials as they require.

Anecdotes.

"My dear, what shall we name Bob?"

"Why, husband, I have settled on the name of Peter."

"Oh, don't," he replied, "I never liked Peter, for he denied his master."

"Well, then," replied the wife, "what name do you like?"

"I should like the name of Joseph."

"Oh, not that," replied she, "I can't bear Joseph, for he denied his mistress."

"Why don't you get married?" said a young lady the other day to a bachelor friend.

"I have been trying for the last ten years to find some one who would be silly enough to have me," was the reply.

"I guess you haven't been up our way," was the insinuating rejoinder.

"Ma, somebody is going to die," said a knowing little fellow who was looking out of the window into the street.

"Why?"

"Cause the doctor's just gone by," was the reply.

GEORGE P. ROWELL & CO., and PEASE & CO.
PHILADELPHIA—COE, WETHERILL & CO.

so by a timely word from one of us. We
should make this a personal matter. We
should not allow our enthusiasm to be
spasmodic, and to cease with our annual
reunion, but we should work throughout
the year. We have ceased to be
children, but we should not cease to re-
member them and their wants.

There was in the beginning, and has
always since been, a great opposition to
the High School. People said, and with a
show of reason, too, that they had
always lived along without knowing anything
about the "fancy branches," and that the
children nowadays could do the same. But the world is not the same as
it was fifty years ago. "Keep up
with the times" should be our motto. Let
it be our duty, and let it be one which we
perform, to show all the opponents of the
High School that it has produced some
fruits, and that they are such as are
a credit to the town. Let us do that, because
we are the ones to do it. We know
that it has been a great advantage to us,
and let us do our best to have others reap
some of its benefits. Let us not think,
because we are young men and women,
that we can affect nothing. There are
none of us who do not have influence
with some one, and we must make a point
of using it. I see here now, and I saw
at our last reunion, a great many persons
who are not members of our Association.
I rejoice to see them because it shows to
me an increasing interest in the High
School on the part of the people of the
town, and it seems to indicate, if anything,
that the old hostility is dying out. If that
be so, our work will be easier, for we can
here and now bespeak their assistance.

The bank of our boyish ideas was a
place where there was a very large
amount of money, and where its bills were
redeemable in specie, but times are tight
with the actual bank fully as often as with
anybody, and it does not redeem its bills
in specie, or in anything else. In our
simplicity then we knew nothing of human
infirmities. The only example of total
depravity we thought must be the
man who wrote the grammar over which we
regards our brains. We possessed in
an eminent degree two traits which are
much to be admired in children, respect
for old age and regard for our instructors,
but it is to be doubted whether the latter
would have appreciated them so much,
had they known that in common
conversation we always alluded to them as old
So-and-so.

But I have many a time wondered
how they could have done it
they did, having continually to encourage
and bear with the dullest, and to correct
the most talented without fear or favor.
Theirs would indeed have been a thankless
task, had it not been for the conviction
which must be ever present to every
true teacher, that everything was done
for the good of their pupils, and that in
after years the pupils themselves would
acknowledge it.

But the days of square root and cube
root and minus x, have passed away.
We have gone through our alphabet, begin-
ning with the ABC of the primer in the
primary school, and closing with the xyz
of the algebra in the High School. We
have nobody now to keep us from whispering,
nobody to intercept the sly little
billet-doux which used to be passed from
one side of the room to the other by the
mysterious hands of the mischievous spirits
who always haunted the place. Our ex-
aminations no longer come twice a year,
but every day, and every hour, in our inter-
course with our associates. The actual
cares of life, to be able to sustain which
was the object of our education, have set-
tled down upon many of us. We thought
we were compelled to study and work too
hard in school, but how many of us have
any easier times now? The little annoy-
ances and sorrows which then distressed
us have given way to greater ones. We
have taken on ourselves new anxieties,
have been placed in new circumstances,
and are fast falling into the positions
which our inclinations and capacities pro-
vide. The bent of our energies and
studies in youth is manifest in the direction
of our lives, and it is only after we begin
our active career that we can truly es-
timate the value of the education which we
spent the years of our youth in attaining.

And here, on this occasion, I cannot
refrain from saying a word for the public
schools, the foundation of our republic,
without which it would never have been,
without which it cannot last. It seems to
me that one great tendency of the age is
to hold these in too little estimation, to
establish private schools and to withdraw
children from what are somewhat contemptuously
termed the "promiscuous schools."

Employment produces cheerfulness;
a celebrated divine once said that
he "knew a man to come home in high
spirits from a funeral because he had the
management of it."

Lay it down as a rule never to
smile, nor in any way show approval of
any trait in a child which you would not
wish to grow with his growth, and strength-
en with his strength.

THEOLOGICAL. When Jonah's fel-
low-passengers pitched him overboard,
they evidently regarded him as neither
prophet nor loss.

A young man, "illiterate but po-
lite," was being invited to attend a wed-
ding, sent a note in response, saying, "I
regret that circumstances repugnant to
the acquirements will prevent my acceptance
of the invite."

A Cockney at the Falls of Niag-
ara, when asked how he liked the Fall,
replied: "They're 'ansome—quite so;
but they don't quite hanse my hex-
pects; besides I got vettet, and lost my
hat. I prefer to, look 'en in the hem-
gravin' in 'ot weather, and in the 'ouse."

This is no less individually than pub-
licly injurious. What private schools or
academies can compare with those in that
great network of instruction which covers
our country in its length and breadth,
centering in our large cities, and extending
its ramifications over every little
town and village where our government
holds sway? What school found by
private means, however munificent, and
directed by the judgment of a few private

Superior Cabinet

FURNITURE

Comprising many new and beautiful designs.

Superb & Richly-Carved

Sideboards,

In Walnut, Oak and Chestnut, with Dining Tables
and Chairs to correspond.

Rich and Plain Wardrobes,

And LIBRARY CASES, that cannot fail to please
all who are in want.

SATURDAY, DECEMBER 25, 1869.

"Born to no Master, of no Sect are We."
WISH YOU A MERRY CHRISTMAS.

The winter's solstice is cheered by the brightness and gladness of the Holidays. "A Merry Christmas," and "A Happy New Year" are the salutations that leap from every tongue, authenticated by the gifts of friendship and love. The "midnight chimes of the year" is thus enlivened with the joy and the carols of peace. We heartily unite in taking up our part of the glad refrain which breathes peace and good will to all.

We are glad to wish a Merry Christmas to all our friends once more. How quickly the best and happiest time of the year has come round upon us again!

A Merry Christmas to the Old Folks! May they all have loving children and grandchildren to care for them tenderly, and so repay all their tender care; may the return of this day bring to them a deeper joy than they have ever known before; and may all their remaining days be full of peace and quiet delight!

A Merry Christmas to the Middle-aged, who are still hard at work, body and soul, in the great work, and are still burdened with the heavy cares of life! May a sweet spirit of rest for a little while possess them, and as they recall the dear and loving Lord who lived and suffered for them on the Earth so long ago, and who now unseen, comes to them anew, and loves and blesses them more than they can tell or understand, may they be moved with fresh and holy impulses, and served to heartier labor in His service!

A Merry Christmas to the children! Blessings be on their bright faces and their happy hearts! Plenty of sugar-plums, and plenty of presents, we have no doubt, will fall into their eager hands. If they will only try to deserve all that they will receive, we will dismiss all fears for them, for a year to come!

We are glad especially to greet our enlarged circle of readers with whom we have the past year held converse, week by week through the columns of the PATRIOT. Some of our kind patrons have, the year past, gone from our sight. The "beloved physician," the thoughtful neighbor and the faithful friend, as well as here and there the pet of our household we miss in our Christmas circles. But as Paul Gerhard has sung:

"Cometh sunshine after rain,
With the morning, joy again;"

So with the return of these happy holidays, bright in the hopes they awaken, as well as tender in the memories they recall, we bespeak for all our readers far and near a glad and grateful season within their domestic circles. May this year of God's goodness close with thankfulness and to all of them a New Year open with hope.

CHRISTMAS FESTIVAL. There will be a Christmas Service on Friday evening, at the Universalist Church. The exercises will consist of a Liturgical service for Christmas by the Sunday School. Singing by the choir, some speaking by the members of the school, a brief address by the pastor, and distribution of presents to all the members of the school from the Christmas Tree, by Santa Claus. Services at 7 o'clock. All interested are cordially invited to be present and help enjoy the festivities of the evening.

The First Church of Christ will hold its regular Christmas Festival on Christmas Eve. The Service in the Church will begin at 7 o'clock, precisely, and is open to all:—the entertainment at the Hall, which will follow immediately after, is intended for members of the congregation only.

JURORS. Messrs. Frederick Hardwick and William H. Glover, have been drawn to serve as Jurors, at the Civil Session, of the December Term, of the Superior Court, for Norfolk County.

BEEFSTEAK WELL COOKED. Messrs. Magee & Penniman are meeting with good success with their patent reversible gridiron. It is an excellent thing to cook steaks with those who enjoy this article well prepared, cannot conveniently do without this useful invention.

It is reported that a gentleman in this town has a Brahma Leghorn hen which has laid fifty-three eggs in as many consecutive days. He thinks his pullet is hard to beat.

CARELESSNESS. We learn that some workmen employed by the Gas Company left several quite deep excavations, in the street near the Universalist Church, on Saturday evening last, without any signal or warning to travellers, causing several slight accidents. Let those having the management of the work be more careful in future.

Six hundred men are employed in the manufacture of glass eyes.

THE SWITHIN CASE. The trial of Benjamin P. Eldridge, Isaac Porter, Christopher Bailey and William R. Clapp for an assault on Thomas Swithin, of this town, on the 11th of November, took place on Monday morning before Justice Morton; John Quincy Adams for the complainant, and the defendants making no defense.

The defendants being asked to plead to the complaint, stated that they should plead not guilty and waive an examination.

Mr. Adams suggested that as it was a case in which the Court might take jurisdiction it would be necessary to put in some testimony; but as the defendants stated that they should not abide by the decision of the Court, it was determined to call but one witness relative to the assault, that of the party assaulted.

Thomas Swithin testified that on the 11th of November last, on going to his house he found there State Constables Eldridge, Porter, Bailey, and Clapp, (whom he pointed out in Court, but did not know all their names at the time;) upon entering the house he found his girl crying, and learning that the defendants had come there to search for liquor, he told them that if they were going to search his house they must show legal authority: they had their coats buttoned up, and there was no appearance of their badges; he ordered them to leave the house, but they refused to go, and on his attempting to put them out Bailey seized hold of him, split his lip, caught him by the throat and choked him, and then he and Eldridge threw him down and handcuffed him; the others with them took hold of him and dragged him out of the house.

The defendants were asked if they wished to question the witness. They each declared that they had no such wish.

Justice Morton said he had no discretion in the case if there were no attempt at justification, and he should proceed to pass judgment.

The defendants repeated that they had nothing to say.

Mr. Adams said he merely wished such a fine as is reasonable and proper.

The Court imposed a fine of \$5 each and a division of the costs.

The defendants severally appealed and were held in \$50 each, on their personal recognizance, for trial at the next term of the Superior Court in Dedham, on the first Monday in April next.

We learn that the public school

are brought daily to the Coddington Schools. It is said "the Committee are unable to procure a teacher,"—we think it is not so,—teachers are plenty.

The heavy rain on Wednesday carried nearly all the snow and ice from our streets, and the travelling is very good.

The steamship Monarch, with the remains of George Peabody, sailed for America, on Tuesday last.

CHRISTMAS. Messrs. Macy & Butler, 90 and 92 Tremont Street, are selling a large bankrupt stock of Holiday Goods at about half price. Those of our readers visiting the city will do well to bear this in mind, and give them a call.

The Princeton (Ill.) Republicans tell the story of a young couple who passed that town one day recently in an ox team on their wedding tour, to settle on new land in Iowa. The young man said that he was 16 years of age, and his wife 14, and that his father-in-law had fitted him out with a team and \$500 in cash, and that he intended making his fortune by buying a new farm and improving it. They hailed from Dr. Kalb county, Ill.

At the recent Portland S.S. Convention the following points were agreed on:

The need of an uninterrupted school year; uniform lessons for the schools; the Bible the only text book; teachers' meetings weekly; less sensational S. S. literature; more colloquial teaching, enlistment of church members, and formation of county organizations. Professor Sewall lectured on the Holy Land, and commenced to schools the elegant map of Palestine by B. Westermann, New York.

While the Chief Justice of the United States Supreme Court gets \$6500 a year, for his services, five Police Justices in New York city have each an annual salary of \$10,000.

There was a heavy snow storm in Chicago on Tuesday last. It formed in almost impassable banks, and seriously interrupted the railroad trains.

A LIBRARY IN A VOLUME. Scribner & Co. have just issued Proverbs, translated by President Aiken, of Union College.

Ecclesiastes, by Prof. Wells & Lewis and Solomon's Songs, edited by Dr. Green of Princeton, the whole forming a superb library of Oriental and Biblical knowledge, which will be sought for with avidity by every student of the Scriptures. This 9th of Lang's Commentaries, and in its fulness, richness and accuracy, leaves nothing to be desired. For sale by all booksellers.

A Texas negro went into a blacksmith's shop with his coat-tail pockets filled with powder. He went out through the roof.

Maine boasts a "Tom Thumb" of its own. He was born in Richmond, is eight years of age, stands twenty-one and one half inches high in his shoes, and weighs but twenty-four pounds.

Some of the young men in Detroit purpose organizing a sewing society to cut wood for poor widows this winter. To be eligible to membership a young man must be unmarried.

A man in Brooklyn has made fifty thousand dollars by speculating in dogs. He must have plenty of currency.

Massachusetts holds \$730,000 worth of Maine, New Hampshire, Connecticut and Rhode Island bonds, and \$2,500,000 of United States bonds.

Four thousand acres of land were sold at a bankrupt sale in Texas the other day at 10 to 15 cents an acre.

For the Patriot.
GOFFE.

MRS. EDITOR: I am so sorry that Mr. Whitney admits there is any doubt as to Goffe having lived and died in Quincy, when we've been and named the finest street in town for him; of course he did—and the two guide-posts are his grave stones. One may go over all the sacred Mount and not find any such to Moses, but then he slew only a colored citizen, while Goffe's victim was a white man and a brother.

The world has gradually made up its mind to give up Ossian and Homer as imaginary poets, and Thor and Tell as representative geniuses only; but what is the use of paying a tax of \$17.50 on a \$1000, for the sake of living in a town of great historical names, if one by one, they are to be torn from us? It has been even suggested that Squantum never lived, but was typical only of the many maidens who are continually throwing themselves from their heights for unworthy lovers—and also that the devil never preached here, notwithstanding the pulpit and its imprint; of course he did, just as much as he does now, and that's the reason the Democratic candidate received twice as many votes for Governor as the Republican did; and why the Adams Temple has twice as many worshippers as Christ Church. I suppose there are those who would even doubt the existence of Major Finny, were there not those living who have seen him as he marched from the Farms to Paines Hill, with that martial tread which only the born militia can acquire. Oh! there are too many Thomases about nowadays, who doubt everything into which they cannot have a finger.

Now I go in for the Devil, Squantum, Goffe, Finny, and every thing else that can give interest and attractiveness to this town, which seems to live only in the past, has no present, and for its future, depends upon the Adams School, the Woodbury Institute, Wollaston Heights, and the Hingham Railway; can it be that they are to be illusions also?

At St. Albans, Tuesday, winter dairies brought from 28 to 30 cents, and fall made 35 cents.

THE HOLMES MURDER. The last number of the Boston Medical and Surgical Journal contains a long article from the pen of Dr. Edward Jarvis, of Dorchester, on the trial of Samuel M. Andrews, of Kingston, for the murder of Cornelius Holmes. After a careful review of all the circumstances of the case, with which Dr. Jarvis is perfectly familiar—having heard all the testimony at the trial, having had repeated personal interviews with Dr. Andrews, and conversations with his neighbors, friendly and unfriendly, and being familiar with the scene of the murder—the Doctor comes unhesitatingly to the conclusion that Andrews committed the murder in a momentary fit of insanity, to which he was constitutionally inclined, being born of insane parentage, and against which he had all his life been guarding. On no other theory can he account for this most extraordinary murder; but on this he can account for every peculiarity of the case.

OUR SCHOOLDAY VISITOR comes regularly, richly freighted with good things, to our table. It will soon commence its Fourteenth Year and Volume, so that it is safe and solid. Terms, \$1.25 a year.

The publishers give to every subscriber, for twenty-five cents, a magnificent steel-plate engraving, specially drawn and engraved at immense cost, and worth \$2.50 per copy. Agents wanted at every post office in the United States. Sample numbers of the Visitor, and full instructions to agents, sent, post-paid, for ten cents. Address, Daughaday & Becker, publishers, 424 Walnut street, Philadelphia, (Pa.)

RELIGIOUS INTELLIGENCE. The American Branch of the English Alliance publishes a programme for the Week of Prayer of which these are the main points:

Sabbath, January 2. "The Person and the Holy Spirit"—Gal. v. 22, 23. Jan. 3. "Personal Holiness"—Luke i. 4. Rom. xii. 1.

Jan. 4. "Liberty and Peace among nations."

Jan. 5. "Families, Schools, and Universities."

Thursday 6. "Christian Union."

Friday 7. "Ministers, Missionaries and Revivals."

Saturday 8. "Literature, Commerce, Science and Missions."

Sunday 9. 1 Cor. 13.

GLEASON'S LITERARY COMPANION. This valuable Literary Weekly will commence a new volume January 1st, 1870, with new type, and an entire new dress throughout. The "LITERARY COMPANION" is an elegant, and refined miscellany of Family Journal. Its literary department is filled with Original Tales; Choice Miscellany; the rarest Gems of Poetry; Sketches of Travel; Home Amusements; Wit and Humor, etc. An unrivaled corps of the best writers have been engaged for the coming year, and every department will be placed on the most finished and perfect system that experience can devise or money produce.—Each number will be beautifully illustrated, and will contain nearly twice as much reading matter as any other weekly paper. No money or pains will be spared in order to render it the handsomest and best weekly paper ever produced in the United States. Price, \$3. One copy of the "LITERARY COMPANION" and one copy of the "HOME CIRCLE," together, one year, \$4.50. Sample copies will be sent free by addressing F. GLEASON, 47 Summer Street, Boston, Mass.

Poetry.

LINES

Suggested on the first snow upon the grave of our Mother, SALLY KIDDER, who passed to spirit life, Aug. 30, 1865.

Mother! this pure and spotless snow, The first thy grave hath dressed, Although both months and years have flown, Since has thy lips we pressed.

Eric Summer veiled her smiling face, " thy sacred relics, we enshrine, Not in their final resting place, Remained in Spring-time's early bloom."

Where buds and flowers, and birdlings praised, A wreath of love for thee entwined, And then for the marble raised, Thy name and age thereon enshrine.

Thine thy request we do fulfil, In health we talked it o'er and o'er;

When death thy aged form should chill, Our Mother's voice would be heard no more.

Although four-score years and ten were thine, Thy mind was clear and eyes were bright, Thy clustering virtues ere will shine, As shines the stars with heavenly light.

Mother, while ages roll afar, While months and years there measure fill, With hope and fear we struggling pray, Bravely to bear life's passing ill.

Ever we'll strive the goal to win, Blindly perchance must onward press, Thy soul to ours would fondly bring, To wrong o'ercome to soothe and bless.

Thy memory, dear Mother, it never can perish, In sunshine or storm o'er life's changing sea. Our faith in the Father we ever will cherish, Till the pale boatman shall bear us to Thee.

Gently and softly o'er the grave of our Mother, Fall the snow flake so lovely and pure, Sacred the dust that in silence doth slumber, But the beautiful spirit will ever endure.

A. J. K.

Quincy, Dec. 3d, 1869.

Farmers' Department.

KEEPING A FARM JOURNAL.

No doubt there are many farmers who commence business with a determination to keep a daily record of their operations on the farm, and the results of them. This resolve is carried into execution for a time, but after awhile intermissions in these jottings occur, and they finally cease altogether. This delinquency does not prove that the practice is not a good one, and as an incentive to perseverance, we would cite a case of a man who commenced farm life bachelored, but eventually attained great wealth—a result he attributed in great measure to a daily journalizing of his farming operations—a practice kept up for forty-five years and not then discontinued.

These daily memoranda were made in books of convenient size, each containing the records of a single year, and when full, properly labelled and filed away for future reference when desirable. They were the number of heads turned each year, the character of the crop, the estimated or actual yield, the amount of labor bestowed, the names of the parties employed each day, the rate of compensation, the daily receipts for stock and farm produce sold, money paid out, for what purpose, the character of the weather, together with such reflections as the current news of the day supplied. This journal was uniformly written up each night just before retiring to rest, but when the party was absent, as was occasionally the case, it was the duty of the person in charge to make the necessary memoranda each evening.

These records were often appealed to to decide disputed points in regard to the weather and crops of particular seasons, and not unfrequently taken before the courts for the purpose of determining the date of particular local transactions. At first these nightly records may prove rather irksome, but if the practice is kept up perseveringly for two or three years it becomes a habit, pleasurable rather than otherwise, and profitable to the parties who steadily pursue it.—American Farmer.

Anecdotes.

A Yankee bet with a Dutchman that he could swallow him. The Dutchman lay down on a table, and the Yankee, taking his thumb in his mouth, nibbed it severely.

"Ah, you are biting," roared the Dutchman.

"Why, you old fool," replied the Yankee, "did you suppose I was going to swallow you whole?"

A well-dressed and rather pompous youth asked a young lady who was reading in the cars, "is that seat engaged, madam?" pointing to the one beside her.

"Yes, sir, and I am engaged too." She resumed her reading, and the youth evidently much discomposed, retired.

"You ought to lay up something for a rainy day," said an anxious father to his profligate son.

"And so I have," replied the young hopeful.

"What?" asked the father.

"An umbrella!" was the impertinent reply.

"Alas!" said a moralizing bachelor, within earshot of a witty young lady of the company, "this world is at best but a gloomy prison!"

"Yes," sighed the merciless minx, "especially to a person doomed to solitary confinement!"

SOUTHER'S
Newspaper and Periodical Depot.

I TAKE this opportunity to inform my friends, the inhabitants of Quincy and vicinity, that I have assumed the interests of the store formerly occupied by C. A. FOLLETT,

Next Door to the Post Office,

Where I will continue to supply the
